Trial Traffic Restrictions – Ridge Avenue and Grove Street

March 22, 2016

To address safety and operational concerns at the intersection of Ridge Avenue and Grove Street, the Public Works Agency in coordination with the Evanston Police Department will implement changes to the traffic patterns at this intersection on a trial basis.

Traffic signs will be posted at the Ridge Avenue and Grove Street intersection and the trial implementation will start **Wednesday, April 13, 2016 and continue until October, 2016**. Between the hours of 7:00 AM and 7:00 PM the following traffic restrictions will be enforced:

- Both north bound and south bound traffic on Ridge Avenue will be prohibited from making left turns onto Grove Street.
- Both east bound and west bound traffic on Grove Street will be required to turn right onto Ridge Avenue. Left turns or straight through the intersection movements will not be allowed from Grove Street.

The trial implementation will allow the City to evaluate if these modifications improve the safety and operations at this intersection before proposing permanent changes be implemented.
