## NOTICE TO PROPOSERS

Proposals will be received by the Purchasing Office until **2:00 P.M. local time on <u>May 17,</u> 2022**. Effective immediately, the City of Evanston will no longer accept hard copy paper submittals for any solicitation. Responses will only be accepted electronically via E-bidding through DemandStar (www.demandstar.com). Although registration is required, vendors can download solicitations and upload responses for free. Proposals shall cover the following:

#### Commercial Municipal Solid Waste and Construction Debris Franchise RFP Number: 22-33

The City of Evanston's Public Works Department is seeking proposals from experienced firms for: Commercial Municipal Solid Waste and Construction Debris Franchise.

There will be a Non-mandatory pre-proposal meeting held virtually at 11:00 A.M., Wednesday, April 27, 2022. Interested parties can use the following link to access the meeting: <u>https://meet.google.com/div-nbyf-geg</u> or join by phone at **(US) +1 402-685-0226 PIN: 946 797 079#.** All firms intending to submit a proposal for this project are encouraged to attend to discuss the proposed work and receive answers to questions related to the project.

The above item shall conform to the RFP on file in the Purchasing Office. Parties interested in submitting a proposal should contact the Purchasing Office to receive a copy of the RFP or see the City's website at: <a href="http://www.cityofevanston.org/business/bids-proposals/">www.cityofevanston.org/business/bids-proposals/</a> or Demandstar at: <a href="http://www.demandstar.com">www.cityofevanston.org/business/bids-proposals/</a> or

The City (the City of Evanston) in accordance with the laws of the State of Illinois, hereby notifies all firms that it will affirmatively ensure that the contract(s) entered into pursuant to this notice will be awarded to the successful firm without discrimination on the grounds of race, color, religion, sex, age, sexual orientation marital status, disability, familial status or national origin. The City of Evanston reserves the right to reject any or all submittals or to accept the submittal(s) deemed most advantageous to the City.

The Evanston City Council also reserves the right to award the contract to an Evanston firm if that firm's bid is within 5% of the low bid.

Each Proposer shall be required to submit with his/her proposal a Disclosure of Ownership Interest Statement Form in accordance with Section 1-18-1 *et seq*. of the City Code. Failure to submit such information may result in the disqualification of such proposal.

Linda Thomas Purchasing Specialist

# **1.0 INTRODUCTION**

A. The City of Evanston is seeking proposals from experienced waste management companies (firms) to provide Commercial Municipal Solid Waste Services (the collection, transportation and disposal of refuse and recycling from commercial, business, institutional, mixed-use, and multi-family residential buildings, who are currently not being serviced by the City or have not been provided exemption from the franchise agreement), Construction Debris service (the collection, transportation and disposal of construction and demolition waste), Customer Service to all accounts included under the agreement, and Revenue Collection Services.

The City is furnishing herein a set of specifications by which such proposals will be considered. Any firm desiring to furnish a quotation for such services must submit proposals following the instructions and format of the Request for Proposals (RFP) documents.

B. Purpose of this Section

Although this Section primarily contains general information, the operative language contained herein will be part of the contract with the chosen Firm. Descriptions of the current commercial solid waste program are provided only as an orientation. It is intended for use as a guide only.

- C. Project Background
  - i. The City determined that an exclusive solid waste franchise for commercial, business, institutional, and multifamily residential buildings is in the best interest of both the City and the users. In 2022, the City established by City code section 8-27 a municipal solid waste franchise<sup>1</sup>. Since establishment, the City has issued one seven (7) year contract with a five (5) year extension and two one (1) year options scheduled to expire on October 31, 2022.

Benefits include:

- Lower and standardized collection and disposal costs
- Enable businesses and institutions to increase recycling diversion through on-site assistance and outreach
- Provide recycling service and reduce landfill waste volumes
- Stabilize yearly cost increases to users
- Enforcement of public safety and health laws would be greatly enhanced by having a single contractor

<sup>&</sup>lt;sup>1</sup> The original ordinance 8-4-9 et seq., passed in 2018, was amended in 2022.

- Minimize and more effectively control the flow of heavy equipment on City alleys and streets through the efficient routing of collection vehicles
- Reduction in heavy equipment traffic that will lead to lower greenhouse gas emissions from vehicle exhaust
- ii. Description of Current Commercial Refuse and Recycling Collection

The City currently provides, by contractor, refuse and recycling services to commercial, business, institutional, mixed-use, and multi-family residential buildings. There is a subset of these property types that are not included in the commercial franchise, and therefore, are being serviced by the City.

The following services are provided by the City's current commercial municipal solid waste and construction debris franchise contractor.

- 1) Regularly scheduled refuse collection
- 2) Regularly scheduled recycling collection
- 3) Permanent compactor
- 4) Temporary construction debris roll-off collection

There are approximately 617 accounts that receive both refuse and recycling service and 682 accounts that receive refuse only collection through the commercial municipal solid waste franchise. There are approximately 1,299 total accounts, combining those that receive refuse only and both refuse and recycling. From 2017 - 2021 the average annual weight was 28,000 tons of refuse and 2,500 tons of recycling for customers serviced by this contract. Each account is eligible to receive one 95-gallon recycling cart collected weekly at no additional charge.

These locations are serviced by dumpsters and wheeled carts. Dumpsters and carts are provided, owned and maintained by the Firm. The Firm invoices each account directly and the City is not involved in that transaction.

The City provides recycling only collection at approximately 291 multi-family apartment buildings. These properties still receive refuse collection service from the City's commercial municipal solid waste franchise contractor.

The City's residential refuse hauler provides refuse collection services for the majority of the City's facilities through a separate contract.

The City will provide the selected Firm with a list of all existing accounts and their respective service levels as provided by the existing Firm, in addition, the City will provide a list of all accounts that the City currently services for recycling.

On average, 151 Roll-offs are provided per month for the construction debris removal.

iii. Description of Current Composting Collection Services

As of November 1, 2017, all Evanston properties including business and commercial properties became eligible to receive food waste composting service through the City's exclusive contractor, Collective Resource, Inc. Collective Resource, Inc. was granted a five (5) year exclusive Stand Alone Food Scrap Collection Program contract that will expire on October 31, 2022.

- D. Contact with City personnel in connection with this RFP shall not be made other than as specified in this RFP. Unauthorized contact of any City personnel may be cause for rejection of a proposal.
- E. Prior to the submittal of a proposal, Proposers are advised to carefully examine
  - The contract documents
  - Project scope and work tasks to be accomplished
  - Specifications
  - Submittal requirements
  - Insurance requirements and required documentation
  - City Code Title 8 Chapter 4 and Chapter 4 ½ and Chapter 27
  - <u>Climate Action and Resilience Plan (CARP)</u>

Proposers are advised to become thoroughly familiar with all conditions, instructions and specifications governing this RFP. Proposals shall be made in accordance with these instructions. Proposals shall be submitted on the forms provided by the City.

The City will not be liable in any way for any costs incurred by respondents in replying to this Request for Proposal.

# 2.0 SCOPE OF SERVICES

- A. The City invites experienced waste management companies (firms) to submit proposals in accordance with the requirements of this Request for Proposal and Service Agreements.
- B. It is the City's intention to select one firm that must commit to provide these services, at the established terms & conditions for a period of five (5) years, with an option to renew for two additional three (3) year periods. No renewal shall begin until agreed to in writing by both parties prior to completion date of this agreement.
- C. Title to Waste: The Firm will retain title to all material that is collected through this Agreement.
- D. The Firm shall provide complete service for designated collection, transportation and disposal (or sale) of refuse and recyclable materials generated by the Commercial Municipal Solid Waste Services at the facility or facilities approved by

the City. The Firm shall be the sole and exclusive agent of the City to provide the services described in Section 2.02 (A) of this RFP.

- E. The Firm shall provide complete service for collection, transportation and disposal (or sale) of waste generated by the Construction Debris Services at the facility or facilities approved by the City. The Firm shall be the sole and exclusive agent of the City to provide the services described in <u>Section 2.02 (B)</u> of this RFP.
- F. The Firm will provide revenue collection services in accordance with <u>Section 2.04</u> of this RFP for all Commercial Municipal Solid Waste and Construction Debris Services provided under this Services Agreement. This will include monthly service billing as well as the collection of an Evanston administration fee remitted to the City.
- G. The Firm shall not reject a service offering to any or all commercial, business, institutional, and multifamily sectors.
- H. The City reserves the right to adjust or expand the scope of Commercial Services required under this Service Agreement, upon thirty (30) days prior written notice to the Firm, to accommodate any future potential changes to City Code that could alter the definition or requirements of service, changes in the scope of services provided by SWANCC or to advance the City's Zero Waste goal outlined within the Climate Action and Resilience Plan (CARP). The City and the Firm agree to negotiate an equitable adjustment to the Firm's compensation under this Services Agreement required as a result of any adjustment/reduction or expansion of City or Franchised Services.
- I. Providing educational and technical information relating to the City's Waste goals and the desire to increase recycling as described in <u>Section 2.05</u> of this RFP.
- J. Achieving the goals laid out in the Zero Carbon Fleet Plan in support of the City's Climate Action and Resilience Plan (CARP).
- K. Handling all customer service requests related to accounts provided service under agreement.

## 2.01 DEFINITIONS

- A. "Administrative Fee" A fee established by the City that may change from time to time. Said fee shall be collected by the Firm and remitted to the City on a quarterly basis.
- B. "Climate Action and Resilience Plan" is the community plan to reduce Evanston's greenhouse gas emissions and prepare for the impacts of climate change adopted by the City Council through resolution 105-R-18. A copy of the document is available here: <u>https://www.cityofevanston.org/home/showdocument?id=45170</u>.
- C. "City" means the City of Evanston, Illinois.

- D. "Firm" means an Illinois corporation, and its successors and assigns.
- E. "Project Use Agreement" means the Project Use Agreement, dated March 25, 1992, between the Solid Waste Agency of Northern Cook County and the City of Evanston, as amended from time to time.
- F. "Recyclable Materials" is any material that can be recycled or reused or as described in the City of Evanston's Code. and any other material or materials which the City and the Firm mutually agree to include as a "Recyclable Material" subsequent to the execution of this Agreement.
- G. "State" means the State of Illinois.
- H. "SWANCC" means the Solid Waste Agency of Northern Cook County.
- I. "Services Agreement" means this Agreement, dated \_\_\_\_\_\_, 20\_, by and between the City and the Firm, as amended from time to time.
- J. "Waste Characterization Study" means a study used to determine the composition and quantification of municipal solid waste and recycling originating and disposed of within an area completed in accordance to the most up-to-date version of the ASTM standard D5231 Standard Test Method for Determination of the Composition of Unprocessed Municipal Solid Waste.
- K. "Zero Waste" is Evanston's goal outlined in the Climate Action and Resilience Plan where the percentage of material generated in Evanston is diverted from the landfill and the percentage reaches 100%.
- L. "311" is Evanston's primary customer service platform.
- M. "Refuse" is all discarded, unwanted, or rejected materials, not including yard waste, compostable materials, recyclable materials or construction debris or as described in the City of Evanston's Code.
- N. "Construction Debris" is any building material generated from the installation, repair, maintenance, alteration, enlargement, demolition, or abandonment of facilities or as described in the City of Evanston's Code.
- O. "Municipal Solid Waste" is any recyclable materials, refuse, compostable materials and yard waste, or as described in the City of Evanston's Code. Does not include construction debris.
- P. "Yard Waste" is grass clippings, leaves, tree pruning's and woody wastes, weeds, brush, and other compostable landscape type materials or as described in the City of Evanston's Code.
- Q. "Roll-Off" is an open or closed top steel dumpster, characterized by a rectangular shape and footprint, utilizing wheels to facilitate rolling the dumpster in place.

## 2.02 GENERAL SERVICE REQUIREMENTS

- A. Commercial Municipal Solid Waste Services
  - a. The Firm will provide the collection, transportation, and disposal of material collected from the following Commercial Services for commercial, industrial, institutional, and multi-family (six (6) units or greater) properties to the facility or facilities approved by the City.
    - i. Regularly scheduled refuse collection
    - ii. Regularly scheduled recycling collection
    - iii. Temporary Roll-Off refuse collection
    - iv. Temporary Roll-Off recycling collection
  - b. The collection, transportation and disposal of municipal solid waste from any commercial, industrial and institutional account within the City is not included within this Services Agreement if the City approves an exemption of the specific services under the terms of the applicable provisions of the City Code.
  - c. Commercial Refuse Services
    - i. The Firm will provide compactors to properties that request a compactor.
  - d. Commercial Recycling Services
    - i. The Firm will provide, based on the customer's request, the following recycling service options **without additional charge**:
      - 1. One 95-gallon recycling cart collected weekly
      - 2. One 1-cubic yard recycling dumpster collected weekly
    - ii. The Firm will provide compactors to properties that request a compactor.
    - iii. Recyclable Materials will be sorted, processed, and transported for sale to sites approved by the City. The Firm will retain all income (and fully bear all losses) resulting from the disposition of Recyclable Materials.
    - iv. The Firm shall have a contractual obligation to ensure that all Recyclable Materials collected are properly processed and marketed. No collected Recyclable Materials shall be landfilled or incinerated, unless written advance authorization to do so is given by the City.
    - v. The City will have the right to add materials to the list of Recyclable Materials stated in <u>Section 2.01 (F)</u> pending the availability of markets for materials to be added and approval from the Firm.
    - vi. The Firm will sell all Recyclable Materials it collects under this Services Agreement. If changes in the market for the sale of any particular Recyclable Material makes continued collection of such Recyclable Material not economically feasible, the Firm will consult with the City regarding the market changes of the affected Recyclable Material. The City may, at its discretion, agree to remove

from the list of Recyclable Materials any economically infeasible item upon such market change.

- B. Construction Debris Services
  - a. The Firm shall also make available to residences and businesses, temporary construction and demolition dumpster roll-offs for all types of construction debris and material not otherwise specified by this Service Agreement including, but not limited to, earth, sod, rocks, and concrete. However, the Firm will not be required to provide for the collection and disposal of poisonous or toxic materials and large quantities of liquid requiring tanker truck disposal equipment.
  - b. For services provided pursuant to <u>Section 2.02 (B)(a)</u>, the Firm agrees to keep available tractor loaders, trailers and other necessary equipment. Upon the request of a residence or business, the Firm will provide the City approved pricing sheet for the cost of providing the various sized containers.
  - c. The collection, transportation and disposal of Construction Debris from any resident, commercial, industrial and institutional account within the City is not included within this Services Agreement if the City approves an exemption of the specific services under the terms of the applicable provisions of the City Code.
  - d. The Firm agrees to follow and adhere to all local, county and state requirements for construction and demolition disposal. The Firm also agrees to provide the City with any copies of necessary reporting requirements per local, county and state requirements as it pertains to construction and demolition disposal.
- C. Food Scrap Services
  - a. In the event that the exclusive franchise for food scrap collection hauler is unable to provide collection service to the customer, the Firm may, after receiving written authorization from the City, provide the customer with Food Scrap collection service. This service is to be negotiated between the Firm and the customer without the City's involvement.
  - b. The Firm would still be required to report service as detailed in <u>Section</u> <u>2.06</u>.

### 2.03 TECHNICAL SERVICE REQUIREMENTS

A. 311 Requests: The City requires the Firm to provide exceptional customer service to all customers served under this Agreement. The Firm must designate a single or multiple staff members in utilizing the City of Evanston's 311 customer service platforms. Staff from the Firm will not be required to have proficiency with the City's customer service platforms but are required to learn how to utilize the

system in order to comply with the requirements below. The Firm must provide an email address to receive requests generated through the City's 311 customer service center. The Firm must acknowledge receipt of each 311 request by marking the request as "in progress" within 24 hours. Within three (3) days of receiving each 311 request the Firm must mark the request as complete or provide an explanation as to why the request was unable to be completed and extend the completion date. In the event that the City changes customer service systems and 311 platforms the Firm must provide the same level of service as indicated above but for the new platform/service.

- B. Firm Contact and Supervision: The Firm must maintain a local telephone line or toll-free line as well as an active email address. The Firm must have a representative available to receive instructions from the City representative and to receive and process inquiries from the public between Monday through Sunday for the service collection hours of 6:30am and 5:00pm for the term of the contract. The Firm must have on duty on all collection days at least one (1) qualified supervisor to be in the field when the collection is carried out, having for his/her use communication equipment so as to ensure a courteous, prompt and efficient method for dealing with requests for service or missed collections made by the City representatives or public.
- C. Start Time: The Firm must do all work in such a manner as not to create a nuisance. Commercial Municipal Solid Waste Service collection must not start prior to 6:30am in the downtown zoning districts and 7:00am for all other locations. Construction Debris Service collection must not start prior to 7:00am without prior approval from the City for each specific site.
- D. Protection of Property: The Firm shall take all reasonable actions to avoid damage as a result of its operations, to existing sidewalks, curbs, streets, alleys, trees, parkways, pavements, utilities, adjoining property, and the property of the City and others. The Firm shall repair any damage thereto or replace damaged items specifically caused by the Firm's operations. Firm shall also leave all property described in the preceding two sentences in a clean and sightly condition, and shall clean property that is made unclean or unsightly by the Firm's operations under this Agreement. All materials collected by the Firm shall be contained, secured or enclosed during collection and transportation so that leaking, spilling or blowing is prevented. The Firm shall immediately clean up and remediate all litter, blowing debris, spills and releases of any material resulting from the Firm's operations. Refuse and recyclable materials spilled or scattered on sidewalks, gutters, alleyways, right of ways, or roadways during collection OR transport must be immediately cleaned up by the Firm.
- E. Damage to Streets Prohibited: The Firm shall use equipment that will not damage or disfigure City streets, and its operators/employees shall operate equipment in a manner that will not damage or disfigure City streets, sidewalks, trees, curbs, parkways, pavements, and City property. Firm shall repair, at its sole expense, all damage to City property that is caused by spills, skidding vehicles, driving on sidewalks or parkways, equipment malfunctioning, or operator/employee negligence. The Firm shall provide the City a bond in the amount of \$10,000 to be

used if the City cleans the streets or sidewalks instead of having the Firm do so, or, in the event the Firm does not perform such work to the City's satisfaction. This bond will be maintained on an annual basis each calendar year this Agreement remains in effect.

- F. Regularly Scheduled refuse and recycling collection must be made regardless of weather or other conditions which would impede collection, such as snow, flood, riot or other disaster unless authorization to suspend collection is obtained from the City. This authorization may be verbal, by the request from the Firm and the authorization by the City must be confirmed in writing within one business day. The Firm's attention is called to the fact that the quantity and tonnage of material to be collected may vary during the life of the contract period. Regardless of quantity, the Firm is obligated to meet all conditions of the pertinent specifications.
- G. Regularly Scheduled refuse and recycling collection must occur on the days of the week established between the customer and the Firm. The Firm must provide service options seven (7) days a week for refuse and recycling.
- H. Should the City choose a different Firm at the expiration of the contract, the firm must agree to cooperate with the chosen Firm in effecting a timely and orderly transition. Within one (1) year of the contract effective date, the City and the Firm will develop a plan for transitioning to the newly selected Firm prior to the contract end date.
- I. The Firm may not utilize refuse disposal or transfer facilities located within the municipal boundaries of the City of Evanston.
- J. The Firm must provide their staff with the training and technology to allow them to take, store, and send digital pictures of the services they provide within Evanston.
- K. Emergency Request for Service: Upon request by the City, the Firm shall provide the services offered under this Service Agreement free of charge in emergencies to alleviate threats to public health, safety and welfare, including but not limited to, flooding and fly-dumping. The Firm's obligation to provide collection services under this Section shall be limited to forty (40) hours per year. The Firm's obligations under this Section do not include locations serviced by any other third party waste collection company. The maximum charge for additional costs associated with services exceeding the 40 hour limit in this Section charged to the City shall not exceed One Hundred Twenty-five Dollars (\$125.00) per hour with one (1) collector. The Firm may be requested to respond to the City's request for these services within a twelve (12) hour period in the event of an emergency. If the Firm fails to respond to the City's written request, the City may charge One Hundred Seventy Five Dollars (\$175.00) per hour up to forty (40) hours per year.
- L. Contingency Plan: The Firm will be required to submit to the City a written contingency plan demonstrating the Firm's arrangement to provide vehicles and personnel to perform its services after one cycle of missed collection, and to provide service during mechanical breakdowns, natural disaster, strikes or other emergencies.

### 2.04 BILLING

- A. Billing of Accounts: The Firm shall perform the billing and collection for all services provided under this agreement on a monthly basis for the following month. The bill shall be payable by the commercial entity within thirty (30) days. Unless Evanston has declared a State of Emergency, the Firm has the right to incorporate a finance fee not to exceed 1.5% monthly for delinquent accounts. If Evanston declares a State of Emergency, the finance fee shall be waived for the same time period that the City waives late fees on its own utility bill.
- B. Commercial Municipal Solid Waste Service: Each commercial entity shall be billed for the collection, transportation and disposal (or sale) of Commercial Municipal Solid Waste in accordance with the agreed upon rate based on, or a combination of, the container(s) size and frequency of service and weight of material.
- C. Construction and Debris Service: Each entity using this service shall be billed for the collection, transportation and disposal of Construction Debris waste in accordance with the agreed upon rate based on, or a combination of, the container(s) size and frequency of service and weight of material. The Firm may, but is not required to, include the bill for this service on the commercial entity's bill for Commercial Municipal Solid Waste Services. Alternatively, the Firm may bill separately.
- D. Evanston Administrative Fee: All bills shall include an Evanston administrative fee. The City will establish the administrative fee and may adjust the administrative fee from time to time. The Firm will account separately for all amounts received for the administrative fee and hold such amounts for the benefit of the City. These amounts shall be remitted to the City no later than 30 days after the close of a billing cycle quarter. Billing Cycles quarter closes are expected to be at the end of the following months; January, April, July, October.
- E. The City agrees to cooperate and assist the Firm, when necessary, in the collection of funds owed for services performed. The Firm is responsible for informing the City of all delinquent accounts every two weeks where service may ultimately be affected or suspended due to these delinquencies. If the Firm actually suspends service to an account, the Firm shall notify the City representative in writing informing them of the service suspension for the specific account on the same day that the service suspended. The City further agrees to cooperate with respect to information, if any, relating to property vacancies or any other information that will assist the Firm in the execution of this Solid Waste Services Agreement.

