

City of Evanston Dodge Avenue Bus Stop Pilot

The City will host a Neighborhood Meeting to gather input regarding a pilot program to add accessible bus stops along Dodge Ave between Oakton St and Main St.

Presentation and Discussion:

- Tuesday, July 17, 2018 from 6:30 P.M. to 7:30 P.M.
- Levy Senior Center, Linden Room
- 300 Dodge Avenue, Evanston, IL 60202

Topics of Discussion:

- Project information
- Existing site condition
- Preliminary design ideas
- Open discussion of community ideas

Project Purpose:

To increase accessibility of the bus stops along the Dodge Ave corridor. The existing bus stops along Dodge Ave between Oakton St and Main St are flag stops. Flag stops allow passengers to signal to the bus to stop at any location. The location where a passenger flags the bus to stop is not always safe for the bus to pick up a passenger. Bus drivers may ask the passenger to move toward a safer location or refuse service at a flag stop. Due to a lack of timed stops, routes with flag stops often fall behind schedule and limit the ability of passengers to know when the bus will arrive.

The CTA and City propose to eliminate flag stops on Dodge Ave between Oakton St and Main St to allow the placement of accessible bus stops. Accessible bus stops allow passengers with limited mobility a safe location to get on the bus. Accessible bus stops also follow a strict schedule and provide predictability of when the bus will arrive.

Project Location:

Please see the back of this flyer for a map of proposed bus stop locations on Dodge Ave between Oakton St and Main St.

Questions about the Dodge Ave Bus Stop Pilot project should be directed to Jessica Hyink, Transportation & Mobility Coordinator at 3-1-1 or (847) 448-4311.

DODGE AVE. PROPOSED BUS STOPS (OAKTON TO MAIN)
