WEEK ENDING SEPTEMBER 25, 2020

#AllInIllinois #StayHomeSaveLives #ItOnlyWorksIfYouWearIt

NWMC Here to Help Update

On Monday, the Centers for Disease Control issued guidance on conducting celebrations for the fall and winter holidays. The guidance, which can be found by visiting <https://www.cdc.gov/coronavirus/2019-ncov/daily-life-coping/holidays.html>, offers general considerations and suggested safety measures to implement before, during and after holiday celebrations in order to minimize the exposure or spread of COVID-19. The guidance specifically identifies low, medium and high risk activities related to Halloween, Día de los Muertos and Thanksgiving. Holiday guidance from the Illinois Department of Public Health is expected soon and staff will forward once received.

As always, staff will continue to work with our local government partners as well as monitor federal, state and local COVID-19 news, conference calls/press conferences and share pertinent information as it becomes available. Please do not hesitate to use NWMC staff as a resource and please contact us at any time. Stay well and we stand ready to help in any way we can! *Staff contacts: Mark Fowler, Larry Bury*

Can You Do the Northbrook Dutch Reach?

The NWMC Bicycle and Pedestrian Committee met Tuesday and discussed a number of bicycling safety resources and the virtual field trip of the North Channel Trail. *Northbrook Civil Project Engineer Jim Baxa* highlighted a project of the village's bicycle task force to create a series of safety videos on bike and pedestrian safety. The Village's first video educates residents about the [Dutch Reach](#) to prevent dangerous and even life-threatening accidents between motorists and cyclists. The committee also discussed a series of educational videos and safety resources from Ride Illinois, <https://rideillinois.org/advocacy/digital-ad-safety/>.

Committee members discussed resources available to assist communities in applying for Illinois Transportation Enhancement funds. The Active Transportation Alliance has posted a number of resources, webinar recordings and answers to frequently asked questions regarding the current call for projects, which ends Monday, November 2. Please visit <https://activetrans.org/itep> for more information. Finally, the committee discussed their experiences on the virtual field trip of the North Channel Trail. *Des Plaines Civil Engineer Derek Peebles* created the route and compiled a helpful set of resources and marked points of interest for participants. Mr. Peebles also announced he is leaving his job with the city and therefore stepping down as co-chair of the committee. We are grateful for Derek's service to the committee and wish him the best in his future endeavors! *Staff contacts: Kendra Johnson, Matt Pasquini*

New Data and Resources from CMAP

Recently, the Chicago Metropolitan Agency for Planning (CMAP) released several new datasets and tools for local governments to use when developing strategies to tackle local issues. Since the start of the pandemic, CMAP has been tracking changes in local travel patterns and the potential impact on congestion and local revenue. Last week, the agency produced an interesting and [updated analysis](#) covering these topics and more. CMAP has also completed an update of their My Daily Travel Survey, which began approximately a year before the start of the COVID-19 pandemic. A [summary of the trends](#) is available on CMAP's website, and the data itself can be downloaded from [CMAP's Data Hub](#). Finally, CMAP has developed a new guide for local development incentives that provides best practices and strategies for improving their use at the local level. The guide is available for [digital viewing](#) and