## 2.05 OUTREACH REQUIREMENTS

- A. Customer Outreach and Education
  - a. The Firm will work with the City's Public Works Agency and Sustainability Office in creating promotional and educational materials. The materials will

require final approval from the City. These materials are expected to build awareness towards diversion statistics, trends, service offerings, and compliance towards current or new city ordinances.

- i. Promotional and educational materials can be developed for printed, electronic, social media mediums.
- ii. Interval of developing materials will be based on needs as agreed upon by the City and the Firm
- iii. Firm will be expected to provide at least an annual newsletter detailing basic service offerings, waste diversion trends for the commercial sector and any other information deemed necessary by the City. The annual newsletter is expected to be sent out prior to the second quarter meeting each year.
- iv. Any printed or mailed material will be published in English and Spanish, with the option to publish in additional languages at the discretion of the City.
- v. The Firm is expected to share promotional and educational materials through their own communication channels (email lists, social media, etc.) when possible.
- vi. The City will be required to ensure the Firm's logo is clearly visible in any material that is developed.
- vii. The City's Sustainability Office will prepare a list of items for newsletter inclusion and submit them to the Firm no later than thirty (30) days prior to the Firm's required submission to the City.
- viii. In addition to the required items listed above, the newsletter will include information regarding contractor performance related to customer complaint resolution, material recovery, and progress toward the Climate Action and Resilience Zero Waste goals.
- ix. The cost for creating these materials will be shared between the City and the Firm. The expected breakdown is 50% cost by both the City and the Firm.
- b. The Firm will provide each customer with basic service information posters/signs in the first year of the service and to every new account/customer within 30 days of service initiation. The material will be designed and developed by the City's Public Works Agency. Printing, delivering, and disseminating the material is the Firm's sole responsibility.
- c. A Representative of the Firm will contact the Account Holder of customers that receive four (4) cubic yards or greater of total weekly municipal solid waste collection.
  - i. During the term of the contract the representative is expected to visit or make contact with every account at least once in a rolling three year period.
    - 1. The City would expect that each year the representative is reaching out to an equal portion or the eligible accounts.
    - 2. If the Firm is unable to meet or make contact with someone at the customer's premises who is authorized to manage franchise services, or if a business is closed, the Firm will leave a message detailing who they are and why they are reaching out. The Firm will note the date and time of visit and

make another attempt within ten (10) days of that date. If the Firm representative is unable to make contact still, they do not have to attempt to make contact again until a new calendar year.

- ii. During their visit or contact, the representative will:
  - 1. Catalog any continual service issues from the customer's perspective and develop a written standard operating procedure for collection if necessary.
  - 2. Review the customer's Commercial Municipal Solid Waste franchise service subscription per address under the account, including the number and size of customer's containers for refuse and recycling, respectively, and collection frequency.
  - 3. Provide the customer with adequate standardized signage, decals and educational materials, designed or approved by the City, and suggest preferred locations for placement if needed.
  - 4. Make any recommendations in writing to change the customer's franchise service subscription, including changing the number, size, and type (such as refuse or recycling) or collection frequency of containers in order to provide adequate refuse disposal service but also maximize recycling diversion.
  - 5. Check each customer's containers to monitor:
    - a. Participation recyclable material discarded in refuse containers
    - b. Contamination refuse and other contaminating materials discarded in recycling containers
    - c. Overflow Issues where containers are not able to accommodate the volume of material being placed inside
  - 6. Identify customer limitations to increase recycling, for example:
    - a. Zoning conflicts
    - b. Lack of storage space
    - c. Lack of markets for generated materials
    - d. Non-generation of recyclable materials
    - e. General unwillingness
- iii. The Firm will report this data to the city as indicated in <u>Section 2.06</u>

## 2.06 REPORTING REQUIREMENTS

- A. The Firm must retain all data collected for the duration of the contract and must be prepared to provide data to the City within 48 hours of request in an editable electronic format (Excel, Word, etc.).
- B. The Firm will use the City's preferred and established reporting methods. The preferred reporting method can be different depending on the report and is at the

discretion of the City. On a quarterly basis, or as dictated otherwise below, the Firm will furnish the following reports with the requisite detail in each report:

- a. Refuse Data: Report on the quantity (in tons) of all refuse collected within the City of Evanston for listed services in <u>Section 2.02 (A)</u>. The report is expected to be itemized to provide the City enough detail on how much refuse is collected and by which month. If a Firm holds multiple contracts or service agreements within the City, each service must have its weight tracked independently and identified as such in reports from other services.
- b. Recyclable Materials Data: Report on the quantity (in tons) of all recyclable materials (commingled or source separated) collected within the City of Evanston for listed services in <u>Section 2.02 (A)</u> or highlighted in Exhibit L as an offered service. The report is expected to be itemized to provide the City enough detail on how much recycling is being collected and by which month. If a Firm holds multiple contracts or service agreements within the City, each service must have its weight tracked independently and identified as such in reports from other services.
- c. Construction Debris Data: Report on the quantity (in tons) of all construction debris waste collected within the City of Evanston for listed services in <u>Section 2.02 (B)</u>. The report is expected to be itemized to provide the City enough detail on how much construction debris (in tons) is collected as well as the disposal method used (landfilled, recycled, etc.) and by which month.
- d. Food Scrap Waste Data: If the Firm is offering services as listed in <u>Section</u> <u>2.02 (C)</u> the Firm is expected to provide a report on the quantity (in tons). The report is expected to be itemized to provide the City enough detail on how much material is being collected and by which month. If a Firm holds multiple contracts with the City each service must have its weight tracked independently and identified as such in reports from other services.
- e. Municipal Solid Waste Customer List: An annual audit of the scope of service matrix will be performed and access to this matrix database will be provided to the City. The information on this service matrix will include the name of account holder, the service address, the billing address (if different than the service address), a contact person, a telephone number and email address where the contact person can be reached, the type and size of each container on site (including compacting container units), the quantities of each container type on site, the frequency of collections and what days of the week each container is serviced. The report should also detail how much revenue the Firm is earning from each container type. Each quarter the Firm must supply at least a list of the accounts that have been added, closed, or changed since the most recent quarter audit was supplied. The quarterly list should reflect the same information as present in the annual audit.
- f. Construction Debris Customer List: An annual audit of the scope of service matrix will be performed and access to this matrix database will be

provided to the City. The information on this service matrix will include the name of the account holder, the service address, the individual dates of service, the type and size of container used, disposal method for material (landfill, recycled, etc.) and the tonnage from the individual dates of service. The report should also detail how much revenue the Firm is earning from each container type. If this list is provided with the municipal solid waste list there should be a distinction.

- g. Customer Service Report: On a quarterly basis, the Firm will furnish electronic data reports pertaining to customer service related items. These reports should account for the months prior to the close of a quarter and include logs from the City's 311 system, overflowing containers, contaminated recycling containers, and inaccessible service locations. The logs should include the details on the date the activity occurred, the name of the account, the site address, the type of activity, current status (open, completed, etc.), and if closed what date the item was resolved. Should also make note of the service in question (Refuse, Recycling, Construction Debris, etc.). The Firm should include any dialogue with accounts or pictures relevant to each of the itemized customer service items listed in the report.
- h. An annual list identifying the customers visited or contacted by the Firm's representative. The report should indicate date of contact or visit, the customer address, the contacts name and contact information and any notes pertaining to service resolutions or improvements as well as any recommendations or noted challenges made by the Firm representative to increase the reduction of refuse generation and recycling/diversion as described in <u>Section 2.05 (A) (c)</u>.
- i. Fuel Report: On a quarterly basis the Firm will provide a fuel report with the number of trucks used each quarter in Evanston with the fuel type, the number of days in service, and the total gallons of fuel used.
- j. Suspended Accounts Report: The Firm is responsible to inform the City on all delinquent accounts every two weeks where service may ultimately be affected or suspended due to these delinquencies and effective dates of suspension. The Firm will notify the City within one (1) business day of suspended accounts being suspended and when reinstated.
- k. On an annual basis the Firm will provide the name and address of any landfill where material collected through this agreement is taken. The Firm should supply this information for any refuse material as well as construction debris. The Firm will also provide details about how each landfill is managed and the percentage of methane gas captured, flared, and used for electricity generation. The Firm will notify the City of any changes within thirty (30) days.
- I. On an annual basis the Firm will provide the name and address of any Material Recovery Facility where material collected through this agreement is taken. any landfill where material collected through this agreement is

taken. The Firm should supply this information for any recyclable material as well as construction debris. The Firm will notify the city of any changes within thirty (30) days.

- m. Zero Carbon Fleet Plan: The City has a goal to reduce greenhouse gas emissions by 50% in 2025 and 100% by 2050. In order to continue to reduce the City's greenhouse gas emissions, the City requires that the Firm develop a zero carbon fleet plan for operations in Evanston. This plan will be submitted to the City's Sustainability Office at the second quarterly meeting held between the City and the Firm. The plan will then be reviewed annually at the first quarterly meeting of each year during the duration of the contract. The plan must include: the Firm's baseline greenhouse gas emissions from the transportation of waste for all of Evanston's service territory, a list of all equipment and fuel used by that equipment utilized in the service, and a five (5) year strategy to reduce emissions from the fleet operations. The plan will highlight emissions reductions strategies that will be deployed to achieve these goals including potential shifts in equipment used, fuel types used and routing and efficiency strategies to limit fuel consumption.
- n. Program data and other public information will be provided to each account upon the request of the City to do so. The City may publish anonymized data on generation, diversion, and technical assistance performance received from the Firm on the open data portal or city's website.
- C. Meetings
  - a. In order to ensure a smooth roll out of service the selected firm must meet with the City on at least two occasions between the award of the contract and the contract effective date.
  - b. Beginning the month the contract goes into effect the Firm awarded the contract must meet quarterly with the Public Works Director or his/her designee. Quarterly meetings will be held in the third or fourth week of January, April, July, and October each calendar year. At least one week prior to these regularly scheduled meetings the Firm must provide the reports as indicated in <u>Section 2.06 (B)</u>.
- D. A representative from the Firm awarded the contract should anticipate attending approximately one City Council meeting annually to answer questions and explain service details.

## 2.07 EQUIPMENT REQUIREMENTS

- A. Container Requirements
  - a. Dumpsters, Roll-Offs, Compactors utilized for the City's Commercial Municipal Solid Waste services conform with the following requirements:

- i. Leak-resistant, rodent-resistant, lidded, constructed of impervious material and subject to the inspection of the City of Evanston Health and Human Services Department. Dumpsters utilized for any service must have metal bodies, wheels, and lids that completely cover the container opening. All dumpsters must be maintained to be free of graffiti.
- ii. If located in the downtown zoning districts, the Firm shall provide dumpsters with keys, locks and chains to allow the dumpster to be locked securely except when depositing or removing waste in order to comply with Title 8 Chapter 4 Section 8-4-6 of the City Code. Downtown zoning districts for the purpose of this Request For Proposals are defined as the following zoning districts: D1, D2, D3, D4 or RP, see the City's Zoning Districts Map (Color 25.5" x 28") which can be found at

https://www.cityofevanston.org/about-evanston/maps.

- iii. No additional cost shall be charged for dumpsters with locks and chains or to service these dumpsters. The Firm may charge for replacement keys & locks or chains.
- b. Carts utilized for the City's Commercial Municipal Solid Waste services shall conform with the following requirements:
  - i. 95-gallon containers with approximately the following dimensions and load rating: Height w/lid 45.13 inches, Width 28.50 inches, Depth 33.73 inches, ANSI load rating 332.50 lbs.
  - ii. 65-gallon containers with approximately the following dimensions and load rating: Height w/lid 40.58 inches, Width 26.70 inches, Depth 28.11 inches, ANSI load rating 227.50 lbs.
  - iii. 35-gallon containers with approximately the following dimensions and load rating: Height w/lid 39.13 inches, Width 20.20 inches, Depth 22.98 inches, ANSI load rating 122.50 lbs.
- c. Container Labeling: Containers provided by the Firm shall meet the specifications below which state that containers shall:
  - i. Display the name and address of the premises they serve in conspicuous lettering. Said lettering is to be maintained in a clean and legible condition. Containers shall be situated so that the required lettering is visible from the public way.
  - ii. Display the name of the Firm providing the container.
  - iii. Display the following "If this container is overflowing or broken call 3-1-1."
  - iv. Containers must display weatherproof signage for which waste service it is used for. Signage will be approved by the City of Evanston but printed and affixed to the container by the Firm.
  - v. Containers that are used for collecting recyclable materials must have a blue color identifier to distinguish the container from the refuse containers. Acceptable identifiers can include, but are not limited to, having the recycling container's color or the lid of

containers be blue. The City will need to approve the identifier. If the selected Firm primarily provides blue containers they will have to provide the inverse having refuse containers distinguished appropriately.

- vi. Any containers used for the purpose of collecting and disposing of food scraps must display weatherproof signage (with dimensions no smaller than 8.5 by 11 inches) designed by the City of Evanston but printed and affixed to the container by the Firm. Signs will contain information stating what type of waste is acceptable and not acceptable to be disposed of within said container. The printing and affixing of said signage must be paid for solely by the Firm.
- B. Equipment and Container Replacement: Any containers or equipment that is damaged or does not meet the requirements of this section shall be repaired or replaced within 48 hours of notification of said condition by the City to the Firm.
- C. The Firm must furnish and maintain all trucks, labor, tools, machines, material and equipment necessary and required for the full, proper and efficient conduct of the work. All equipment must be kept in good order and repair must be subject to the approval of the City at all times. Each vehicle must have clearly visible on each side the name and phone number of the Firm.
- D. The Firm must keep all trucks and any other equipment used in the collection and removal of municipal solid waste and construction debris in good repair, including free of any leakage, well painted, numbered and thoroughly cleaned.
- E. The Firm must specify the number and type of all collection truck bodies that will be used during the performance of the contract period. If such equipment is presently owned or leased, the Firm must supply detailed inventories including photographs of their equipment and all accessories by type, model, year of manufacture, and anticipated remaining useful life as of the date of the inventory sheet.

### 2.08 MISCELLANEOUS REQUIREMENTS

- A. Waste Characterization Study
  - a. If asked by the City, the Firm will cooperate with the consultant(s) contracted by the City to complete a Waste Characterization Study that is a representative sample of the commercial municipal solid waste collection stream.
  - b. If asked by the City, the Firm will perform a waste characterization study for both refuse and recycling using a representative sample of the commercial municipal solid waste collection stream. The studies will include the follow components:
    - i. Frequency: The study will be conducted within the first year of the contract. If the City extends the contract the Firm will be responsible

for completing additional assessments within the first year of each contract extension.

- ii. Qualifications and Standard: The Firm will conduct the study using a qualified internal staff person or sub-contractor. The study must be in accordance with the most up-to-date version of the ASTM standard D5231 Standard Test Method for Determination of the Composition of Unprocessed Municipal Solid Waste unless specified from the city to conduct the study differently.
- iii. Waste Characterization Approach: Sixty (60) days prior to performing the Waste Characterization, the Firm will submit a Waste Characterization Approach outlining the procedures, timeline, anticipated outcomes, potential areas of concern and the services covered in the study for review and approval. The City will have ten (10) business days to review and request changes to the Approach. A final Waste Characterization Approach must be submitted to the City no later than fifteen (15) business days prior to the start date.
- iv. Study Report: Within one (1) month of the completion of each waste characterization study, the Firm will provide the City with a report and an (or multiple) editable excel document with the raw and organized study data. The report must include a narrative with detailed explanations of adherence to the ASTM standard D5231, calculations employed, formulas used, photo documentation and any assumptions used in the analysis.
- v. Example Waste Categories and Definitions: An example of the waste component categories used in earlier ASTM D5231 standards is provided below in Table 1 and their definitions are included in Table 2. The Firm will defer to the categories and definitions in the most up-to-date ASTM D5231 Standard available at the date of study commencement unless specified by the city to use adapted categories

Mixed Paper	Other Organics
High Grade Paper	Ferrous
Computer Printout	Cans
Other Office Paper	Other Ferrous
Newsprint	Aluminum
Corrugated	Cans
Plastic	Foil
PET bottles	Other Aluminum
HDPE bottles	Glass
Film	Clear
Other Plastic	Brown
Yard Waste	Green
Food Waste	Other inorganics
Edible Food- Packaged	
Edible Food- Non Packaged	
Inedible Food	
Wood	

Table 1.List of Waste Component Categories

Category	Description
Mixed Paper	Office paper, computer paper, magazines, glossy paper, waxed paper, and other paper not fitting the categories of newsprint and corrugated
Newsprint	Newspaper
Corrugated	Corrugated medium, corrugated boxes or cartons, and brown (kraft) paper (that is, corrugated) bags
Plastic	All Plastics
Yard Waste	Branches, twigs, leaves, grass, and other plant material
Food Waste	All food waste
Wood	Lumber, wood products, pallets, and furniture
Other organics	Textiles, rubber, leather, and other primarily burnable materials not included in the above component categories
Ferrous	Iron, steel, tin cans, and bi-metal cans
Aluminum	Aluminum, aluminum cans, and aluminum foil
Glass	All glass
Other inorganics	Rock, sand, dirt, ceramics, plaster, non- ferrous non-aluminum metals (copper, brass, etc.)

 Table 2. Descriptions of Some Waste Component Categories

# **3.0 INSURANCE**

Consultant shall carry and maintain at its own cost with such companies as are reasonably acceptable to City all necessary liability insurance (which shall include as a minimum the requirements set forth below) during the term of this Agreement, for damages caused or contributed to by Consultant, and insuring Consultant against claims which may arise out of or result from Consultant's performance or failure to perform the Services hereunder.

The consultant must provide an insurance certificate naming the City of Evanston as an additional insured and will provide a variety of insurances including:

- comprehensive general liability \$3,000,000 combined single limit for each occurrence for bodily injury and property damage – designating the City as Additional Insured
- Workers Compensation Statutory Limits
- Automobile Liability \$1,000,000 per occurrence for all claims arising out of bodily injuries or death and property damages.
- errors and omissions or professional liability insurance \$1,000,000

The surety and the insurance company must have not less than an A+ rating from the Alfred M. Best Co., Inc. and be approved by the City of Evanston.

Consultant's certificate of insurance shall contain a provision that the coverage afforded under the policy(s) will not be canceled or reduced without thirty (30) days prior written notice (hand delivered or registered mail) to City.

# 4.0 SUBMITTAL REQUIREMENTS – E-Bidding

The City will no longer accept hard copy paper submittals for any solicitation. Responses will only be accepted electronically via E-bidding through DemandStar. Respondents are still required to complete all of the bid documents and provide all of the requested information in a pdf file(s). **Please refer to attached DemandStar ebidding documents**.

ANY PROPOSALS RECEIVED AFTER THE SUBMITTAL DEADLINE, WILL NOT BE ACCEPTED. It is the sole responsibility of the proposer to ensure that his or her proposal is delivered by the stated time. THE CITY IS NOT RESPONSIBLE FOR INCOMPLETE UPLOADED SUBMITTALS..

#### A. Cover Letter

The cover letter will include the following:

- introduction of firm signed by an authorized Principal of the firm
- name of firm
- address of firm

- phone number of the firm submitting the proposal
- include the name and signature of an authorized binding official who is authorized to answer questions regarding the firm's proposal

#### B. Qualifications and Experience of Firm and/or Team

- All respondents shall describe other contracts (at least 5, but no more than 10) similar in scope, size or discipline to the required services described herein, performed or undertaken within the past five years.
- The respondent must provide references, including name, address and telephone number of a contact person for each project identified and described.
- Indicate commencement dates, duration and type of operation.
- Provide a list of all Municipal clients in Illinois.

#### C. Area/Regional Manager(s)

Clearly identify the professional staff person(s) who would be assigned as your Area/Regional Manager(s) and provide resumes. The proposal should indicate the abilities, qualifications and experience of these individuals.

#### D. Fees

Provide a copy of your fees/prices on the attached price/costs form (see Exhibit M pages 68-70).

### E. Contract

The City has attached its standard contract in Exhibit J (see page 47– Professional Services Agreement). Identify all exceptions to the agreement that would prevent your Firm from executing it. The City shall not consider or negotiate regarding exceptions submitted at any time after the submission of the Proposer's response.

# **5.0 ADDITIONAL SUBMISSION REQUIREMENTS**

Firms must submit a response to the Questionnaire in Exhibit L

# 6.0 M/W/EBE GOALS

The City has a goal of 25% of the contract amount for the participation and utilization of Minority-Owned, Women-Owned, and Evanston-based businesses (M/W/EBEs) in completing a portion of the services required by the City. All respondents must submit a statement of the proposed involvement of M/W/EBEs in completing a portion of the required services. Provide a copy of the certification for M/W/EBEs that will assist in achieving the M/W/EBE goal with your submittal as well as the appropriate M/W/EBE forms or Request for Waiver. Any questions regarding M/W/EBE compliance should be submitted in writing to Tammi Nunez Purchasing Manager at thunez@cityofevanston.org.

