## City of Evanston Sheridan Road Water Main Improvement Project

January 13, 2016

---

### Project Description

Over the next four months the City will be contracting water main improvements on Sheridan Road from Emerson Street to Lincoln Street. This project consists of a combination of trenchless cured in place pipe lining renewal and open cut replacement of deteriorated 18" diameter water main. This work is part of the City's continuous program to renovate and improve the water distribution system throughout the community. Funding for this project will be from the City's Water Fund.

Preliminary construction staging and minor preparatory work will begin the week of January 18. Full construction activities are scheduled to begin **Monday, January 25**, weather permitting. The entire project is expected to be completed by late May.

Traffic patterns will vary during construction. The work will require the traffic lanes to be reduced to one lane in each direction for an extended period. Delays are expected so please plan accordingly and use alternate routes as practical. Every attempt will be made to minimize inconveniences to the traveling public.

### Contractor

The contractor for this project is Bolder Contractors, Inc., 316 Cary Point Drive, Cary, Illinois 60013.

### City Monitoring

The City has retained Christopher B. Burke Engineering, Ltd. to provide daily field inspection services. This project is monitored by the City's **Capital Planning & Engineering Bureau**. If you have any questions or comments, please contact Dan Manis, P.E., Senior Project Manager at **3-1-1** or (847) 448-4311.