# 7.0 EVALUATION CRITERIA

The City will select the successful Firm through an evaluation process based on the firm meeting the specifications which are outlined in this RFP. A review committee will review in detail all proposals that are received. During the evaluation process, the City may require a Proposer's representative to answer questions with regard to the proposal and/or make a formal presentation to the review committee. The review committee will make a recommendation to award the contract based on the criteria set forth below. This contract will be forwarded to the City Council for final approval.

The evaluation criteria listed below will be used in the selection of the successful Proposer.

- **A.** Qualifications and Expertise
- B. Price
- C. Organization and Completeness of Proposal
- **D.** Willingness to Execute the City of Evanston's Professional Services Agreement
- **E.** M/W/EBE Participation

# 8.0 SELECTION PROCESS

The City will select a firm on the basis of the responsiveness of the proposal to the RFP submittal requirements, the evaluation criteria stated above and the demonstrated willingness to execute an acceptable written contract. The City reserves the right to reject any or all proposals, and to request written clarification of proposals and supporting materials from the Proposer.

While it is the intent of the City to award a single firm, the City reserves the right to award in part or in whole and to select multiple firms and/or individuals, depending on whichever decision is deemed to be most advantageous to the City.

Responses may be rejected if the firm fails to perform any of the following:

- **A.** Adhere to one or more of the provisions established in this Request for Proposal.
- **B.** Demonstrate competence, experience, and the ability to provide the services described in this Request for Proposal.
- **C.** Submit a response on or before the deadline and complete all required forms.
- **D.** To fulfill a request for an oral presentation.
- **E.** To respond to a written request for additional information.

Discussions and/or interviews may be conducted with responsible firms that have submitted proposals in order to clarify certain elements. All proposals shall be

afforded fair and equal treatment with respect to any opportunity for clarification. In conducting discussion, there shall be no disclosure of information derived from proposals submitted by competing firms. The selection shall be done by the City's review committee and will be recommended to the City Council for final approval.

If the City is unable to reach any sort of agreement with the selected firm, the City will discontinue negotiations with the selected firm and begin negotiations with the firm ranked second and so on until agreement is reached.

The firm to be recommended to the City Council will be the one whose proposal is determined to be the most advantageous to the City in consideration of price and all other evaluation factors which are set forth in this Request for Proposal No other factors or criteria not listed in this RFP shall be used in the evaluation.

# 9.0 PROPOSED SCHEDULE

The tentative schedule for this RFP and project process is as follows:

	RFP issued	<u>April 21, 2022</u>
2.	Non-mandatory Pre-Proposal Conference	
	and walk thru	<u>April 27, 2022</u>
3.	Last Day to submit questions	<u>May 5, 2022</u>
4.	Final Addendum Issued	<u>May 11, 2022</u>
5.	RFP Submission Due Date	<u>May 17, 2022</u>
6.	City Council Award of Contract	July 25, 2022
7.	Contract Effective	November 1, 2022

# **10.0 QUESTIONS REGARDING RFP**

All questions related to this RFP should be submitted in writing to Linda Thomas, Purchasing Specialist at <u>lithomas@cityofevanston.org</u> with a copy to Brian Zimmerman, Solid Waste Coordinator at <u>bzimmerman@cityofevanston.org</u>.

# **11.0 GENERAL TERMS AND CONDITIONS**

#### A. Confidentiality

In connection with this Agreement, City may provide Consultant with information to enable Consultant to render the Services hereunder, or Consultant may develop confidential information for City. Consultant agrees (i) to treat, and to obligate Consultant's employees to treat, as secret and confidential all such information whether or not identified by City as confidential, (ii) not to disclose any such information or make available any reports, recommendations and /or conclusions which Consultant may make for City to any person, firm or corporation or use the same in any manner whatsoever without first obtaining City's written approval, and (iii) not to disclose to City any information obtained by Consultant on a confidential basis from any third party unless Consultant shall have first received written permission from such third party to disclose such information.

Pursuant to the Illinois Freedom of Information Act, 5 ILCS 140/7(2), records in the possession of others whom the City has contracted with to perform a governmental function are covered by the Act and subject to disclosure within limited statutory timeframes (five (5) working days with a possible five (5) working day extension). Upon notification from the City that it has received a Freedom of Information Act request that calls for records within the Consultant's control, the Consultant shall promptly provide all requested records to the City so that the City may comply with the request within the required timeframe. The City and the Consultant shall cooperate to determine what records are subject to such a request and whether or not any exemption to the disclosure of such records or part thereof is applicable.

The Purchasing Specialist will endeavor to advise the Firm of any request for the disclosure of the material so marked with "TRADE SECRET", "CONFIDENTIAL", or "PROPRIETARY", and give the Firm or other submitting party the opportunity to seek a court order to protect such materials from disclosure. If the requested material was submitted by a party other than the Firm, then the Firm shall be solely responsible for notifying the submitting party of the request. The City's sole responsibility is to notify the Firm of the request for disclosure, and the City shall not be liable for any damages resulting out of such disclosure, whether such disclosure is deemed required by law, by an order of court or administrative agency, or occurs through inadvertence, mistake, negligence on the part of the City or its officers, or employees.

#### B. Withdrawal of Proposal

Proposals may be withdrawn prior to the submittal deadline. Withdrawal may be attained by written request; however, no offer can be withdrawn within the ninety (90) day period which occurs after the time is set for closing. Proposers who withdraw their proposals prior to the designated date and time may still submit another proposal if done in accordance with the proper time frame.

#### C. Exceptions to Specifications

Exceptions to these specifications shall be listed and explained on a separate page titled "Exceptions to Specifications", which shall be prepared by the Proposer. This page shall then be attached to these documents and submitted at the same time as the proposal. Each exception must refer to the page number and paragraph to which it is relevant. The nature and reasoning of each exception shall be explained in its entirety. Any exceptions to these specifications may be cause for rejection of the proposal.

#### D. Hold Harmless

Consultant shall defend, indemnify and hold harmless the City and its officers, elected and appointed officials, agents, and employees from any and all liability, losses, or damages as a result of claims, demands, suits, actions, or proceedings of any kind or nature, including but not limited to costs, and fees, including attorney's fees, judgments or settlements, resulting from or arising out of any negligent or willful act or omission on the part of the Consultant or

Consultant's sub-contractors, employees, agents or sub-contractors during the performance of this Agreement. Such indemnification shall not be limited by reason of the enumeration of any insurance coverage herein provided. This provision shall survive completion, expiration, or termination of this Agreement.

Nothing contained herein shall be construed as prohibiting the City, or its officers, agents, or employees, from defending through the selection and use of their own agents, attorneys, and experts, any claims, actions or suits brought against them. The Consultant shall be liable for the costs, fees, and expenses incurred in the defense of any such claims, actions, or suits. Nothing herein shall be construed as a limitation or waiver of defenses available to the City and employees and agents, including but not limited to the Illinois Local Governmental and Governmental Employees Tort Immunity Act, 745 ILCS 10/1-101 et seq.

At the City Corporation Counsel's option, Consultant must defend all suits brought upon all such Losses and must pay all costs and expenses incidental to them, but the City has the right, at its option, to participate, at its own cost, in the defense of any suit, without relieving Consultant of any of its obligations under this Agreement. Any settlement of any claim or suit related to this Agreement by Consultant must be made only with the prior written consent of the City Corporation Counsel, if the settlement requires any action on the part of the City.

To the extent permissible by law, Consultant waives any limits to the amount of its obligations to indemnify, defend, or contribute to any sums due under any Losses, including any claim by any employee of Consultant that may be subject to the Illinois Workers Compensation Act, 820 ILCS 305/1 *et seq.* or any other related law or judicial decision, including but not limited to, *Kotecki v. Cyclops Welding Corporation,* 146 III. 2d 155 (1991). The City, however, does not waive any limitations it may have on its liability under the Illinois Workers Compensation Act, the Illinois Pension Code or any other statute.

Consultant shall be responsible for any losses and costs to repair or remedy work performed under this Agreement resulting from or arising out of any act or omission, neglect, or misconduct in the performance of its Work or its subconsultants' work. Acceptance of the work by the City will not relieve the Consultant of the responsibility for subsequent correction of any such error, omissions and/or negligent acts or of its liability for loss or damage resulting therefrom. All provisions of this Section shall survive completion, expiration, or termination of this Agreement.

#### E. Addenda

Any and all changes to these documents are valid only if they are included via written addendum to all respondents. Each respondent should acknowledge receipt of any addenda by indicating the same in their proposal submission. Each respondent acknowledging receipt of any addenda is responsible for the contents of the addenda and any changes to the proposal therein. Failure to acknowledge any addenda may cause the proposal to be rejected. Addenda information is available over the internet at <u>City of Evanston Notices &</u>

<u>Documents</u> or <u>www.demandstar.com</u>, or by contacting the Purchasing Office, 847-866-2935.

### F. Term

The contract is for five (5) years with two (2) three (3) year options to renew.. The City may terminate a contract for either cause or convenience.

#### G. Non-Appropriation of Funds

The City of Evanston reserves the right to terminate in whole or in part of the contract in the event that insufficient funds to complete the contract are appropriated by Evanston City Council.

#### H. Property of the City

All discoveries and documents produced as a result of any service or project undertaken on behalf of the City of Evanston shall become the property of the City.

#### I. Payment Terms

The consultant shall submit invoices detailing the services provided, project, professional staff, and hours. Payment shall be made in accordance with the Local Government Prompt Payment Act. Please note that failure to provide a detailed invoice could result in delay of payment and include termination of any agreement.

#### J. Disclosures and Potential Conflicts of Interest

The City of Evanston's Code of Ethics prohibits public officials or employees from performing or participating in an official act or action with regard to a transaction in which he has or knows he will thereafter acquire an interest for profit, without full public disclosure of such interest. This disclosure requirement extends to the spouse, children and grandchildren, and their spouses, parents and the parents of a spouse, and brothers and sisters and their spouses.

To ensure full and fair consideration of all proposals, the City of Evanston requires all Proposers including owners or employees to investigate whether a potential or actual conflict of interest exists between the Proposer and the City of Evanston, its officials, and/or employees. If the Proposer discovers a potential or actual conflict of interest, the Proposer must disclose the conflict of interest in its proposal, identifying the name of the City of Evanston official or employee with whom the conflict may exist, the nature of the conflict of interest, and any other relevant information. The existence of a potential or actual conflict of interest does NOT, on its own, disqualify the disclosing Proposer from consideration. Information provided by Proposers in this regard will allow the City of Evanston to take appropriate measures to ensure the fairness of the proposal process.

The City requires all Proposers to submit a certification, enclosed with this RFP, that the Proposer has conducted the appropriate investigation and disclosed all potential or actual conflicts of interest.

#### K. Protests

Any actual or prospective Proposer, who is aggrieved in connection with the solicitation or award of a contract, may protest to the Purchasing Office. The protest shall be submitted in writing within ten (10) calendar days after such aggrieved person knows or should have known of the facts giving rise thereto.

- The Proposer shall submit any protests or claims regarding this solicitation to the Purchasing Office.
- A pre-bid protest must be filed five (5) days before the bid opening or proposal submittal.
- A pre-award protest must be filed no later than ten (10) days after the bid opening date or proposal deadline.
- A post-award protest must be filed no later than ten (10) days after the award of the Contract.

All claims by a Proposer against the City relating to a contract shall be submitted in writing to the Purchasing Specialist. The City will only consider protests that are properly and timely submitted.

All protests or claims must set forth the name and address of the protester, the contract number, the grounds for the protest or claim, and the course of action that the protesting party desires the Purchasing Specialist to take. Statements shall be sworn and submitted under penalty of perjury.

#### L. Authority To Resolve Protests And Contract Claims

*Protests:* The Purchasing Specialist shall have the authority to consider and resolve a protest of an aggrieved Proposer, actual or prospective, concerning the solicitation or award of a contract. The City shall issue a written decision and that decision is final.

*Contract Claims*: The Purchasing Specialist, after consulting with Corporation Counsel, shall have the authority to resolve contract claims, subject to the approval of the City Manager or City Council, as applicable, regarding any settlement that will result in a change order or contract modification.

Each Proposer, by submitting a response to this RFP, expressly recognizes the limitations on its rights to protest provided in this Section and expressly waives all other rights and remedies and agrees that the decision on the protest is final and conclusive. If a Proposer disregards, disputes or does not follow the exclusive protest remedies provided in this Section, it shall indemnify and hold the City and its officers, employees, agents and consultants harmless from and against all liabilities, fees and costs, including legal and consultant fees and costs, and damages incurred or suffered as a result of such Proposer's actions. Each Proposer, by submitting a response to this RFP, shall be deemed to have irrevocably and unconditionally agreed to this indemnity obligation.

#### M. Litigation

For purposes of this Section, the following terms are defined as follows:

"issue" means any prior or pending litigation or investigation, either civil or criminal, or any governmental agency action or proceeding (the "issue"), which may affect the performance of the services to be rendered herein. For purposes of this Section, an "issue" shall also include any criminal, civil, or administrative penalty or finding imposed against any covered individual. An issue occurring within seven (7) years of the date preceding the date of the Proposer's response shall be disclosed by the Proposer.

"covered individual " means any principal, president, managing partner, or vicepresident, affiliated in any way with the Firm, and the Firm's employees or subcontractors.

All proposers shall identify and describe with particularity any issue. The City, and not Proposer, has the sole discretion to determine whether an issue may affect the performance of the services. Failure of any Proposer to comply with this mandatory obligation shall, at the City's sole discretion, result in the Proposer's response being deemed non-responsive and not responsible. Failure of any Proposer to comply with the obligation specified herein may result in the voiding any subsequent contract award to Proposer if the City discovers upon the exercise of its customary due diligence that Proposer failed to comply with the mandatory obligation in this Section. The City reserves all rights to take any other actions in the case of a Proposer's noncompliance with this Section.

#### N. Sub-contractors

If any firm submitting a proposal intends on sub-contracting out all or any portion of the engagement, that fact, and the name of the proposed sub-contracting firm(s) must be clearly disclosed in the proposal. Following the award of the contract, no additional sub-contracting will be allowed without the prior written consent of the City of Evanston.

#### O. Contact with City Personnel

All Proposers are prohibited from making any contact with the City Manager, City Council, or any other official or employee of the City with regard to the Project, other than in the manner and to the person(s) designated herein. The Purchasing Specialist reserves the right to disqualify any Proposer found to have contacted City Personnel in any manner with regard to the Project. Additionally, if it is determined that the contact with City Personnel was in violation of any provision of 720 ILCS 5/33EE, the matter may be referred to the Cook County State's Attorney for review and prosecution.

#### P. Costs Incurred

The City of Evanston assumes no responsibility or liability for costs incurred by the Proposer prior to the execution of a contract. This includes costs incurred by the Proposer as a result of preparing a response to this RFP.

## Exhibit A

#### **DISCLOSURE OF OWNERSHIP INTERESTS**

The City of Evanston Code Section 1-18-1 *et seq*. requires all persons (APPLICANT) seeking to do business with the City to provide the following information with their proposal. Every question must be answered. If the question is not applicable, answer with "NA".

APPLICANT NAME:	 
APPLICANT ADDRESS:	
TELEPHONE NUMBER:	
FAX NUMBER:	
<ul> <li>APPLICANT is (<b>Check One</b>)</li> <li>( ) Corporation</li> <li>( ) Partnership</li> <li>( ) Sole Owner</li> <li>( ) Association</li> </ul>	
Other ( )	 _

Please answer the following questions on a separate attached sheet if necessary.

### SECTION I CORPORATION

1a. Names and addresses of all Officers and Directors of Corporation.

#### 1b. (Answer only if corporation has 33 or more shareholders.)

Names and addresses of all those shareholders owning shares equal to or in excess of 3% of the proportionate ownership interest and the percentage of shareholder interest. (Note: Corporations which submit S.E.C. form 10K may substitute that statement for the material required herein.)

#### 1c. (Answer only if corporation has fewer than 33 shareholders.)

Names and addresses of all shareholders and percentage of interest of each herein. (Note: Corporations which submit S.E.C. form 10K may substitute that statement for the material requested herein.)

### SECTION 2 PARTNERSHIP/ASSOCIATION/JOINT VENTURE

2a. The name, address, and percentage of interest of each partner whose interests therein, whether limited or general, is equal to or in excess of 3%.

2b. Associations: The name and address of all officers, directors, and other members with 3% or greater interest.

## SECTION 3 - TRUSTS

3a. Trust number and institution.

3b. Name and address of trustee or estate administrator.

3c. Trust or estate beneficiaries: Name, address, and percentage of interest in total entity.

#### SECTION 4 ALL APPLICANTS - ADDITIONAL DISCLOSURE

4a. Specify which, if any, interests disclosed in Section 1, 2, or 3 are being held by an agent or nominee, and give the name and address of principal.

4b. If any interest named in Section 1,2, or 3 is being held by a "holding" corporation or other "holding" entity not an individual, state the names and addresses of all parties holding more than a 3% interest in that "holding" corporation or entity as required in 1(a), 1(b), 1(c), 2(a), and 2(b).

4c. If "constructive control" of any interest named in Sections 1,2, 3, or 4 is held by another party, give name and address of party with constructive control. ("Constructive control" refers to control established through voting trusts, proxies, or special terms of venture of partnership agreements.)

I have not withheld disclosure of any interest known to me. Information provided is accurate and current.

#### **CITY OF EVANSTON M/W/EBE POLICY**

A City of Evanston goal is to provide contracting and sub-contracting opportunities to Minority Business Enterprises, Women Business Enterprises, and Evanston Business Enterprises. The goal of the Minority, Women and Evanston Business Enterprise Program (M/W/EBE) is to assist such businesses with opportunities to grow. To assist such growth, the City's goal is to have general contractors utilize M/W/EBEs to perform no less than 25% of the awarded contract.

Firms bidding on projects with the City must work to meet the 25% goal or request a waiver from participation. It is advised that bidders place advertisements requesting subcontractors and that they email or contact individual firms that would be appropriate to partner in response to the project. For samples of possible advertisements, see the City of Evanston's Business Diversity Section <a href="http://www.cityofevanston.org/business/business-diversity/">http://www.cityofevanston.org/business/business-diversity/</a> (Sample Advertisement ). If you request a paper copy of the additional documents, it will be available free of charge from the Purchasing Office, 2100 Ridge Road Suite 4200, Evanston, IL 60201.

If a bidder is unable to meet the required M/W/EBE goal, the Bidder must seek a waiver or modification of the goal on the attached forms. Bidder must include:

- 1. A narrative describing the Bidder's efforts to secure M/W/EBE participation prior to the bid opening.
- 2. Documentation of each of the assist agencies that were contacted, the date and individual who was contacted, and the result of the conversation (see form)
- 3. A letter attesting to instances where the bidder has not received inquiries/proposals from qualified M/W/EBEs
- 4. Names of owners, addresses, telephone numbers, date and time and method of contact of qualified M/W/EBE who submitted a proposal but was not found acceptable.
- 5. Names of owners, addresses, telephone numbers, date and time of contact of at least 15 qualified M/W/EBEs the bidder solicited for proposals for work directly related to the Bid prior to the bid opening (copies must be attached).

If a bidder is selected with a Sub-contractor listed to meet the M/W/EBE goal, a "monthly utilization report" will be due to the City prior to each payment being issued to the Contractor. This report will include documentation of the name of the firm hired, the type of work that firm performed, etc. Should the M/W/EBE not be paid according to the schedule proposed in this document, the City reserves the right to cancel the contract. Examples of this monthly form can be found the City's website: on http://www.cityofevanston.org/business/business-diversity/ (MWEBE Monthly Utilization Report).

# Exhibit G

#### M/W/EBE PARTICIPATION COMPLIANCE FORM

I do hereby certify that

\_\_\_\_\_\_ (Name of firm) intends to participate as a Sub-contractor or General Contractor on the project referenced above.

This firm is a (check only one):

- \_\_\_\_\_ Minority Business Enterprise (MBE), a firm that is at least 51% managed and controlled by a minority, certified by a certifying agency within Illinois.
- \_\_\_\_\_ Women's Business Enterprise (WBE), a firm that is at least 51% managed and controlled by a woman, certified by a certifying agency within Illinois.
- \_\_\_\_\_ Evanston Based Enterprise (EBE), a firm located in Evanston for a minimum of one year and which performs a "commercially useful function".

#### Professional Services Agreement Acknowledgement Page

The City has attached its standard professional services agreement as an exhibit to this RFP. Identify all exceptions to the agreement that would prevent your firm from executing it. The City shall not consider or negotiate regarding exceptions submitted at any time after the submission of the Proposer's response. *Please check one of the following statements:* 

\_\_\_\_\_I have read the professional services agreement and plan on executing the agreement without any exceptions.

\_\_\_\_\_My firm cannot execute the City's standard professional service agreement unless the exceptions noted below or in the attached sample professional services agreement are made.

\*\*\*Please be aware that submitting exceptions to the contract may impact the likelihood of your firm being selected to perform this work.

List exceptions in the area below:

### CITY OF EVANSTON PROFESSIONAL SERVICES AGREEMENT

The parties referenced herein desire to enter into an agreement for professional services for

Commercial Municipal Solid Waste and Construction Debris Franchise

("the Project") RFP Number: 22-33

THIS AGREEMENT (hereinafter referred to as the "Agreement") entered into this \_\_\_\_\_\_ day of \_\_\_\_\_\_\_, 20\_\_\_\_, between the City of Evanston, an Illinois municipal corporation with offices located at 2100 Ridge Avenue, Evanston Illinois 60201 (hereinafter referred to as the "City"), and *[Insert Professional Service Provider's name here]*, with offices located at *[Insert address here]*, (hereinafter referred to as the "Consultant"). Compensation for all basic Services ("the Services") provided by the Consultant pursuant to the terms of this Agreement shall not exceed *\$[Insert fee here]*.

#### I. COMMENCEMENT DATE

Consultant shall commence the Services on \_\_\_\_\_ or no later than three (3) DAYS AFTER City executes and delivers this Agreement to Consultant.

## II. COMPLETION DATE

Consultant shall complete the Services by \_\_\_\_\_. If this Agreement provides for renewals after an initial term, no renewal shall begin until agreed to in writing by both parties prior to the completion date of this Agreement.

#### III. PAYMENTS

City shall pay Consultant those fees as provided here: Payment shall be made upon the completion of each task for a project, as set forth in Exhibit A – Project Milestones and Deliverables. Any expenses in addition to those set forth here must be specifically approved by the City in writing in advance.

## IV. DESCRIPTION OF SERVICES

Consultant shall perform the services (the "Services") set forth here: Services are those as defined in Exhibit A, the City's Request for Proposal/Qualifications No. **#** (Exhibit B) and Consultant's Response to the Proposal (Exhibit C). Services may include, if any, other documented discussions and agreements regarding scope of work and cost (Exhibit D).

#### V. GENERAL PROVISIONS

Α. Consultant shall perform the Services in a professional and Services. workmanlike manner. All Services performed and documentation (regardless of format) provided by Consultant shall be in accordance with the standards of reasonable care and skill of the profession, free from errors or omissions, ambiguities, coordination problems, and other defects. Consultant shall take into account any and all applicable plans and/or specifications furnished by City, or by others at City's direction or request, to Consultant during the term of this Agreement. All materials, buildings, structures, or equipment designed or selected by Consultant shall be workable and fit for the intended use thereof, and will comply with all applicable governmental requirements. Consultant shall require its employees to observe the working hours, rules, security regulations and holiday schedules of City while working and to perform its Services in a manner which does not unreasonably interfere with the City's business and operations, or the business and operations of other tenants and occupants in the City which may be affected by the work relative to this Agreement. Consultant shall take all necessary precautions to assure the safety of its employees who are engaged in the performance of the Services, all equipment and supplies used in connection therewith, and all property of City or other parties that may be affected in connection therewith. If requested by City, Consultant shall promptly replace any employee or agent performing the Services if, in the opinion of the City, the performance of the employee or agent is unsatisfactory.

Consultant is responsible for conforming its final work product to generally accepted professional standards for all work performed pursuant to this Agreement. Nothing in this Agreement accords any third-party beneficiary rights whatsoever to any non-party to this Agreement that any non-party may seek to enforce. Consultant acknowledges and agrees that should Consultant or its sub-consultants provide false information, or fail to be or remain in compliance with this Agreement; the City may void this Agreement. The Consultant warrants and states that it has read the Contract Documents, and agrees to be bound thereby, including all performance guarantees as respects Consultant's work and all indemnity and insurance requirements.

The Consultant shall obtain prior approval from the City prior to subcontracting with any entity or person to perform any of the work required under this Agreement. If the Consultant sub-contracts any of the services to be performed under this Agreement, the sub-consultant agreement shall provide that the services to be performed under any such agreement shall not be sublet, sold, transferred, assigned or otherwise disposed of to another entity or person without the City's prior written consent. The Consultant shall be responsible for the accuracy and quality of any sub-consultant's work.

All sub-consultant agreements shall include verbatim or by reference the provisions in this Agreement binding upon Consultant as to all Services provided by this Agreement, such that it is binding upon each and every sub-consultant that does work or provides Services under this Agreement.

The Consultant shall cooperate fully with the City, other City contractors, other municipalities and local government officials, public utility companies, and others, as may be directed by the City. This shall include attendance at meetings, discussions and hearings as requested by the City. This cooperation shall extend to any investigation, hearings or meetings convened or instituted by the City, any of its departments, and/or OSHA relative to this Project, as necessary. Consultant shall cooperate with the City in scheduling and performing its Work to avoid conflict, delay in or interference with the work of others, if any, at the Project.

Except as otherwise provided herein, the nature and scope of Services specified in this Agreement may only be modified by a writing approved by both parties. This Agreement may be modified or amended from time to time provided, however, that no such amendment or modification shall be effective unless reduced to writing and duly authorized and signed by the authorized representatives of the parties.

- B. Representation and Warranties. Consultant represents and warrants that: (1) Consultant possesses and will keep in force all required licenses to perform the Services; (2) the employees of Consultant performing the Services are fully qualified, licensed as required, and skilled to perform the Services.
- **C. Default.** Any one of the following events shall be deemed an event of default hereunder by Consultant, subject to Consultant's right to cure:
  - 1. Failure to perform the Services as defined in Paragraph A above and contained within Exhibit A;
  - 2. Failure to comply with any other of the General Provisions contained within this contract.

Consultant shall have the right to cure any default herein listed at its own expense, including completion of Services or the replacement or termination of any agent, employee, or sub-contractor as a result of any violation of the General Provisions contained herein.

**D. Termination.** City may, at any time, with or without cause, terminate this Agreement upon seven (7) days written notice to Consultant. If the City

terminates this agreement, the City will make payment to Consultant for Services performed prior to termination. Payments made by the City pursuant to this Agreement are subject to sufficient appropriations made by the City of Evanston City Council. In the event of termination resulting from nonappropriation or insufficient appropriation by the City Council, the City's obligations hereunder shall cease and there shall be no penalty or further payment required. In the event of an emergency or threat to the life, safety or welfare of the citizens of the City, the City shall have the right terminate this Agreement without prior written notice. Within thirty (30) days of termination of this Agreement, the Consultant shall turn over to the City any documents, drafts, and materials, including but not limited to, outstanding work product, data, studies, test results, source documents, AutoCAD Version 2007, PDF, Excel spreadsheets, technical ARTView, Word, specifications and calculations, and any other such items specifically identified by the City related to the Services herein.

- E. Independent Consultant. Consultant's status shall be that of an independent Consultant and not that of a servant, agent, or employee of City. Consultant shall not hold Consultant out, nor claim to be acting, as a servant, agent or employee of City. Consultant is not authorized to, and shall not, make or undertake any agreement, understanding, waiver or representation on behalf of City. Consultant shall at its own expense comply with all applicable workers compensation, unemployment insurance, employer's liability, tax withholding. minimum wage and hour, and other federal, state, county and municipal laws, ordinances, rules, regulations and orders. Consultant shall require its employees to observe the working hours, rules, security regulations and holiday schedules of City, including but not limited to all policies and work rules applicable to City employees while on City property such as the Workplace Harassment Policy; COVID-19 Vaccination Policy; and Drug and Alcohol Policy. Consultant agrees to abide by the Occupational Safety & Health Act of 1970 (OSHA), and as the same may be amended from time to time, applicable state and municipal safety and health laws and all regulations pursuant thereto. Consultant shall certify that its agents, employees and subcontractors are in compliance with City work rules applicable to City employees while on City property. Failure to certify or violation of work rules is subject to the Default provisions of Paragraph C.
- **F. Conflict of Interest.** Consultant represents and warrants that no prior or present services provided by Consultant to third parties conflict with the interests of City in respect to the Services being provided hereunder except as shall have been expressly disclosed in writing by Consultant to City and consented to in writing to City.
- **G. Ownership of Documents and Other Materials.** All originals, duplicates and negatives of all plans, drawings, reports, photographs, charts, programs, models, specimens, specifications, AutoCAD Version 2007, Excel spreadsheets, PDF, and other documents or materials required to be furnished by Consultant hereunder, including drafts and reproduction copies thereof, shall be and remain the exclusive property of City, and City shall have

the unlimited right to publish and use all or any part of the same without payment of any additional royalty, charge, or other compensation to Consultant. Upon the termination of this Agreement, or upon request of City, during any stage of the Services, Consultant shall promptly deliver all such materials to City. Consultant shall not publish, transfer, license or, except in connection with carrying out obligations under this Agreement, use or reuse all or any part of such reports and other documents, including working pages, without the prior written approval of City, provided, however, that Consultant may retain copies of the same for Consultant's own general reference.

- H. Payment. Invoices for payment shall be submitted by Consultant to City at the address set forth above, together with reasonable supporting documentation, City may require such additional supporting documentation as City reasonably deems necessary or desirable. Payment shall be made in accordance with the Illinois Local Government Prompt Payment Act, after City's receipt of an invoice and all such supporting documentation.
- I. Right to Audit. Consultant shall for a period of three years following performance of the Services, keep and make available for the inspection, examination and audit by City or City's authorized employees, agents or representatives, at all reasonable time, all records respecting the services and expenses incurred by Consultant, including without limitation, all book, accounts, memoranda, receipts, ledgers, canceled checks, and any other documents indicating, documenting, verifying or substantiating the cost and appropriateness of any and all expenses. If any invoice submitted by Consultant is found to have been overstated, Consultant shall provide City an immediate refund of the overpayment together with interest at the highest rate permitted by applicable law, and shall reimburse all of City's expenses for and in connection with the audit respecting such invoice.
- J. Indemnity. Consultant shall defend, indemnify and hold harmless the City and its officers, elected and appointed officials, agents, and employees from any and all liability, losses, or damages as a result of claims, demands, suits, actions, or proceedings of any kind or nature, including but not limited to costs, and fees, including attorney's fees, judgments or settlements, resulting from or arising out of any negligent or willful act or omission on the part of the Consultant or Consultant's sub-contractors, employees, agents or subcontractors during the performance of this Agreement. Such indemnification shall not be limited by reason of the enumeration of any insurance coverage herein provided. This provision shall survive completion, expiration, or termination of this Agreement.

Nothing contained herein shall be construed as prohibiting the City, or its officers, agents, or employees, from defending through the selection and use of their own agents, attorneys, and experts, any claims, actions or suits brought against them. The Consultant shall be liable for the costs, fees, and expenses incurred in the defense of any such claims, actions, or suits. Nothing herein shall be construed as a limitation or waiver of defenses available to the City and employees and agents, including but not limited to the Illinois Local Governmental and Governmental Employees Tort Immunity Act, 745 ILCS

10/1-101 et seq.

At the City Corporation Counsel's option, Consultant must defend all suits brought upon all such Losses and must pay all costs and expenses incidental to them, but the City has the right, at its option, to participate, at its own cost, in the defense of any suit, without relieving Consultant of any of its obligations under this Agreement. Any settlement of any claim or suit related to this Agreement by Consultant must be made only with the prior written consent of the City Corporation Counsel, if the settlement requires any action on the part of the City.

To the extent permissible by law, Consultant waives any limits to the amount of its obligations to indemnify, defend, or contribute to any sums due under any Losses, including any claim by any employee of Consultant that may be subject to the Illinois Workers Compensation Act, 820 ILCS 305/1 *et seq.* or any other related law or judicial decision, including but not limited to, *Kotecki v. Cyclops Welding Corporation,* 146 III. 2d 155 (1991). The City, however, does not waive any limitations it may have on its liability under the Illinois Workers Compensation Act, the Illinois Pension Code or any other statute.

Consultant shall be responsible for any losses and costs to repair or remedy work performed under this Agreement resulting from or arising out of any act or omission, neglect, or misconduct in the performance of its Work or its subconsultants' work. Acceptance of the work by the City will not relieve the Consultant of the responsibility for subsequent correction of any such error, omissions and/or negligent acts or of its liability for loss or damage resulting therefrom. All provisions of this Section shall survive completion, expiration, or termination of this Agreement.

Κ. Insurance. Consultant shall carry and maintain at its own cost with such companies as are reasonably acceptable to City all necessary liability insurance (which shall include as a minimum the requirements set forth below) during the term of this Agreement, for damages caused or contributed to by Consultant, and insuring Consultant against claims which may arise out of or result from Consultant's performance or failure to perform the Services hereunder: (1) worker's compensation in statutory limits and employer's liability insurance in the amount of at least \$500,000, (2) comprehensive general liability coverage, and designating City as additional insured for not less than \$3,000,000 combined single limit for bodily injury, death and property damage, per occurrence, (3) comprehensive automobile liability insurance covering owned, non-owned and leased vehicles for not less than \$1,000,000 combined single limit for bodily injury, death or property damage, per occurrence, and (4) errors and omissions or professional liability insurance respecting any insurable professional services hereunder in the amount of at least \$1,000,000. Consultant shall give to the City certificates of insurance for all Services done pursuant to this Agreement before Consultant performs any Services, and, if requested by City, certified copies of the policies of insurance evidencing the coverage and amounts set forth in this Section. The City may also require Consultant to provide copies of the Additional Insured Endorsement to said policy (ies) which name the City as an Additional Insured

for all of Consultant's Services and work under this Agreement. Anv limitations or modification on the certificate of insurance issued to the City in compliance with this Section that conflict with the provisions of this Section shall have no force and effect. Consultant's certificate of insurance shall contain a provision that the coverage afforded under the policy(s) will not be canceled or reduced without thirty (30) days prior written notice (hand delivered or registered mail) to City. Consultant understands that the acceptance of certificates, policies and any other documents by the City in no way releases the Consultant and its sub-contractors from the requirements set forth herein. Consultant expressly agrees to waive its rights, benefits and entitlements under the "Other Insurance" clause of its commercial general liability insurance policy as respects the City. In the event Consultant fails to purchase or procure insurance as required above, the parties expressly agree that Consultant shall be in default under this Agreement, and that the City may recover all losses, attorney's fees and costs expended in pursuing a remedy or reimbursement, at law or in equity, against Consultant.

Consultant acknowledges and agrees that if it fails to comply with all requirements of this Section, that the City may void this Agreement.

L. Confidentiality. In connection with this Agreement, City may provide Consultant with information to enable Consultant to render the Services hereunder, or Consultant may develop confidential information for City. Consultant agrees (i) to treat, and to obligate Consultant's employees to treat, as secret and confidential all such information whether or not identified by City as confidential, (ii) not to disclose any such information or make available any reports, recommendations and /or conclusions which Consultant may make for City to any person, firm or corporation or use the same in any manner whatsoever without first obtaining City's written approval, and (iii) not to disclose to City any information obtained by Consultant on a confidential basis from any third party unless Consultant shall have first received written permission from such third party to disclose such information.

Pursuant to the Illinois Freedom of Information Act, 5 ILCS 140/7(2), records in the possession of others whom the City has contracted with to perform a governmental function are covered by the Act and subject to disclosure within limited statutory timeframes (five (5) working days with a possible five (5) working day extension). Upon notification from the City that it has received a Freedom of Information Act request that calls for records within the Consultant's control, the Consultant shall promptly provide all requested records to the City so that the City may comply with the request within the required timeframe. The City and the Consultant shall cooperate to determine what records are subject to such a request and whether or not any exemption to the disclosure of such records or part thereof is applicable. Vendor shall indemnify and defend the City from and against all claims arising from the City's exceptions to disclosing certain records which Vendor may designate as proprietary or confidential. Compliance by the City with an opinion or a directive from the Illinois Public Access Counselor or the Attorney General under FOIA, or with a decision or order of Court with jurisdiction over the City, shall not be a violation of this Section.

- M. Use of City's Name or Picture of Property. Consultant shall not in the course of performance of this Agreement or thereafter use or permit the use of City's name nor the name of any affiliate of City, nor any picture of or reference to its Services in any advertising, promotional or other materials prepared by or on behalf of Consultant, nor disclose or transmit the same to any other party.
- N. No Assignments or Sub-contracts. Consultant shall not assign or subcontract all or any part or its rights or obligations hereunder without City's express prior written approval. Any attempt to do so without the City's prior consent shall, at City's option, be null and void and of no force or effect whatsoever. Consultant shall not employ, contract with, or use the services of any other architect, interior designer, engineer, consultant, special contractor, or other third party in connection with the performance of the Services without the prior written consent of City.
- **O. Compliance with Applicable Statutes, Ordinances and Regulations.** In performing the Services, Consultant shall comply with all applicable federal, state, county, and municipal statutes, ordinances and regulations, at Consultant's sole cost and expense, except to the extent expressly provided to the contrary herein. Whenever the City deems it reasonably necessary for security reasons, the City may conduct at its own expense, criminal and driver history background checks of Consultant's officers, employees, sub-contractors, or agents. Consultant shall immediately reassign any such individual who in the opinion of the City does not pass the background check.
- Ρ. Liens and Encumbrances. Consultant, for itself, and on behalf of all subcontractors, suppliers, materialmen and others claiming by, through or under Consultant, hereby waives and releases any and all statutory or common law mechanics' materialmen's' or other such lien claims, or rights to place a lien upon City property or any improvements thereon in connection with any Services performed under or in connection with this Agreement. Consultant further agrees, as and to the extent of payment made hereunder, to execute a sworn affidavit respecting the payment and lien releases of all sub-contractors, suppliers and materialmen, and a release of lien respecting the Services at such time or times and in such form as may be reasonably requested by City. Consultant shall protect City from all liens for labor performed, material supplied or used by Consultant and/or any other person in connection with the Services undertaken by consultant hereunder, and shall not at any time suffer or permit any lien or attachment or encumbrance to be imposed by any subconsultant, supplier or materialmen, or other person, firm or corporation, upon City property or any improvements thereon, by reason or any claim or demand against Consultant or otherwise in connection with the Services.
- **Q. Notices.** Every notice or other communication to be given by either party to the other with respect to this Agreement, shall be in writing and shall not be effective for any purpose unless the same shall be served personally or by United States certified or registered mail, postage prepaid, addressed if to City as follows: City of Evanston, 2100 Ridge Avenue, Evanston, Illinois 60201,

Attention: Purchasing Division and to Consultant at the address first above set forth, or at such other address or addresses as City or Consultant may from time to time designate by notice given as above provided.

- **R. Attorney's Fees.** In the event that the City commences any action, suit, or other proceeding to remedy, prevent, or obtain relief from a breach of this Agreement by Consultant, or arising out of a breach of this Agreement by Consultant, the City shall recover from the Consultant as part of the judgment against Consultant, its attorneys' fees and costs incurred in each and every such action, suit, or other proceeding.
- **S. Waiver.** Any failure or delay by City to enforce the provisions of this Agreement shall in no way constitute a waiver by City of any contractual right hereunder, unless such waiver is in writing and signed by City.
- **T. Severability.** In the event that any provision of this Agreement should be held void, or unenforceable, the remaining portions hereof shall remain in full force and effect.
- U. Choice of Law. The rights and duties arising under this Agreement shall be governed by the laws of the State of Illinois. Venue for any action arising out or due to this Agreement shall be in Cook County, Illinois. The City shall not enter into binding arbitration to resolve any dispute under this Agreement. The City does not waive tort immunity by entering into this Agreement.
- V. **Time.** Consultant agrees all time limits provided in this Agreement and any Addenda or Exhibits hereto are of essence to this Agreement. Consultant shall continue to perform its obligations while any dispute concerning the Agreement is being resolved, unless otherwise directed by the City.
- **W. Survival.** Except as expressly provided to the contrary herein, all provisions of this Agreement shall survive all performances hereunder including the termination of the Consultant.

#### VI. EQUAL EMPLOYMENT OPPORTUNITY

In the event of the Consultant's noncompliance with any provision of Section 1-12-5 of the Evanston City Code, the Illinois Human Rights Act or any other applicable law, the Consultant may be declared non-responsible and therefore ineligible for future contracts or sub-contracts with the City, and the contract may be cancelled or voided in whole or in part, and such other sanctions or penalties may be imposed or remedies invoked as provided by statute or regulation.

During the performance of the contract, the Consultant agrees as follows:

**A.** That it will not discriminate against any employee or applicant for employment because of race, color, religion, sex, sexual orientation, marital status, national origin or ancestry, or age or physical or mental disabilities that do not impair ability to work, and further that it will examine all job classifications to determine if minority persons or women are underutilized and will take appropriate affirmative action to rectify any

such underutilization. Consultant shall comply with all requirements of City of Evanston Code Section 1-12-5.

**B.** That, in all solicitations or advertisements for employees placed by it on its behalf, it will state that all applicants will be afforded equal opportunity without discrimination because of race, color, religion, sex, sexual orientation, marital status, national origin, ancestry, or disability.

#### VII. SEXUAL HARASSMENT POLICY

The Consultant certifies pursuant to the Illinois Human Rights Act (775 ILCS 5/2105 *et. seq.),* that it has a written sexual harassment policy that includes, at a minimum, the following information:

- **A.** The illegality of sexual harassment;
- **B.** The definition of sexual harassment under State law;
- **C**. A description of sexual harassment utilizing examples;
- **D.** The Consultant's internal complaint process including penalties;

**E.** Legal recourse, investigation and complaint process available through the Illinois Department of Human Rights and the Human Rights Commission, and directions on how to contact both; and

**F.** Protection against retaliation as provided to the Department of Human Rights.

#### VIII. CONSULTANT CERTIFICATIONS

**A.** Consultant acknowledges and agrees that should Consultant or its subconsultant provide false information, or fails to be or remain in compliance with the Agreement, the City may void this Agreement.

**B.** Consultant certifies that it and its employees will comply with applicable provisions of the U.S. Civil Rights Act, Section 504 of the Federal Rehabilitation Act, the Americans with Disabilities Act (42 U.S.C. Section 1201 et seq.) and applicable rules in performance under this Agreement.

**C.** If Consultant, or any officer, director, partner, or other managerial agent of Consultant, has been convicted of a felony under the Sarbanes-Oxley Act of 2002, or a Class 3 or Class 2 felony under the Illinois Securities Law of 1953, Consultant certifies at least five years have passed since the date of the conviction.

**D.** Consultant certifies that it has not been convicted of the offense of bid rigging or bid rotating or any similar offense of any State in the U.S., nor made any admission of guilt of such conduct that is a matter of record. (720 ILCS 5/33 E-3, E-4).

**E.** In accordance with the Steel Products Procurement Act, Consultant certifies steel products used or supplied in the performance of a contract for public works shall be manufactured or produced in the U.S. unless the City grants an exemption.

**F.** Consultant certifies that it is properly formed and existing legal entity, and as applicable, has obtained an assumed name certificate from the appropriate authority, or has registered to conduct business in Illinois and is in good standing with the Illinois Secretary of State.

**G.** If more favorable terms are granted by Consultant to any similar governmental entity in any state in a contemporaneous agreement let under the same or similar financial terms and circumstances for comparable supplies or services, the more favorable terms shall be applicable under this Agreement.

**H.** Consultant certifies that it is not delinquent in the payment of any fees, fines, damages, or debts to the City of Evanston.

#### IX. INTEGRATION

This Agreement, Sections 2, 3 and 6 of the RFP, together with Exhibits A, B, C, and D sets forth all the covenants, conditions and promises between the parties with regard to the subject matter set forth herein. There are no covenants, promises, agreements, conditions or understandings between the parties, either oral or written, other than those contained in this Agreement. This Agreement has been negotiated and entered into by each party with the opportunity to consult with its counsel regarding the terms therein. No portion of the Agreement shall be construed against a party due to the fact that one party drafted that particular portion as the rule of *contra proferentem* shall not apply.

In the event of any inconsistency between this Agreement, and any Exhibits, this Agreement shall control over the Exhibits. In no event shall any proposal or contract form submitted by Consultant be part of this Agreement unless agreed to in a writing signed by both parties and attached and referred to herein as an Addendum, and in such event, only the portions of such proposal or contract form consistent with this Agreement and Exhibits hereto shall be part hereof.

**IN WITNESS WHEREOF,** the parties hereto have each approved and executed this Agreement on the day, month and year first above written.

#### Questionnaire

- 1) Please provide the name and address of any **landfill and transfer station** where **refuse material** collected through this agreement is expected to be taken.
- 2) Please provide the name and address of any Material Recovery Facility (MRF) and transfer station where recyclable materials collected through this agreement will be taken.
- 3) Please provide the name and address of any **landfill and any Material Recovery Facility** where **construction debris** collected through this agreement will be taken.
- 4) Please list all materials your firm currently accepts for recycling collection. These materials will be considered for the definition of "Recyclable Materials" in the agreement. Provide as much detail as to the type, size, shape restrictions each material type is subjected to if possible.
- 5) Does your firm agree to provide the recycling service options listed in section 2.02 (A) (c) of the Request For Proposal (RFP) without additional charge?
- 6) Please include your accepted contamination threshold % for recyclables containers to receive service. Also include any expected fees or charges associated with unacceptable levels of contamination found in recycling containers
- 7) What are the expected fees or charges associated with overflowing containers? Please provide details for different service types.

8) Would your Firm be willing to negotiate and provide a food scrap collection service to customers within this agreement if the current vendor is unable to provide service and /or if the existing Food Scrap Franchise is not renewed, as indicated in section <u>2.02 (C)</u> of the RFP? If so, please also describe the expected service offerings in as much detail as possible. If willing, please include information on the structure of pricing and any expected rates customers can expect.

- 9) Does your firm agree to provide an email address to receive requests generated through the City's 311 system and meet the technical service requirements of section <u>2.03 (A)</u> of the RFP?
- 10) Does your firm agree to NOT utilize refuse disposal or transfer facilities located within the municipal boundaries of the City of Evanston for the Commercial Municipal Solid Waste collected under this contract as indicated in section <u>2.03 (I)</u> of the RFP?
- 11) Does your firm agree to use best efforts to hire one Evanston resident throughout the term of the agreement?
- 12) Does your firm agree to develop a zero carbon fleet plan for operations in Evanston per section 2.06 (B) (k) of the RFP?
- 13) Does your firm agree to adhere to the outreach requirements described in section 2.08 (A)(a) and (b) of the RFP?
- 14) Please provide as much detail as possible on your process of notifying businesses they are delinquent on paying their bills as well as notifying them when their account has been

suspended. Please make sure to include the method of contact that is expected to be used as well as the frequency of notification.

15) Does your firm agree to employ or retain a representative (an individual qualified and able to conduct customer onsite assistance) and be in accordance with section 2.05 (A) (c) of the RFP?

16) Does your firm agree to meet quarterly with the Evanston Public Works representatives in accordance with section <u>2.06 (C)</u> of the RFP?

- 17) Is your firm able to meet the required reports as outlined in section 2.06 (B) of the RFP? If not, please specify which reports or details you are unable or unwilling to meet and why you are not able to meet those requirements.
- 18) Is your firm able to perform the Waste Characterization Study for refuse and recycling services? Would you be able to adhere to the listed requirements/standards within section <u>2.08 (B)</u> of the RFP? If not, please provide a brief idea of what would be necessary to change. If able, please provide an estimated cost for conducting the study.
- 19) Is your firm willing to cooperate and coordinate with potential consultants that may be contracted by the City to conduct a Waste Characterization Study?
- 20) Is your firm able to meet all the requirements for container labeling as described in section <u>2.07 (A) (c)</u>? Please describe how your firm will satisfy the requirements for section <u>2.07 (A) (c) (v)</u>?

21) Please describe your firm's plan on rolling out your equipment and services if you were selected for this franchise? Please detail any information you would need and timelines associated with your rollout.

#### **Optional Service Offerings**

- 22) Do you offer any services for source separated materials (OCC, Plastic Film, Styrofoam, etc.)? If yes, please detail what materials you offer service for as well as the expected pricing/revenue structure for these services and any service thresholds businesses need to meet to be offered these services. Please make sure to note if you would be willing to provide balers, gaylords, or other types of equipment. (If necessary please attach pricing information as an attachment)
- 23) Is your firm able and willing to provide services for vertical compactor or dumpsters with compactor units? If yes, are you able to describe or share your expected pricing structure as well as the thresholds this type of service would be made available to commercial businesses (expected volume, space restrictions, etc.). (If necessary please attach pricing information as an attachment)
- 24) Is your firm able to offer and willing to conduct waste characterizations studies for individual businesses or properties covered under the scope of services? If so, please provide an example of the process and reporting facet you are able to give them. Please also provide details on any pricing for conducting these studies if there is a requirement for these services. (If necessary please attach pricing information as an attachment)
- 25) Is your firm able and willing to offer Yard Waste collection services to large scale multifamily unit customers (buildings with larger than 6 units)? If so please describe the expected service that can be offered as well as any pricing structure. (If necessary please attach pricing information as an attachment)

## Exhibit M

#### **REFUSE PRICE/COSTS FORMS**

The unit price listed is for service year starting on November 1, 2022 and ending on October 31, 2023. The unit prices in future service years will be adjusted annually based on the change in the Consumer Price Index (CPI-U) for the Midwest Urban Area, All Items. The charges for the previous 12 months are subject to a minimum 1.5% adjustment and a 3.5% maximum adjustment, such adjustment that shall be effective as of November 1st of each subsequent year this Agreement is in effect.

## Amending City Code 8-4-9-2 "Franchise" and Adding Title 8, Chapter 26 "Franchise Haulers"

BE IT ORDAINED BY THE CITY COUNCIL OF THE CITY OF

#### EVANSTON, COOK COUNTY, ILLINOIS:

SECTION 1: City Code 8-4-9-2, "Franchise" of the Evanston City Code of

2012, as amended, is hereby further amended to read as follows:

#### 8-4-9-2. – FRANCHISE.

#### 8-4-9-2-1. ESTABLISHING FRANCHISE WASTE SERVICE, GENERAL REGULATIONS.

To regulate and control the collection, transportation, and disposal of municipal solid waste, the City opts for an exclusive franchise waste service to collect, transport, and dispose of municipal solid waste by one or more qualified private scavengers procured through a competitive bidding process.

- (A) The following shall be serviced by the exclusive municipal solid waste franchise service:
  - 1. All townhouse, row house, or multiple dwellings that the City does not provide municipal solid waste collection to under Subsections 8-4-9-1(A)3 and (B) of this Chapter; and
  - 2. All residences, businesses, institutions, or other legal entities required in Subsection 8-4-9-1(C) of this Chapter to receive service from the municipal solid waste franchise service; and
  - 3. All residences. Businesses, institutions, or other legal entities that want to participate year round food scrap collection program.
- 4. Disposal of construction debris.

- (B) All those required to receive franchise waste service shall be responsible for paying all fees in accordance with the exclusive franchise contract.
- (C) Such service shall be performed as often as necessary to prevent a nuisance or a threat to public health, welfare and safety, but in no event, shall service be less than once each week. Containers designated for only food scraps may not be stored outdoors while containing food scraps for longer than one (1) week.
- (D) No person or legal entity occupying a building required to receive the municipal solid waste franchise service shall enter into contract for municipal solid waste collection. All such contracts entered into after November 1, 2008, are deemed invalid.
- (E) Any entity not subject to service through the municipal solid waste franchise may petition the City Manager or the Director of Public Works or their designees, in writing, for such service.

## 8-4-9-2-2. FRANCHISE SERVICE EXEMPTIONS.

- (A) Any person or legal entity occupying any building specified in Subsection 8-4-9-1(C) of this Chapter may request, in writing, to the Director of Public Works or the City Manager or their designee(s), that they be exempted from the City franchise service for municipal solid waste services. Said request shall specify the circumstances that necessitate such exemption status which may include, but are not limited to, a corporate contract whose provisions are outside the persons' or entities' control or a specialized service that cannot be provided by the City franchise service.
- (B) Any person or legal entity that has been granted an exemption from the City franchise waste service shall contract at its own expense with a private scavenger licensed by the City pursuant to Chapter 4½ of this Title. Municipal solid waste pick up by the private scavenger shall be as often as may be required to prevent stored municipal solid waste from becoming a nuisance or a threat to the public health, welfare, or safety.
- (C) Commencing on January 1, 2020, any nongovernmental entity, university or hospital exempt from the municipal solid waste franchise service shall pay to the City a per cubic yard hauler fee on each cubic yard of receptacle volume provided by a private scavenger for refuse collection, but not for recyclable or compostable material collection. The hauler fee shall be equal to two dollars and fifty cents (\$2.50) per cubic yard of receptacle volume provided multiplied by the times per week the receptacle is serviced and then multiplied by three (3), the number of months in a calendar quarter.
- (D) The hauler fee shall be paid to the City Collector no later than the thirtieth (30<sup>th</sup>) day following the close of a calendar quarter (for example, such payment is due on April 30<sup>th</sup> for the first calendar quarter ending March 31<sup>st</sup>) without demand from the City.
- (E) Any person or legal entity using a private scavenger for construction debris disposal may request, in writing, to the Director of Public Works or the City Manager or their

designee(s) that they be exempted from the City franchise service. Said request shall specify the circumstances that necessitate such exemption status which may include, but not limited to, a specialized service that cannot be provided by the City franchise service, such as the collection and disposal of poisonous or toxic materials and any quantities of liquid requiring tanker truck equipment.

- (F) Any person or legal entity that has been granted an exemption from the City franchise waste service for construction debris disposal shall contract at its own expense with a private scavenger licensed by the City pursuant to Chapter 4½ of this Title.
  - 1. Before the service is provided, the entity shall submit to the Director of Public Works or their designee(s) evidence that the private scavenger is licensed by the City; an estimate of number of containers and size to be utilized; when the service will begin and the duration in months that the service will be provided; the location where the debris will be disposed.
  - 2. For each month that the containers are utilized, the entity shall provide the City with a copy of the invoice from the private scavenger indicating the cubic yards of the containers utilized and the weight of the material disposed.
  - 3. The entity that is granted an exception in Section 8-4-9-2-2(E) shall pay the City a hauler fee of one dollar (\$1.00) for each cubic yard of disposal container provided. The hauler fee must be paid to the City Collector no later than the thirtieth (30<sup>th</sup>) day following the close of a calendar quarter (for example, such payment is due on April 30<sup>th</sup> for the first calendar quarter ending March 31<sup>st</sup>) without demand from the City.
  - 4. The City shall not issue a certificate of temporary occupancy for the building site that utilizes an non-franchise private scavenger until the entity that requests an exception submits all required invoices and pays all outstanding hauler fees.
- (G) Any person found guilty of violating, disobeying, omitting, neglecting or refusing to comply with or resisting or opposing the enforcement of any provision of this Section, except when otherwise specifically provided, shall be fined not less than two hundred fifty dollars (\$250.00) for the first offense, and not less than seven hundred fifty dollars (\$750.00) for the second and each subsequent offense in any one hundred eighty (180) day period; each day of violation shall constitute a separate and distinct offense.
- (H) All fees imposed by this Section 8-4-9-2-2(F) and remaining unpaid after they are due will bear interest at a rate of ten percent (10%) per month, or fraction thereof. The entity requesting a franchise service exception shall timely pay all fees imposed by this section to the City Collector.

## 8-4-9-2-3. IMPOSITION OF FRANCHISE SERVICE ADMINISTRATIVE FEE.

(A) For the collection, transportation, and disposal of municipal solid waste provided by the franchise service there is hereby established the following administrative fee:

- 1. Two dollars and forty cents (\$2.40) per month per cubic yard per solid waste container multiplied by the number of times per week the solid waste container is serviced.
- 2. One dollar and no cents (\$1.00) per month per cubic yard size of a permanent roll off container multiplied by the number of times the container is collected each month.
- (B) For the collection, transportation, and disposal of construction debris provided by the franchise service there is hereby established the following administrative fee:
  - 1. One dollar and no cents (\$1.00) per month per cubic yard size of a temporary roll off container multiplied by the number of times the container is collected each month.
    - **SECTION 2:** City Code Title 8, "Health and Sanitation" of the Evanston

City Code of 2012, as amended, is hereby further amended to read as follows:

## CHAPTER 26 - FRANCHISE HAULERS.

# <u>8-26-1. – ESTABLISHING FRANCHISE WASTE SERVICE, GENERAL</u> <u>REGULATIONS.</u>

To regulate and control the collection, transportation, and disposal of municipal solid waste and construction debris, the City opts for an exclusive franchise waste service to collect, transport, and dispose of municipal solid waste and construction debris by one or more qualified private scavengers procured through a competitive bidding process. The potential exclusive franchise agreements can include commercial municipal waste and construction debris, condominium refuse, food scrap, yard waste and residential refuse.

- (A) The following shall be serviced by the exclusive residential refuse franchise service:
  - 1. All single-family detached homes and multiple dwellings required in Subsections 8-4-9-1(A)2 and (A)3 of Chapter 4.
- (B) The following shall be serviced by the exclusive condominium refuse franchise service:
  - 1. All townhome, row house, or multiple dwellings that the City does not provide municipal solid waste collection under Subsections 8-9-4-1(A) 3 and (B) of Chapter 4.
- (C) The following shall be serviced by the exclusive yard waste franchise service:
  - <u>1. All single-family detached homes and multiple dwellings required in</u> <u>Subsections 8-4-9-1(A)2 and (A)3 of Chapter 4.</u>
- (D) The following shall be serviced by the exclusive commercial municipal solid waste and construction debris franchise service:

- 1. All businesses, institutions, or other legal entities required in Subsection 8-4-9-1(C) of Chapter 4 to receive service from the municipal solid waste franchise service; and
- 2. Disposal of construction debris.
- (E) The following shall be serviced by the exclusive food scrap franchise service:
  - 1. All residences, businesses, institutions or other legal entities that wish to participate in the year round food scrap collection program.
- (F) All those required to receive franchise waste service shall be responsible for paying all fees in accordance with the respective exclusive franchise service agreement.
- (G) Such service shall be performed as often as necessary to prevent a nuisance or a threat to public health, welfare and safety, but in no event, shall municipal solid waste service be less than once each week. Containers designated for only food scraps may not be stored outdoors while containing food scraps for longer than one (1) week.
- (H) No person or legal entity occupying a building required to receive the municipal solid waste franchise service shall enter into contract for municipal solid waste collection.
- (I) Any entity not subject to service through the municipal solid waste franchise may petition the City Manager or the Director of Public Works or their designees, in writing, for such service.

## 8-26-2. FRANCHISE SERVICE EXEMPTIONS.

- (A) Any person or legal entity occupying any building specified in Subsection 8-4-9-1(C) of this Chapter may request, in writing, to the Director of Public Works or the City Manager or their designee(s), that they be exempted from the City franchise service for commercial municipal solid waste services. Said request shall specify the circumstances that necessitate such exemption status which may include, but are not limited to, a corporate contract whose provisions are outside the persons' or entities' control or a specialized service that cannot be provided by the City franchise service.
- (B) Any person or legal entity that has been granted an exemption from the City franchise waste service shall contract at its own expense with a private scavenger licensed by the City pursuant to Chapter 4½ of this Title. Municipal solid waste picked up by the private scavenger shall be as often as may be required to prevent stored municipal solid waste from becoming a nuisance or a threat to the public health, welfare, or safety, but in no event, shall municipal solid waste service be less than once each week.

- (C) Commencing on January 1, 2020, any nongovernmental entity, university or hospital exempt from the commercial municipal solid waste franchise service shall pay to the City a per cubic yard hauler fee on each cubic yard of receptacle volume provided by a private scavenger for refuse collection, but not for recyclable or compostable material collection. The hauler fee shall be equal to two dollars and fifty cents (\$2.50) per cubic yard of receptacle volume provided multiplied by the times per week the refuse receptacle is serviced and then multiplied by three (3), the number of months in a calendar quarter.
- (D) The hauler fee shall be paid to the City Collector no later than the thirtieth (30<sup>th</sup>) day following the close of a calendar quarter (for example, such payment is due on April 30<sup>th</sup> for the first calendar quarter ending March 31<sup>st</sup>) without demand from the <u>City.</u>
- (E) Any person or legal entity using a private scavenger for construction debris disposal may request, in writing, to the Director of Public Works or the City Manager or their designee(s) that they be exempted from the City commercial construction debris franchise service. Said request shall specify the circumstances that necessitate such exemption status which may include, but not limited to, a specialized service that cannot be provided by the City franchise service, such as the collection and disposal of poisonous or toxic materials and any quantities of liquid requiring tanker truck equipment.
- (F) Any person or legal entity that has been granted an exemption from the City franchise waste service for construction debris disposal shall contract at its own expense with a private scavenger licensed by the City pursuant to Chapter 4½ of this Title.
  - Before the service is provided, the entity shall submit to the Director of Public Works or their designee(s) evidence that the private scavenger is licensed by the City; an estimate of number of containers and size to be utilized; when the service will begin and the duration in months that the service will be provided; and the location where the debris will be disposed of.
  - 2. For each month that the containers are utilized, the entity shall provide the City with a copy of the invoice from the private scavenger indicating the cubic yards of the containers utilized and the weight of the material disposed of.
  - 3. The entity that is granted an exception in Section 8-26-2(E) shall pay the City a hauler fee of one dollar (\$1.00) for each cubic yard of disposal container provided. The hauler fee must be paid to the City Collector no later than the thirtieth (30<sup>th</sup>) day following the close of a calendar quarter (for example, such payment is due on April 30<sup>th</sup> for the first calendar quarter ending March 31<sup>st</sup>) without demand from the City.
  - 4. The City shall not issue a certificate of temporary occupancy for the building site that utilizes a non-franchise private scavenger until the entity that requests an exception submits all required invoices and pays all outstanding hauler fees.

## 8-26-3. IMPOSITION OF FRANCHISE SERVICE ADMINISTRATIVE FEE.

- (A) For the collection, transportation, and disposal of refuse provided by the <u>Commercial municipal solid waste franchise service there is hereby established the</u> <u>following administrative fee:</u>
  - 1. Two dollars and forty cents (\$2.40) per month per cubic yard per refuse container multiplied by the number of times per week the refuse container is serviced.
  - 2. One dollar and no cents (\$1.00) per month per cubic yard size of a permanent roll off container multiplied by the number of times the container is collected each month.
- (B) For the collection, transportation, and disposal of construction debris provided by the Commercial construction debris franchise service there is hereby established the following administrative fee:
  - 1. One dollar and no cents (\$1.00) per month per cubic yard size of a temporary roll off container multiplied by the number of times the container is collected each month.

# 8-26-4. – REQUIREMENTS AND PENALTIES.

- (A) <u>The following are requirements the exclusive Commercial Municipal Solid</u> <u>Waste and Construction Debris Franchise must adhere to for the term of the</u> <u>contract:</u>
  - 1. <u>The exclusive franchise hauler is required to adhere to all general service</u> requirements listed in the exclusive franchise service agreement.
  - 2. <u>The exclusive franchise hauler is required to adhere to all the technical service</u> requirements listed in the exclusive franchise service agreement.
  - 3. <u>The exclusive franchise hauler is required to adhere to all the billing</u> requirements listed in the exclusive franchise service agreement.
  - 4. <u>The exclusive franchise hauler is required to adhere to all the outreach</u> requirements listed in the exclusive franchise service agreement.
  - 5. <u>The exclusive franchise hauler is required to adhere to all the reporting</u> requirements listed in the exclusive franchise service agreement.
  - 6. <u>The exclusive franchise hauler is required to adhere to all the equipment</u> requirements listed in the exclusive franchise service agreement.
- (B) If the exclusive commercial municipal solid waste and construction debris franchise hauler violates the provisions of Sections 8-26-4(A)(1) and (6) of this chapter shall be guilty of an offense and fined \$100.
  - 1. <u>A separate offense shall be deemed committed each day such violation occurs</u> or continues and or for each individual customer account the franchise hauler violates against.
- (C) If the exclusive commercial municipal solid waste and construction debris franchise hauler violates the provisions of Section 8-26-4(A)(2), of this chapter then the

hauler shall be guilty of an offense and fined as follows, unless specified or dictated otherwise within the exclusive franchise service agreement:

- 1. The fine for the first violation is \$100
- 2. <u>The fine for the second violation is \$200</u>
- 3. The fine for a third or subsequent violation is \$500
- 4. Each day a provision of this section is found to have been violated constitutes a separate violation subject to the fine schedule above
- (D) If the exclusive commercial municipal solid waste and construction debris franchise hauler violates the provisions of Section 8-26-4(A)4 of this chapter, the hauler shall be guilty of an offense and fined \$100.
  - 1. <u>A separate offense shall be deemed committed for each individual customer</u> account the franchise hauler violates this provision.
- (E) If the exclusive commercial municipal solid waste and construction debris franchise hauler violates the provisions of Section 8-26-4(A)(5) of this chapter shall be guilty of an offense and fined \$500.
  - 1. <u>A separate offense shall be deemed committed for each provision violated and for each deadline missed.</u>
- (F) Any person found guilty of violating, disobeying, omitting, neglecting or refusing to comply with or resisting or opposing the enforcement of any provision of Section 8-26-2, except when otherwise specifically provided, shall be fined not less than two hundred fifty dollars (\$250.00) for the first offense, and not less than seven hundred fifty dollars (\$750.00) for the second and each subsequent offense in any one hundred eighty (180) day period; each day of violation shall constitute a separate and distinct offense.
- (G) <u>All fees imposed in Section 8-26-2-F and remaining unpaid after they are due will bear interest at a rate of ten percent (10%) per month, or fraction thereof. The entity requesting a franchise service exception shall timely pay all fees imposed by this section to the City Collector.</u>

SECTION 3: All ordinances or parts of ordinances in conflict herewith are

hereby repealed.

SECTION 4: If any provision of this ordinance or application thereof to

any person or circumstance is ruled unconstitutional or otherwise invalid, such invalidity

shall not affect other provisions or applications of this ordinance that can be given effect

without the invalid application or provision, and each invalid provision or invalid

application of this ordinance is severable.

**SECTION 5:** The findings and recitals contained herein are declared to be prima facie evidence of the law of the City and shall be received in evidence as provided by the Illinois Compiled Statutes and the courts of the State of Illinois.

**SECTION 6:** This ordinance shall be in full force and effect from and after its passage, approval, and publication in the manner provided by law with the exception of 8-26-4(A) which is effective November 1, 2022.

Introduced: January 12 , 2022

# Climate Action and Resilience Plan

# **Carbon Neutral by 2050**

cityofevanston.org/climate

# Letter from the Mayor

Evanston has a long track record of success when it comes to climate action. Since the City Council's unanimous decision to support participation in the U.S. Conference of Mayors Climate Protection Agreement in 2006, our City has successfully implemented two climate action plans under the leadership of Mayor Lorraine H. Morton and Mayor Elizabeth Tisdahl, received certification and recertification as a 4-STAR sustainable community, been named the U.S. Earth Hour City Capital, and achieved a 24 percent reduction in greenhouse gas emissions relative to 2005 baseline levels. Still, there's more work to be done.

That's why, in 2017, I formed a resident-led working group to chart a path forward. The group, comprised of 17 community members with a wide array of backgrounds and expertise, has been hard at work over the last year developing a plan to not only continue reducing Evanston's impact on climate change, but to also prepare the city and its residents for its effects.

I am pleased to announce the culmination of their efforts with the release of **Evanston's Climate Action and Resilience Plan (CARP)**. Detailed on the following pages, the plan lays out a bold vision that "by 2050, Evanston will be a climate ready and resilient city that has successfully prioritized the needs of its most vulnerable while combating climate change."

To achieve that vision, the Climate Action and Resilience Plan sets a goal of achieving carbon neutrality by 2050, while reaching ambitious greenhouse gas reduction targets along the way. Other goals include securing 100 percent renewable energy for all Evanston properties by 2030, achieving zero waste by 2050, shifting to low- or non-polluting transportation methods, enhancing Evanston stormwater systems, and, for the first time, ensuring that all residents, including our most vulnerable, are prepared for the impacts of a changing climate.

Achieving these goals will require a community-wide effort, and the City can't do it alone. That's why our plan includes commitments from some of Evanston's largest institutions, including the Evanston Community Foundation, NorthShore University HealthSystem, Northwestern University, Presbyterian Homes, Presence Saint Francis Hospital, Rotary International, Evanston/Skokie School District 65, and Evanston Township High School.

From our residents, to our businesses, to our schools and hospitals, Evanston is united in its efforts to mitigate the far-reaching effects of climate change through bold action. While our city will likely undergo many changes on the way to 2050, this plan ensures that our commitment to climate action will remain.

teptu A Harrity

Evanston Mayor Stephen H. Hagerty

# **Executive Summary**

Dire warnings and new reports continue to fill news headlines that demand immediate and decisive action at all levels of government and throughout society, including local government. On October 8, 2018, the Intergovernmental Panel on Climate Change (IPCC), the leading scientific body responsible for climate research, issued a dire warning indicating that in order to limit global warming to 1.5 C, "net human-caused emissions from carbon dioxide (CO2) would need to fall by about 45 percent from 2010 levels by 2030, reaching 'net-zero' around 2050."\* With nine of the 10 hottest years on record having occurred since 2005, precipitation continues to occur in more intense and less frequent storms, and wildfires and hurricanes have ravaged large swaths of the United States. This warning reflects the need for action.

In Evanston, the question is not whether or not climate change exits. The question remains, how do the City and community take actions that reflect the immediacy of the situation while centering the needs of those who will be most severely impacted locally? Although Evanston, as a Great Lakes city, is relatively insulated from threats such as hurricanes, sea level rise and wildfires, it is not insulated from increasingly intense storms, the influx of invasive species, hotter temperatures, drought-like conditions, human migration, threats to water quality and the relative instability of energy prices. Vulnerable communities and individuals will experience disproportionately negative impacts from climate change in the coming years and decades.

Evanston has a long-standing history of bold climate action and a track record of making consistent reductions in carbon emissions. This strong history, begun by Mayor Lorraine H. Morton and elevated by Mayor Elizabeth Tisdahl, is being taken to the next level under Mayor Stephen H. Hagerty. The Climate Action and Resilience Plan (CARP) calls for ambitious reductions in carbon emissions and, for the first time, establishes goals to ensure Evanston is prepared for the daunting impacts of climate change.

The Climate Action and Resilience Plan calls for carbon neutrality by 2050, 100% clean and renewable electricity by 2030, zero waste by 2050, and much more. These ambitious goals were developed by a community working group established by Mayor Hagerty in late 2017. The working group had 17 members and convened dozens of times in smaller task forces and as a whole from November 2017 to November 2018.

The plan is divided into five sections, with two major sections: Climate Mitigation and Climate Resilience. Climate Mitigation explores the far-reaching ways in which many daily routines are tied to larger systems that account for much of the City's emissions, namely buildings, which account for 80% of Evanston's emissions. Climate Resilience focuses on preparing social, ecosystem and built environments for the impacts of climate change. Many recommended actions improve climate resilience as well as reduce carbon emissions; the plan seeks to amplify those actions as especially critical.

Thirteen years after Mayor Morton signed the U.S. Mayors Climate Protection Agreement, Evanston has reduced its overall emissions by 24% and leads the region in climate-related planning and progress. The Climate Action and Resilience Plan builds on the foundation of community-driven planning and calls for another round of ambitious action.

Global Warming of 1.5°C, an IPCC special report on the impacts of global warming of 1.5°C above pre-industrial levels and related global greenhouse gas emission pathways, in the context of strengthening the global response to the threat of climate change, sustainable development, and efforts to eradicate poverty.

# Introduction

### **Evanston 2050 Vision**

The City of Evanston's Climate Action and Resilience Plan Working Group has a vision for the future and has set forth a path to reach that vision. This is what they foresee:

By the year 2050, Evanston has achieved carbon neutrality; all buildings are "highperforming" in terms of energy and water efficiency; all energy produced and consumed is from clean and renewable sources; a Zero Waste Strategy has been implemented and achieved; half of all trips made in Evanston are by transit, walking or bicycling; all vehicles and equipment rely on zero-emission technology; and the urban canopy is healthy and growing in size, adapted to the 2050 climate.

Green infrastructure is distributed equitably throughout the community, increased precipitation is captured by rain gardens and naturally filtered into the soil, the transition to zero emissions vehicles has improved air quality, the boom in renewable energy installations has solidified Evanston as a regional leader and expert in renewable energy and local food options are accessible and affordable to residents in every neighborhood. By 2050, Evanston will be a climate-ready and resilient City that has successfully prioritized the needs of its most vulnerable while combating climate change.

To realize this vision, the City of Evanston (City) is committed to taking immediate and decisive action to reduce the community's impact on climate change and to prepare the community to adapt and become more resilient to the changing climate and its effects. The City has set ambitious targets to combat the effects of climate change, achieve carbon neutrality by 2050 and make significant reductions in greenhouse gas (GHG) emissions in the short term. The Climate Action and Resilience Plan (CARP) will chart a path forward to meet those commitments and targets. The plan is divided into five sections with two supporting appendices.

#### Sections

- 1. Municipal Operations
- 2. Climate Mitigation\*
- 3. Climate Resilience\*\*
- 4. Implementation, Accountability and Partnerships
- 5. Commitments

#### **Appendices**

- 1. Appendix A: Community Greenhouse Gas Emissions Inventory
- 2. Appendix B: Glossary of Terms

- \* Climate Mitigation describes actions that limit climate change through reducing the release of greenhouse gases (GHGs) such as carbon dioxide and methane.
- \*\* Climate Resilience or Adaptation is the task of evaluating the changing climate and its impacts and preparing the community to adapt and adjust to new climate conditions and the effects they will have on its assets, including people, ecosystems and infrastructure (social, health, natural and built).

### **Guiding Principles**

The development and implementation of an ambitious climate action plan requires recognizing and understanding Evanston's historical, current and future context. To ensure that the goals developed within this plan meet Evanston's vision of becoming the "Most Livable City in America" and align with the comprehensive livability guidelines of the STAR Community Rating System, the plan relies on three core guiding principles: Equity-Centered, Outcome-Focused and Cost-Effective and Affordable.

### **Equity-Centered**

Climate change affects everyone. However, not all people are equally impacted. People of color, immigrants, refugees and lower-income populations experience increased exposure and sensitivity to environmental and climate hazards and a reduced capacity to adapt. To ensure that actions within this plan align with equity principles in Evanston, this plan will employ an equity-centered lens that is approved by City Council and implemented by the Office of Equity and Empowerment with advisory support from the Equity and Empowerment Commission. In the absence of a City definition of equity-centered, guidance will be sought from external leaders within the urban sustainability and equity fields throughout implementation of the plan. By following an equity-centered approach, the City seeks to achieve environmental justice for all its community members, which includes fair treatment and meaningful involvement with respect to environmental decisions and policies, regardless of race, color, national origin or income.

### **Outcome-Focused**

Meaningful progress toward reducing Evanston's contribution to climate change and increasing resilience to climate change impacts are most effectively demonstrated through measurable outcomes. Identified within the plan are measurable outcomes that reflect the goals of the plan. Example outcomes include reducing greenhouse gas emissions, increasing the use of renewable energy, increasing building efficiency, and reducing waste. Although there are actions within the plan that focus on behavior change, education and improving community awareness and understanding, those actions are anticipated to support the achievement of improved measureable outcomes.

### **Cost-Effective and Affordable**

There is a perception that being "green" or "sustainable" comes with a price or cost premium. Although this may be the case in some instances, many of the recommended policies and programs, if properly implemented, could lead to cost savings as well as economic growth and job creation. Sustainable actions and solutions are not inherently costlier than unsustainable ones. In evaluating the cost-effectiveness and affordability of actions, the City will work to incorporate the cost of inaction as well. The social and economic cost of climate and resilience inaction is considerable. All policies and programs implemented will consider the cost-effectiveness for the City to implement as well as the impact on affected parties and affordability in Evanston. <sup>\*</sup> Language taken from the USDN Guide to Equitable Community-Driven Climate Preparedness Planning

# **Municipal Operations**

The City of Evanston will continue to lead by example by setting ambitious goals for municipal operations. Although municipal operations account for less than one percent of Evanston's emissions, the City can play an outsized role in bringing together coalitions, partnerships and the wider community to meet the goals of the Climate Action and Resilience Plan.

#### **Municipal Goals**

2020 – 100% Renewable Electricity for Municipal Operations
2030 – Achieve Zero Waste for Municipal Operations
2035 – Carbon Neutrality for Municipal Operations

#### **Purchasing and Planning**

- Update the Environmental Sustainability and Best Practices document to align with CARP goals.
- Conduct a GPC-compliant emissions inventory for all municipal operations in 2019.
- Create a CARP checklist to provide to developers submitting projects to the Design and Project Review Committee (DAPR).

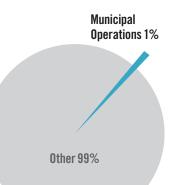

#### Energy

- Develop a Net Zero greenhouse gas emissions policy for new municipal buildings in 2019.
- Host a shared solar project/serve as an anchor subscriber to a shared solar project and allow residents and businesses to subscribe to the project.
- Install LED lighting for all lighting on city properties, street lights, and traffic lights by 2025. Install 100% LED lighting on all City projects, facilities and infrastructure with lighting needs by 2025 (exceptions may be made if technology is not available to meet project requirements).
- Complete a feasibility study in 2020 to determine the best opportunities for installation of renewable energy installations on municipal properties.
- Retrofit all municipal facilities with water-efficient features to reduce potable water use.
- Develop a zero emissions vehicle purchasing strategy for the municipal vehicle fleet.

#### Waste

- Require that capital projects divert construction and demolition debris from the landfill and incorporate a percentage of reclaimed material into projects where practicable.
- Ensure that recycling receptacles are located at all City properties including parking garages, parks and community centers.
- Expand compost collection service to public spaces and city facilities.
- Work with waste haulers to ensure that our city's garbage ends up in landfills that are managed responsibly and use methane gas capture technology to generate energy.
- Require waste haulers to complete regular waste characterization studies for each waste stream.

#### **2017 Municipal GHG Emissions**

#### **Green Infrastructure**

- Prioritize replacing trees on public property and focus on maintaining tree health to increase longevity. Policies that will improve the overall health of the urban tree canopy include:
  - o Maintain a cyclical pruning process for public trees
  - o Diversify tree planting selection to take into account anticipated future climate zone shifts due to a warming climate
- Maintain skilled forestry staff
- Develop a definition of natural and open spaces in Evanston.
- Increase natural landscaping on public property and expand no-mow areas in parks and other public spaces.
- Prioritize planting and preservation of native species of plants and trees on public property.
- Achieve and maintain the National Wildlife Federation Community Wildlife Habitat Certification
- Achieve all goals laid out in the Mayors Monarch Proclamation and maintain active support of the goals.
- Expand the geographic distribution of green infrastructure throughout the City.
- Efficiently utilize public land to increase stormwater infiltration and detention while enhancing the primary use of the property.

#### Investments

- Align investment strategies and advocacy initiatives with CARP goals through a City Council-adopted resolution:
  - a. Define and implement an approach to sustainable investing that considers the risks associated with climate change and fully integrates environmental, social and corporate governance considerations into the City's investment decision-making process. This investment philosophy should be adopted with a clear, thoughtful approach to considering the long-term environmental and social sustainability of the entities in which the City invests.

#### **Advocacy**

- Support local and national strategies for instituting limits on carbon, including market strategies such as a price on carbon
- Advocate at the state level for legislation and policies that support the goals of CARP; oppose legislation that overturns municipal home rule
- Encourage key institutions such as the school districts and large employers to serve as anchor subscribers to community solar projects.

# **Climate Mitigation**

Climate Mitigation describes actions that reduce the release of greenhouse gas emissions in order to limit climate change. Climate mitigating actions at the local level is imperative if Evanston is to play its part in holding average global temperature increases to below 2 degrees Celsius (3.6 degrees Fahrenheit) and preferably below 1.5 degrees Celsius (2.7 degrees Fahrenheit).

Research compiled by the Intergovernmental Panel on Climate Change (IPCC) indicates that if global temperatures are allowed to increase by 2 degrees Celsius, the consequences will be much more catastrophic than if we can limit warming to 1.5 degrees Celsius or below. The average global temperature has already increased by 1 degree Celsius (1.8 degree Fahrenheit) since pre-industrial levels. Warming greater than the global average is already occurring in many land regions, such as the Arctic, where it is occurring two to three times faster. Global warming is likely to reach 1.5 degrees Celsius as opposed to 2 degrees would mean the difference between a world with Arctic summer sea ice and coral reefs and one without them. More information on the IPCC and climate data can be found at **www.ipcc.ch**.

## **Greenhouse Gas Reduction Targets**

This plan calls for ambitious and immediate reductions in greenhouse gas emissions, building upon the success of the 2008 Evanston Climate Action Plan (ECAP) and the 2014 Livability Plan. The 2017 community greenhouse gas emissions inventory (Emissions Inventory) showed a 24% reduction in emissions from the 2005 baseline, which demonstrates significant progress towards carbon neutrality. To build off of this progress, the City has established the following community reduction targets:

Ļ

2025 – 50% reduction

2035 – 80% reduction

2050 – Carbon Neutrality

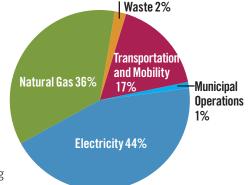

To evaluate and measure the community's progress towards these targets, the City has developed an Emissions Inventory that is compliant with the internationally accepted best practices put forth in the global protocol for community-scale greenhouse gas emissions (GPC). The Emission Inventory identifies emissions by sector and illustrates changes in emissions over time. An inventory makes it possible to evaluate the City's progress in reducing emissions and the impact of emission reduction policies.

The Emissions Inventory accounts for emissions attributed to activities taking place within the City's municipal boundaries. The Emissions Inventory is measured in metric tons of carbon dioxide equivalent (MTCO<sub>2</sub>e), which is the standard measurement of greenhouse gas (GHG) emissions. The 2005 baseline of emissions attributed to the community totaled 1,056,169 MTCO<sub>2</sub>e. The 2017 Emissions Inventory revealed total net emissions of 793,266 MTCO<sub>2</sub>e from the following sectors:

- 1. Electricity (44%)
- 2. Natural Gas (36%)
- 3. Waste (2%)
- 4. Transportation (17%)
- 5. Municipal Operations (1%)

A detailed Emission Inventory is available in Appendix A: Emissions Inventory.

### 2017 GHG Emissions by Source

## **Target Years**

Achieving the goals put forward in this plan requires immediate and ambitious action by the City and everyone who lives, works, and plays in Evanston. The target years of 2025, 2030, 2035 and 2050 provide specific milestones for action and achievements. The measure of success between now and 2050 may shift considerably as metrics evolve, and as new technologies and trends emerge. For this reason, the 2050 targets indicated in the plan are limited by current knowledge, but align with the vision for Evanston in that year.

Some of the goals outlined in this section are straight-forward outcomes of policies and programs that start at the City government level. Others require innovative partnerships, broad-reaching education programs, incentives, creative funding strategies and a culture shift in how we live, work, travel and consume today. Staying on track to meet our 2025, 2030, 2035 and 2050 targets will require adapting, adjusting and innovating future iterations of this plan and its metrics. Therefore, the plan will be regularly updated to ensure it is relevant and at the cutting-edge of technology, innovation and environmental and social justice.

The Climate Mitigation section of the plan is split into six Focus Areas
with corresponding Goals, Actions and Performance Metrics.

Focus Areas	Goals	
Building Efficiency	<b>ng Efficiency</b> Reduce building energy consumption by 35% by 2035 (from 2005 levels).	
Renewable Energy	Achieve 100% renewable electricity supply for all Evanston accounts by 2030.	
Zero Waste	Increase the community waste diversion rate to 50% by 2025, 75% by 2035 and Zero Waste by 2050 (from 2017 levels).	
Transportation and Mobility	Reduce vehicle miles traveled; increase trips made by walking, bicycling and transit.	
	Increase use of electric vehicles; decrease carbon emissions from vehicles and equipment.	
Urban Canopy and Green Space	Preserve and restore Evanston's urban canopy, natural areas, native vegetation and green space to maintain and increase carbon sequestration, improve stormwater runoff detention, improve air quality, energy efficiency and livability and reduce adverse urban impacts on humans and key species such as birds and pollinators.	
Outreach, Education and Behavior Change	Educate, motivate and empower Evanston residents, institutions and businesses to take meaningful action to fight climate change and improve community resilience.	

#### Electricity Aggregation:

Since 2012, the City has provided 100% renewable energy to participating residents in the City's electricity aggregation program. This program has resulted in a reduction of 445,154 MTCO<sub>2</sub>e of emissions, which is equivalent to 95,322 passenger vehicles driven for one year.

# **Building Efficiency**

#### Goal

#### Reduce building energy consumption by 35% by 2035 (from 2005 levels).

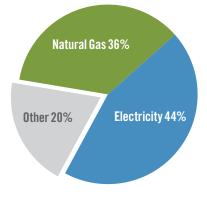

Building energy consumption is the largest source of greenhouse gas emissions in Evanston and accounts for roughly 80% of the community's emissions. Overall electricity emissions decreased significantly since 2005, however, this reduction is primarily the result of the purchase of renewable energy credits as part of Community Choice Electricity Aggregation (Aggregation) as well as the overall improvement in emission factors for the regional power grid (i.e. coal generation being replaced with less carbon-intensive generation such as natural gas and renewable energy sources). A detailed explanation of electricity consumption and corresponding emissions calculations is located in *AppendixA*.

Actions in this section will improve building efficiency and reduce energy consumption. Decreasing energy consumption can lead to cost-savings, reduced strain on systems and infrastructure and improved public health outcomes.

### **Actions**

- 1. Develop a strategy to transition to net-zero greenhouse gas emissions (NZE) building standards in 2019. Implement strategy via building code update effective starting in 2020.
  - a. Use best practices in each category of green building standards, including aspects of LEED Platinum, Passive House (PHIUS), Green Globes, Living Building Challenge, American Institute of Architects (AIA) 2030, and Enterprise Green Communities. Address all aspects of the building, including construction, energy use, water use, impacts on nature and wildlife (e.g. birds), and on the community (e.g. transportation).
  - b. Require NZE building codes for residential and commercial new construction and retrofits by 2030.
  - c. Include energy audits as part of the building permit approval process for residential, commercial and industrial modifications and additions.
- 2. Update the energy and water benchmarking ordinance to gather information on renewable energy purchases, renewable energy on-site generation, energy efficiency upgrades, waste management data (recycling, composting) and other relevant information.
- 3. Adopt policies that require retro-commissioning for larger buildings and building energy audits for smaller buildings.
- 4. Create a Property-Assessed Clean Energy (PACE) financing program to support residential and non-residential energy efficiency initiatives.
- 5. Increase water efficiency and reduce daily per capita water usage.
  - a. Update and implement the Evanston Water Conservation and Efficiency Plan developed by CMAP in 2014.
  - b. Facilitate reduction of water use by top 20 customers. Request large institutions and businesses to identify specific opportunities for employees or customers to conserve water and incorporate water efficiency into internal operations.
- 6. Institute a residential energy performance transparency program to help homebuyers understand the energy performance of homes they are considering for purchase.
- 7. Create an education and incentive program to empower and encourage residents, businesses and building-owners to reduce energy consumption.

# *Northwestern University Reduction in building energy consumption by 20% by 2020:*

Northwestern has been an active partner of the US Environmental Protection Agency's ENERGY STAR® program since 2015. Northwestern follows the program's Guidelines for Energy Management and uses its Portfolio Manager software to benchmark and track University energy, water and waste performance.

#### *Rotary International to Pursue LEED Platinum by 2022:*

Headquarters, located in Evanston, achieved LEED Gold certification in 2012 and 2017 and is EPA Energy Star-certified. Rotary has committed to having 100% of their facility electricity come from renewable sources, to pursue LEED Platinum certification, and reduce building energy costs by using less energy.

#### **Focus Area Impact and Performance Metrics**

Building energy consumption accounts for the largest single source of greenhouse gas emissions in Evanston. Completing actions to reduce energy consumption will take time, but ultimately could lead to the largest reduction in emissions.

Target year	Metric Description
2025	Reduce building energy consumption by 25% from 2005 levels
2035	Reduce building energy consumption by 35% from 2005 levels
2050	Reduce building energy consumption by 50% from 2005 levels
Annual	Total energy consumed in applicable units
Annual	Average daily water consumption per capita
Annual	Number, type and energy-use intensity of buildings participating in implemented programs (i.e. benchmarking, retro-commissioning, etc.)
Annual	Number of high performance residential and commercial buildings

#### **Outreach and Engagement**

- 1. Identify strategies and funding to support residents and businesses in implementing energy efficiency improvements and energy usage reductions.
- 2. Educate the community about existing incentive programs through Nicor Gas and ComEd and other entities and prioritize connecting eligible properties with utility rebate and efficiency programs.
- 3. Pursue utility investments and benefits for Evanston residents, particularly those that benefit low-income residents.
- 4. Encourage buildings to pursue third-party sustainable building certifications such as Green Globes, Passive House (PHIUS), LEED, etc.

# **Renewable Energy**

#### Goal

#### Achieve 100% renewable electricity supply for all properties in Evanston by 2030.

In 2017, Mayor Hagerty joined the Sierra Club's Mayors for 100% Clean Energy. Although purchasing renewable energy credits (RECs) has played a large part in working toward this goal, the City also values onsite generation of renewable energy through sources such as wind, solar and geothermal installations within Evanston and the region. The included actions seek to provide competitive renewable energy options to all Evanston customers.

Shifting to renewable energy sources can result in cost-savings to residents and businesses. It will grow demand for renewable energy and stimulate job growth in related fields. As more renewable energy sources replace carbon-based sources, overall air quality will improve and there will be a reduction in carbon-based environmental contaminants in the air, water and soil nationally.

#### Actions

- Continue Community Choice Electricity Aggregation (Aggregation). Explore expanding the reach of the Aggregation program and tighten sourcing requirements to encourage/ require energy suppliers to directly invest in renewable energy.
- 2. Increase renewable energy supply options beyond Aggregation by supporting community solar and other renewable energy generation projects.
- 3. Create an educational program to inform commercial properties about renewable energy opportunities. Incentivize businesses to purchase renewable energy (such as through a sustainable business recognition program).
- 4. Evaluate the options available for the City to increase the supply of renewable energy to Evanston customers not eligible for Aggregation, such as Community Solar Subscriptions, development of a municipal alternative retail electric supplier (ARES), Power Purchase Agreements, etc.

#### **Focus Area Impact and Performance Metrics**

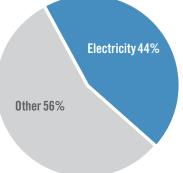

Switching to renewable sources of electricity and purchasing renewable energy either directly or through Renewable Energy Credits (RECs) and offsets would eliminate greenhouse gas emissions from electricity consumption in Evanston.

Target year	Metric Description
2025	75% renewable electricity supply for all Evanston accounts
2030	100% renewable electricity supply for all Evanston accounts
Annual	Number, size and output of onsite renewable energy installations in Evanston
Annual	Total megawatt hours (MWh) of renewable energy supplied to Evanston customers

#### **Outreach and Engagement**

- 1. Implement a sustainable business recognition program focused on increasing access to renewable energy supply options, reducing energy consumption and improving energy efficiency, waste reduction and diversion strategies, resource efficiency, sustainable purchasing and cost-savings.
- 2. The City, in partnership with local non-profits, will provide information and resources on the installation of onsite renewable energy systems.

#### Evanston Hospital:

NorthShore University HealthSystem has pledged to achieve 50% of their entire energy portfolio from renewable sources by 2025, reach a 30% recycling rate across NorthShore campuses by 2020, and obtain an Energy Star score above 75 for Evanston Hospital 2025.

# **Zero Waste**

#### Goal

#### Increase community waste diversion rate to:

All diversion rates measured from a 2017 baseline (see Appendix A for details).

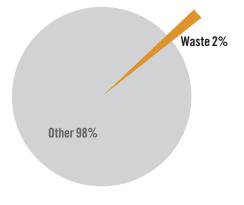

Disposal of waste only accounts for 2% of community emissions, yet material consumption and corresponding waste systems have significant environmental and climate impacts that are not included in calculations of community greenhouse gas emissions data. Given that measurements of these consumption and waste systems have yet to be refined and the significant impact of food waste, plastic pollution and demolition waste on the environment, developing a Zero Waste Strategy is considered a primary action within the plan. Furthermore, Evanston's 2017 community-wide waste diversion rate was 21% and has held steady at around 20% since 2012, which is far below its potential.

Actions in this category seek to meaningfully reduce the amount of waste generated, encourage more sustainable consumption behaviors, support the circular economy and develop and implement a Zero Waste Strategy. Additional benefits of actions in this section include reduced environmental and social impacts of waste disposal, improved air and water quality, improved public health, cost-savings, and potential job growth in related sectors.

### **Actions**

- 1. Create and Implement a Zero Waste Strategy
  - a. Combat food waste by requiring retailers and restaurants to donate, reduce, reuse, or compost their unsold food, creating "zero-waste sections" where products are sold close to their expiration dates, and designating "zero-waste coaches" to raise awareness among staff and help manage products reaching the end of their marketable life. Edible unsold products shall be donated. When not edible, organic waste shall be composted through a City-approved vendor.
  - b. Eliminate petroleum-based, single-use products through phasing out the use of single-use plastics by 2025. Require food service retailers to use biodegradable, compostable or recyclable packaging (per City of Evanston recycling specifications). Explore the feasibility of establishing a reusable takeout container service.
  - c. Implement a plastic straw and stirrer-free or opt-in policy for businesses that provide food and/or beverage services, with appropriate options for people with disabilities.
  - d. Reduce construction and demolition waste by ensuring that strong recycling and reuse requirements are met for all building-related permits. Require that all real estate developments that receive financial assistance from the City or special zoning approval adhere to a higher standard of recycling and reuse.
- 2. Require recycling at all properties. Adopt policies that provide all properties equal access to waste diversion services such as recycling and composting. Require that all properties make recycling receptacles clearly accessible to tenants, patrons and visitors. Facilitate, encourage and incentivize all properties to engage in a composting program.
- 3. Update and revise the disposable plastic shopping bag ban to achieve its intended outcome.
- 4. Enforce the Cook County Demolition Debris Diversion Ordinance and strive to exceed minimum requirements in the revised building code.
- 5. Support the preservation, reuse, repurposing and retrofit of existing structures to reduce demolition waste, preserve the embodied energy and materials, while avoiding the energy usage related to demolition.

#### 2017 Waste GHG Emissions

#### Composting:

In 2017, the City launched the largest municipal compost collection program in Illinois. The program provides service options to all properties in Evanston in partnership with Collective Resource, an Evanston and woman-owned business. Diverting food from the landfill can reduce methane generation and allow waste food to be turned into a nutrient-rich soil amendment.

#### **Focus Area Impact and Performance Metrics**

Achieving the ambitious goal of Zero Waste will have numerous and significant positive impacts beyond the direct reduction in greenhouse gas emissions. Achieving Zero Waste has the potential to change local consumption habits, reduce costs associated with landfilling material, create jobs and energize circular economy practices throughout the community.

Target year	Metric Description
2025	Community waste diversion rate of 50% from 2017 levels
2035	Community waste diversion rate of 75% from 2017 levels
2050	Community waste diversion rate of 100% from 2017 levels
Annual	Total weight of material disposed of within the community by month and type
Annual	Number of active accounts per waste service
Annual	Number of deconstruction projects in Evanston annually
Annual	Total weight of reclaimed material utilized in projects, renovations and new construction

#### **Outreach and Engagement**

- 1. Educate the community on waste management strategies starting with reducing consumption, followed by reusing, repurposing, recycling, and composting.
- 2. Participate in the "Love Food Hate Waste" campaign or a similar program to encourage food waste reduction on a community-wide scale.
- 3. Conduct a Zero Waste campaign.
- 4. Encourage schools to establish Zero Waste lunchrooms and classrooms.
- 5. Encourage grocery stores to offer bulk food sales to reduce packaging.
- 6. Encourage and support creative solutions to consumption reduction: reuse, repair, and repurposing initiatives, including tool libraries, library of things, swap events, food-share opportunities, repair clinics, etc.
- 7. Promote the purchase of compost made in Illinois.
- 8. Provide a copy of the Cook County Demolition Debris Diversion ordinance with appropriate City permit materials.

### Goal 1

Reduce vehicle miles traveled; increase trips made by walking, bicycling and transit.

### Goal 2

#### Increase use of electric vehicles; decrease carbon emissions from vehicles and equipment.

Transportation systems accounted for 17% of Evanston's emissions in 2017. Transportation-related emissions and transportation activity in Evanston are difficult to measure, thus the data included in the inventory is modeled data from the Chicago Metropolitan Agency for Planning (CMAP)'s regional transportation model scaled down for Evanston (*details in Appendix A*). Given the limited local data on all forms of transportation and mobility, it is recommended that the first step in taking meaningful action to reduce transportation and mobility emissions is to *develop and implement a comprehensive multimodal transportation data collection program that includes vehicle-miles-traveled* (*VMT*). This program, once established, will be used to evaluate the impact and effect of policies on Evanston's transportation systems by mode.

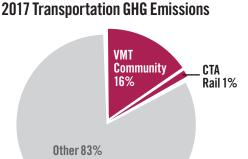

Actions in this section focus on helping the community to shift to low- or non-polluting transportation modes such as walking, bicycling, and using public transit. Additionally, the actions support the expansion of the use of electric vehicles or other zero-emission vehicles (ZEVs) in the public and private sector and the infrastructure necessary to support this expansion. Shifting to low- and non-polluting modes of transportation while also increasing the use of zero-emission vehicles and equipment, and decreasing the use of combustion-engine vehicles and equipment, will have positive effects on public health through increased active lifestyle habits and improved air quality.

The transition from petroleum-powered vehicles to electric vehicles will require changes (upgrades) in fleets, personal vehicle purchases, and perhaps most importantly, electric vehicle infrastructure, namely charging stations for commercial and personal use. This section identifies the top priorities in each of these areas.

### **Preliminary Step**

Develop and implement a comprehensive multimodal transportation data collection program that includes vehiclemiles-traveled (VMT), the mode-share for each (walking, bicycling, transit, driving alone and carpooling), and route selection through routine traffic counts for both roadways and key bicycle routes. The data collected should be able to assess the impacts of infrastructure improvements, increased development and other related policy changes on travel behavior. This data collection effort should include ride-share data provided by ride-share operators and commercial VMT attributed to trucks and delivery vehicles to better understand the impacts on overall community VMT. The process of developing a regular and comprehensive transportation data collection program may initially require external resources. The City will explore potential partnerships with local institutions and organizations to accomplish this preliminary step.

### **Climate Mitigation**

#### **Goal 1 Actions**

- 1. Continue implementation of transportation-related City plans, including the Multimodal Transportation Plan, the 2014 Bike Plan Update, the Health Department's EPLAN, and the Complete Streets Policy.
  - a. Expand safe, convenient and complete networks in Evanston for pedestrians, bicycles and transit; facilitate the expansion of strong bicycle and transit connections between Evanston and neighboring communities.
- 2. Foster active transportation habits in Evanston residents by:
  - a. Providing bicycle and pedestrian safety and skills training to all school-aged children in Evanston with an accompanying program to educate parents and all interested adults. Conduct a "share-the-road" public education campaign to educate drivers about safe and respectful driving behavior mindful of pedestrians and bicyclists.
  - b. Conduct Safe Routes to Schools audits for all Evanston elementary and middle schools to identify infrastructure improvements that would enhance pedestrian and bicycle safety and encourage trips to school on non-polluting modes of transportation.
- 3. Through revision of the building code, ensure that developers undertaking new development or redevelopment projects adopt practices and include infrastructure that encourages trips by walking, bicycling and on transit through:
  - a. Reducing the amount of parking.
  - b. Providing incentives such as density bonuses or expedited review for development projects that have mixed-used zoning (residential, retail and office uses) and commit to sustainable transportation practices. For example, prioritizing access by pedestrians and bicyclists, providing electric vehicle charging stations and discounted transit passes, as well as fee-appropriate parking.
- 4. Monitor impacts of ride-sharing services and work with ride-share operators to determine appropriate strategies to reduce unnecessary VMTs and incentivize the use of electric and hybrid vehicles. Assess fees relative to the impacts identified and earmark them for investments in transit, bicycle and pedestrian networks.

#### **Performance Metrics**

Target year	Metric Description
2025	Reduce community vehicle miles traveled by 20% from 2005 levels
2035	Reduce community vehicle miles traveled by 35% from 2005 levels
2050	Reduce community vehicle miles traveled by 50% from 2005 levels
Annual	Number of trips made by walking
Annual	Number of trips made by bicycling
Annual	Number of trips made by public transit

#### **Goal 2 Actions**

- 1. Incentivize electric vehicle infrastructure (charging stations).
  - a. Work with neighboring communities to incentivize electric vehicle infrastructure by identifying appropriate locations that are convenient to residents of multiple communities.
  - b. Establish an expedited process through the City's zoning and building code for electric vehicle charging infrastructure.
- 2. Partner with fleet operators and transit providers to work towards a goal that buses and fleets based and operating in Evanston, including school buses, be 100% electric by 2035 (50% electric by 2025). Work with transit agencies and bus companies to take advantage of federal transit grant opportunities to purchase new electric vehicles.
- 3. Educate fleet operators and residents about the no idling law and enforce it consistently, as well as create steeper fines for diesel vehicles, such as buses and construction vehicles and equipment.
- 4. Phase out the use of gas- and propane-powered leaf blowers, lawn mowers and construction equipment; provide a timeline by which they need to be replaced with electric or battery-powered options.

#### **Performance Metrics**

Target year	Metric Description
2025	Buses and fleets based and operating in Evanston are 50% electric
2035	Buses and fleets based and operating in Evanston are 100% electric
Annual	Number of electric vehicles registered in Evanston
Annual	Number of public charging stations located in Evanston
Annual	Percentage of city-owned fleet converted to electric vehicles

#### **Focus Area Impact**

Mode shifts, electrification of transit and private vehicles, as well as the impending proliferation of autonomous vehicles, will change the transportation and mobility landscape in Evanston. These changes will likely lead to an increase in electricity consumption, which can and will be purchased renewably, thus reducing emissions from transportation.

#### **Outreach and Engagement**

- 1. Implement initiatives to educate residents about electric vehicles and related infrastructure.
- 2. Explore the use of a mobile app to educate Evanston residents about travel mode options and routes, and encourage, possibly through incentives, more trips using non- and low-polluting modes of transportation.
- 3. Advocate at the regional and state levels to maintain or expand the bus transit network in Evanston.
- 4. Partner with the Active Transportation Alliance and School District 65 to do safety audits of the walking and bicycling routes to all Evanston elementary and middle schools.
- 5. Explore funding opportunities through the Illinois Safe Routes to Schools grant program to make safety improvements on school walking and bicycling routes.
- 6. Develop a strategy to work with landscaping and construction industry contractors to eliminate the use of gas- and propane-powered equipment prior to the phase-out.

# **Urban Canopy and Green Space**

### Urban Canopy, Natural Areas and Green Space Preservation and Restoration for Mitigation and Resilience

#### Goal

Preserve, restore, and expand Evanston's urban canopy, natural areas, native vegetation and green space to maintain and increase carbon sequestration, improve stormwater runoff detention, improve air quality, energy efficiency and livability and reduce adverse urban impacts on humans and key species such as birds and pollinators.

The presence of an urban canopy, natural areas, and green space provide a multitude of habitat, mitigation and resilience benefits to the community. A healthy urban canopy provides demonstrable carbon sequestration, improved air quality, stormwater absorption, and cooling and shading benefits to the community. Evanston's trees sequester approximately 24,985 MTCO<sub>2</sub>e. Continuing to invest resources into maintaining and improving the health of the canopy will increase carbon sequestration, improve stormwater absorption and increase shading and cooling benefits. In addition, many forms of fauna rely on natural and green spaces in Evanston for food and shelter. Supporting these habitats and improving their resilience in the face of climate change is imperative to supporting local ecosystems.

The actions in this section seek to support and protect Evanston's urban canopy, green space, natural areas and overall ecosystems. The additional benefits related to the initiatives in this section include enhanced public health and livability through improved air and water quality, cost-savings related to the cooling and shading effects of trees, and healthier ecosystems.

### **Actions**

- 1. Prioritize replacing and planting additional trees on public property and assist residents with replacing trees on private property. Consult the Trees for 2050 publication developed by the Chicago Botanic Garden to guide tree selection for climate resilience.
- 2. Commit to protect, conserve, and expand natural areas throughout the city such as Isabella Woods, Clark Street Beach Bird Sanctuary, the North Shore Channel, Perkins Woods, existing habitat, etc.
- 3. Adopt a tree preservation ordinance that requires obtaining a permit for tree removal on private property; include exceptions for diseased and nuisance trees; develop a fee structure that does not overburden income-constrained property owners.
- 4. Prioritize planting and preservation of native species of plants and trees on public and private property through education, incentives and other promotional programs. Ensure that landscaping requirements articulated in the zoning code include the preservation of the maximum possible number of existing trees, the use of native plantings and the preservation of natural areas whenever possible.
- 5. Reduce pesticide (insecticides and herbicides) and chemical fertilizer use communitywide through City policy and community education.

# I Heart Evanston Trees and RePlant Express:

Since 2006, the invasive emerald ash borer, Dutch Elm disease, and intense weather events have claimed as many as 400 trees per year in Evanston! Trees clean the air, sequester carbon, absorb and filter stormwater, provide shade, help cool surrounding areas through evapotranspiration, and can increase property values. To combat these losses, the I Heart Evanston Trees and RePlant Express programs were created to raise funds to plant replacement trees.

#### **Focus Area Impact**

Quantifying emissions reduction and sequestration values is a challenging measurement process at the local level for urban canopy and green spaces. Maintaining green space, natural areas and the urban canopy in healthy and thriving condition improves Evanston's resilience to climate change and supports incremental reductions in greenhouse gas emissions.

### **Performance Metrics**

Target year	Metric Description
2025	500 net new trees planted
2035	1,000 net new trees planted
2050	2,000 net new trees planted
Annual	Number of properties with Natural Wildlife Federation Wildlife Habitat Certification
Annual	Number of pesticide-free public parks and other properties

#### **Outreach and Engagement**

- 1. Review and enhance the City's public health procedures, information and messaging to encourage local gardening, composting, leaving leaves, and reducing chemical fertilizers and pesticides.
- 2. Support community volunteers such as participants in Openlands TreeKeepers program.
- 3. Post information about the City pesticide policy at City properties, include the policy in the City's annual mailing to landscapers, and encourage voluntary steps to reduce pesticides.

# Educate, motivate and empower Evanston community members, institutions and businesses to take meaningful action to fight climate change and improve community resilience.

Collective and decisive action by all residents, institutions and businesses is needed for Evanston to meet its climate action and resilience goals. Educating all members of the community about climate change, its impacts and solutions is critical. Actions in this section aim to educate, motivate and empower all community members to play a part in the Climate Action and Resilience Plan.

Strategic action is needed at all levels, including the individual level. The average annual carbon footprint of a person living the U.S. is  $16.2 \text{ MTCO}_2 e^*$ . This is greater on average than any other nation in the world—twice as much as the average person in Europe or Japan and ten times as much as the average person in India. Every resident should aim to reduce their own carbon footprint and adopt behaviors that are more sustainable, reduce climate change, and increase resilience.

### **Actions**

- 1. Engage both school districts and private schools to explore the possibility of developing and implementing an environmental education-integrated curriculum
- 2. Expand environmental education locations and programming within Evanston specifically to raise awareness about climate change and its effects on the community and the world
- 3. Establish a carbon footprint data collection program through surveys to community members and businesses
- 4. Establish a "MyCARP" program for residents to build their own climate action and resilience plans to empower them to take meaningful actions to reduce their own carbon footprint and increase their resilience
- 5. Implement a "Green Me, Green E" publicity campaign to build awareness, create buy-in and possibly raise funds for climate mitigation and resilience efforts
- 6. Implement a sustainable business recognition program to publicly recognize businesses with a commitment to sustainable practices
- 7. Protect and expand community garden programs to encourage local food production, through dedicated space and increased education efforts.

#### **Focus Area Impact**

Individual awareness about the impacts of climate change and what can be done to reduce Evanston's impact and prepare for changes are prerequisites for the success of all of the focus areas within this plan. Empowering community members to take meaningful action will lead to larger systems change.

### **Performance Metrics**

Target year	Metric Description
2025	Each resident reduces their carbon footprint by at least 10%
2035	Each resident reduces their carbon footprint by at least 25%
2050	Each resident reduces their carbon footprint by at least 50%
Annual	Number of businesses recognized by the sustainable business recognition program
Annual	Number of residents participating in the "MyCARP" initiative
Annual	Number of public events held to educate, motivate and empower residents and businesses to learn about climate change and climate solutions

\*World Development Indicators 11/13/2018 https://data.worldbank. org/indicator/EN.ATM.CO\_E.PC.

# **Climate Resilience**

Climate resilience is the task of evaluating the changing climate and preparing the community for anticipated changes and the impact they will have on the community and its infrastructure.

The local impacts of climate change in Evanston were identified through the City's participation in the Urban Sustainability Directors Network (USDN) Socioeconomic Climate Mapping Tool Project. The resulting Climate and Socio-economic Vulnerability Assessment helped City staff understand local climate data. The primary local climate hazards and their impacts identified are:

#### **Evanston Climate Hazards**

Climate Hazard	By Mid-Century 2050	By End-Century 2075	Summary
Extreme Heat	<b>†</b>	<b>+ +</b>	Increase in extremely hot days, over 95°F and 100°F
Shorter Winters	÷	++	Decrease in number of days below freezing
Storms	+	<b>+ +</b>	Increase in extreme precipitation events
Drought	?	1	Increase in drought conditions

#### **Evanston Climate Impacts**

Climate Impact	By Mid-Century 2050	By End-Century 2075	Summary
Infrastructure Stress	+	<b>† †</b>	With increased heat and sever storms physical infrastructure will be tested
Human Migration	?	?	The Chicago region may see an influx of climate refugees
Flooding	+	<b>† †</b>	Higher risk of flooding and associated damage
Invasive Species/ Pests	1	1	Increase in invasive species and pests
Air Pollution	1	<b>↑</b>	Poor air quality and increase in aeroallergens

In order to respond to these threats six Focus Areas have been identified that demand policy and program solutions to ensure that Evanston remains a resilient community in the face of climate change.

Climate Resilience Focus Areas				
Green Infrastructure				
Health Impacts of Extreme Heat				
Resilience Regulations				
Community Networks and Education				
Emergency Preparedness and Management				
Vulnerable Populations				

# **Green Infrastructure**

"Green infrastructure is a product, technology, or practice that uses natural systems or engineered systems that mimic natural processes to enhance overall environmental quality and provide utility services. Green infrastructure techniques apply to the use of soils and vegetation for infiltration, evapotranspiration, and/or recycling of stormwater runoff." —Federal Environmental Protection Agency (EPA).

In Evanston, there is a long history of investing in stormwater infrastructure primarily through the implementation of grey infrastructure such as: sewer pipes, pumps, detention ponds, and other human-made infrastructure. The implementation of green infrastructure in appropriate locations throughout Evanston can reduce potential flooding risks and potential capital expenses associated with grey infrastructure.

Based on available data, there is a high probability of an increase in the number and impact of damaging floods in Evanston in the future. Most impacts will be moderate (since riverine flooding is not a threat in Evanston), such as overland flooding of homes and sewer system backups. Additionally, depending on the severity of increased precipitation, flooding could negatively impact the water quality in Lake Michigan through the release of contaminants. Although this is a remote possibility, it would be very severe if it occurred, and climate change can lead to unpredictable outcomes (see, for example, the algae blooms that caused toxic drinking water contamination in Toledo, Ohio).

- 1. Contribute to zero occurrences of combined sewer overflows (CSOs) which can result in the opening of the Wilmette locks to release untreated wastewater into Lake Michigan.
- 2. Enhance stormwater systems to handle an increase in severe weather events.
- 3. Prioritize managing stormwater before it enters the sewer system through a combination of overland flow, detention, and infiltration strategies (for example, permeable surfaces).
- 4. Target specific types of infrastructure to implement green infrastructure including: parking lots, alleys, parks, vacant lots, parkways, and grading near sidewalks. In addition, identify property owned by other public entities that have a high potential for improved ecological management to improve stormwater management functions (school districts, Metra, Chicago Transit Authority (CTA), and Metropolitan Water Reclamation District (MWRD)).
- 5. Promote native landscaping, restore and conserve habitat; encourage rain gardens on private property, avoid turf grass, and convert City-owned space to include stormwater absorption features. Tree selection should consider those on the "Adaptive Planting List" which will thrive in our future local climate (refer to Chicago Botanic Garden's "Trees for 2050" and other related assessments).
- 6. Prioritize tree planting and maintenance on public property.
- 7. During and immediately after major rainfall events, deploy an education and communication plan in coordination with the appropriate partners such as MWRD and Friends of the Chicago River to alert residents, businesses and institutions to delay activities that will contribute wastewater (such as doing laundry) until the treatment process can catch up with the overloaded combined sewer system.
- 8. Reduce water consumption.
- 9. Develop a program to provide incentives to property owners for improved stormwater management to be paid for in part by a stormwater utility fee assessed based on the amount of stormwater generated by a property. Include an evaluation of a stormwater utility fee on lower- and moderate-income residents and property owners.
- 10. Prepare a comprehensive plan for stormwater management that goes beyond baseline regulatory requirements and includes green infrastructure with the goal of eliminating CSOs.

# **Health Impacts of Extreme Heat**

An increase in number of hot days annually and temperature increases overall can cause negative health impacts, particularly to community populations and ecosystems that are already susceptible to temperature increases. The elderly, children, workers who perform outdoor labor and individuals involved in outdoor recreational activities will be most impacted. Primary health impacts include increased risk of heat stroke and exhaustion and a decrease in overall air quality. These conditions can exacerbate existing health conditions such as cardiovascular disease, allergies, respiratory illness, etc.

Extreme heat, together with related air quality problems, poses an immediate and severe threat to human health, particularly for vulnerable populations. The following actions seek to reduce the adverse impacts of extreme heat.

- 1. Establish cooling centers and provide information to the community to ensure vulnerable residents are aware of these services, including direct messaging at community facilities and through health providers.
- 2. Provide guidance through resource material to social service providers so they are aware of best practices in treating client needs during an extreme heat event.
- 3. Develop materials instructing residents how to reduce exposure to ground level ozone. (Promote improvements to indoor air quality for homes, schools, childhood learning centers, institutions, and businesses, such as requiring healthy Indoor Environment and Indoor airPLUS protocols for all new construction.)
- 4. Plant shade trees to limit the need for indoor cooling and reduce temperatures at parks, playgrounds, and other outdoor spaces.
- 5. Investigate programs to reduce cost barriers that limit access to cooling assets such as Evanston beaches and pools during extreme heat events.

# **Resilience Regulations**

New construction and modification to existing buildings are highly influenced by City zoning and building codes. Building codes, zoning ordinances, minimum parking requirements, landscaping regulations, and other requirements must support climate resilience strategies. Ensuring that new construction and renovations incorporate sustainable practices will improve climate resilience.

- 1. Conduct a review of relevant City regulations, policies and practices and determine how climate resilience strategies can be incorporated.
- 2. Reduce vulnerability to flooding through provisions for locating mechanical and electrical equipment in above-ground building areas, and encourage alternative energy generation and energy storage systems.
- 3. Revise or implement building codes that reduce threats to vulnerable wildlife species, particularly birds (migratory and local).
- 4. Update plumbing codes to allow for non-potable water reuse for irrigation and other domestic uses.

# **Community Networks and Education**

Community awareness and preparedness for climate change and its impacts is fundamental, and an educated community is necessary for many of the City's actions to be effective. City programs to improve resilience will not be effective unless residents and businesses participate.

### Actions

- 1. Educate residents about the impacts of climate change and develop messages that inspire action. Identify areas (physical places or regular public service announcements) to communicate City efforts, call for volunteers, and raise general awareness.
- 2. Improve resilience through education at public events (street fairs, farmers' markets, and festivals). Increase awareness of climate change impacts and emphasize the need for household and neighborhood preparation. Create activities and messages that capture public interest.
- 3. Improve awareness among residents of the impacts of their actions on the environment, water quality, and waste generation. Educate residents and businesses on proper disposal methods for cosmetics, medications, and other products that contain potentially harmful chemicals.
- 4. Emphasize steps individuals can take to improve emergency preparedness. Increase awareness of City and other alert systems.
- 5. Provide education around vegetation management of trees and how proper management can reduce storm-related power outages.
- 6. Identify funding sources to facilitate a financial aid arrangement to assist property owners in conducting preventive vegetation management and assist with costs related to post-storm, tree clean-up.
- 7. Enhance community networks and connections for those who require special attention, such as the elderly, homebound, disabled, isolated, or those likely to be in need of financial assistance during or after extreme weather events (heat, cold and heavy precipitation).
- 8. Facilitate education about, and membership in, the existing North Shore Village organization.
- 9. Establish a "Neighbors Helping Neighbors" program.
- 10. Partner with local sustainability organizations to foster public volunteer efforts to maintain and grow park systems and green infrastructure, through tree plantings and integrated invasive species control. These programs could help contain costs and foster public involvement. Potentially hold partnered events on environmentally focused holidays such as May Day, Arbor Day, Earth Day, solstices, Mother's Day, Father's Day, etc.

#### Presbyterian Homes:

This independent, not-for-profit organization will encourage carpooling among employees, upgrade lighting to LEDs, increase native plant species on their property, and purchase the most up-to-date HVAC systems. Future goals include developing a certified garden habitat at Westminster Place, one of their Evanston properties, and obtaining 100% of their energy from renewable sources by 2028.

## **Emergency Preparedness and Management**

In addition to an educated and prepared community, the City also needs to use best practices in emergency preparedness, management and response. The City is a front-line responder to the extreme weather events associated with climate change, and must have effective systems and processes in place to manage and respond to emergencies as they occur.

- 1. Update or develop a community resilience plan to prioritize and prepare for responses in the event of a disaster and extreme weather events. Identify the location of critical facilities including hospitals, medical service providers, senior homes, childcare facilities, shelters, major and alternate transportation routes, public transit facilities and locations where hazardous chemicals are used or stored.
- 2. Improve the resilience of emergency response and communications systems. The City Manager's Office will work with the Health and Human Services Department (HHS) Emergency Response Coordinator (ERC) and the City's Emergency Manager for employee and resident emergency communications. They will routinely test and utilize communications systems and build in notifications and alerts for extreme environmental situations.
- 3. Continue to involve key community partners, such as hospitals, in emergency preparedness and management. Include the impacts of climate change as emerging threats in future response planning.
- 4. Ensure that facilities that serve vulnerable populations are resilient to climate hazards. Develop model procedures for ensuring both City and non-City facilities employ best practices in the event of an emergency such as flooding, power outages, extreme heat, etc.
- 5. Update the City emergency plans with specific climate change-related emergency materials. These could include press release templates, information on cooling/heating centers, specific plans for populations requiring mobility assistance, and steps to identify and help populations affected by extended power outages, flooding, etc.
- 6. Develop a debris management plan to support response to severe storm events and flooding.

The City has developed the following working definition for vulnerable populations relative to climate change hazards: community members who are placed at a disadvantage in preparing for and/or responding to climate hazards. These community members include, but may not be limited to: lower-income residents, people of color, immigrants, refugees, the elderly, children, people with disabilities, historically marginalized communities, renters, and those without access to cars. Different vulnerable populations will be affected depending on the climate hazard being experienced. It is expected that other populations will become vulnerable as a result of increasing climate hazards due to climate change.

Many climate hazards result in negative effects, which may include higher utility bills, increased probability of flooding, higher food costs, and other financial stresses. Vulnerable populations, by definition, are placed at a disadvantage when responding to and preparing for these effects. Addressing their needs is a matter of environmental and climate justice. A proactive approach to climate change is essential in protecting the community's most valuable assets, its residents.

- 1. Identify current and future vulnerable populations.
- 2. Conduct targeted outreach with vulnerable populations to understand their needs and how the City can best assist them in preparing to meet those needs.
- 3. Assess City infrastructure and prioritize support for properties that provide services to vulnerable populations to ensure they are accessible.
- 4. Establish a protocol for providing assistance to populations that may face financial strain caused by climate hazards, such as higher utility bills, and identify funding sources to support those populations.
- 5. Investigate building improvement programs that would reduce energy consumption through added insulation, air sealing, passive energy systems, and higher efficiency equipment.
- 6. To buffer low-income residents from fuel price spikes, support alternative transportation modes such as transit, biking, and walking. Support renewable energy sources to provide resilience to energy price spikes.
- 7. Adopt an environmental justice ordinance, building on the work of Environmental Justice Evanston and the Equity and Empowerment Commission.

# **Implementation, Accountability and Partnerships**

The Climate Action and Resilience Plan Working Group recognizes that in order to achieve goals within the plan there must be robust implementation, external accountability and strong partnerships. The City will play a central role in coordinating partnerships, leading overall implementation and providing necessary information to allow accountability from external stakeholders such as relevant Boards, Committees, and Commissions and local stakeholder organizations.

### **Implementation and Accountability**

- 1. Increase City personnel dedicated to Sustainability to ensure that the City is able to implement the plan effectively.
- 2. Request that the CARP working group continue as an independent task force to assist with implementing plan actions, to identify projects or programs that could be carried out by interested volunteer residents, such as education campaigns, fundraising, etc.
- 3. The City should prepare an annual report on the status of implementing the plan. Ensure systems are in place to effectively implement, monitor and measure the plan and the outcomes of the actions.
- 4. Explore the feasibility of instituting a climate action tax/fee to be paid by the largest producers of GHGs to pay the costs of implementing the actions of the plan. Such funds could be used to create low-cost loans or small grants to encourage residential energy efficiency improvements, particularly for income-qualified residents.
- 5. Follow the Guiding Principles with a specific focus on centering equity in implementing and evaluating the plan.

## **Partnerships**

- 1. Partner with Citizens' Greener Evanston to implement CARP strategies and continue community engagement and education programs.
- 2. Partner with the Evanston Public Library system to develop community education and outreach efforts.
- 3. Partner with ComEd and Nicor Gas on CARP initiatives and maximize incentive programs for residents and businesses.
- 4. Partner with energy service providers on energy efficiency strategies for residents.
- 5. Partner with the Solid Waste Agency of North Cook County (SWANCC) and the Evanston Rebuilding Warehouse to achieve Zero Waste goals.
- 6. Partner with all major employers to collectively implement CARP actions.
- 7. Partner with relevant Boards, Committees and Commissions (Transportation and Parking, Environment Board, Utilities Commission, Equity and Empowerment, etc.) to draft and send appropriate policies to the City Council and its committees.
- 8. Partner with local religious, spiritual and faith communities to further develop resident education and outreach efforts.

### **Commitments from Large Employers**

Achieving ambitious goals such as Zero Waste, zero combined sewer overflows, 100% renewable energy and ensuring Evanston is a prepared and resilient community in the face of climate change, cannot happen without community leadership. Evanston is fortunate to have employers and organizations that are also civic leaders. Throughout the planning process the City worked with the following organizations to showcase their current and future contributions and commitments to sustainability and climate action."

### **Evanston Community Foundation (ECF)**

- Educating the nonprofit community on actions they can take to reduce their impact on climate change and support the plan.
- Review the guidelines of ECF's Climate Action Fund for opportunities to create long-term funding streams for this local carbon offset program.
- Explore opportunities to partner with the City of Evanston on joint grant ventures such as Partners for Places.

### NorthShore University HealthSystem

- Achieve 50% of entire energy portfolio from renewable sources (RECs) by 2025.
- Achieve 30% recycling rate across NorthShore campuses by 2020.
- Increase the percentage of meat/poultry raised without the use of routine non-therapeutic antibiotics to 20% by 2020.

### **Northwestern University**

- Reduce energy use intensity (energy use per square foot of space) 20% below 2010 levels by 2020.
- Increase landfill diversion rates to 50% of total waste generated by 2020.
- Achieve net zero emissions by 2050 from 2012 baseline (Reduce Scope 1 and 2 emissions by 30% by 2030).

### **Presbyterian Homes**

- Westminster Place will commit to establishing a certified garden habitat and developing a pesticide management program by 2020.
- Pending resident support, Presbyterian Homes will develop a renewable energy program that will outline incremental increased commitments to renewable energy sources, resulting in a 100% utilization by 2028.

Presbyterian Homes
EVANSTON • ARLINGTON HEIGHTS • LAKE FOREST

evanston!communityfoundation

UNIVERSITY

**≰NorthShore** 

University HealthSyster

### **Presence Saint Francis Hospital**

- Reduce GHG emissions levels 50% by 2025.
- Expand use of ENERGY STAR Portfolio Manager to track and reduce water usage and adopt US EPA WaterSense Program.
- Reduce, divert and reuse 35% of construction and demolition material by 2025.

### **Rotary International**

- Pursue LEED Platinum status by 2022.
- Source 100% of electricity from renewable sources.
- Reduce building energy costs by continuously improving systems' efficiencies and reducing energy usage
  - o Switch to LED lighting
  - o Install hydronic economizer
  - o Update boiler system controls
  - o Replace variable frequency drives on chillers

### **Evanston/Skokie School District 65**

- Adopt the Next Generation Science Standards (NGSS), which introduce global climate change, to middle school students.
- Replace existing fluorescent lighting with LED lighting, which could cut electric consumption by 50% by 2028.
- Eliminate Styrofoam<sup>™</sup> trays in school cafeterias and replace with compostable trays that will be picked up and composted by a third party. Implement recycling in all school cafeterias.

### **Evanston Township High School District 202**

- Continue conversion of standard lighting to LED lighting
- Expansion of urban agriculture class
- Continue to make own power, which allows ETHS to exit the ComEd power grid during peak demand periods

# **Appendix A: Community Greenhouse Gas Emissions Inventory**

A greenhouse gas emissions inventory is an assessment of all the greenhouse gases that can be attributed to a given organization or jurisdiction in a given time period. Evanston's greenhouse gas emissions inventory (Emission Inventory) is completed annually. The first year for which data is available is 2005.

#### **Purpose**

The purpose of the inventory is to demonstrate the primary areas in which emissions are occurring in order to direct and prioritize actions to reduce those emissions over the long term. In addition, the Emissions Inventory allows the City to track compliance with external commitments such as the Paris Climate Agreement, the Chicago Climate Charter, We Are Still In, STAR Community Rating System and participation in consortiums such as Climate Mayors.

#### **Global Protocol**

To ensure that Evanston's Emissions Inventory is accurate, comparable and rigorous, the City follows the Global Protocol for Community-Scale Greenhouse Gas Emissions Inventories (GPC). GPC has two levels of protocol: BASIC and BASIC +. Evanston's Emissions Inventory achieves the BASIC level. BASIC + includes emissions sources that are generally more difficult to track down. The City will evaluate achieving BASIC + in future years as more data is made available. In 2018, the City began disclosing its Emissions Inventory findings publicly through the CDP platform in accordance with The Global Covenant of Mayors for Climate and Energy (GCoM) requirements. The City will continue to disclose its Emissions Inventory data annually.

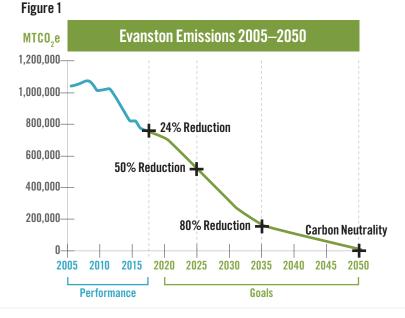

#### **Emission scopes**

According to the GPC protocol, emissions can be broken down into three different scopes (1, 2, and 3). Each of these scopes indicates the nature in which those emissions are generated.

**Scope 1** accounts for emissions occurring within Evanston's municipal boundaries.

**Scope 2** is exclusively for electricity generated and supplied to accounts within Evanston's municipal boundaries.

**Scope 3** captures emissions caused by actions within Evanston's boundaries but occurring outside its boundaries, such sending waste to a landfill outside of Evanston.

#### Global Protocol for Community-Scale Greenhouse Gas Emissions Inventories (GPC):

Created by the National League of Cities, this protocol provides a "robust framework for accounting and reporting city-wide greenhouse gas emissions" in a standardized comparable format.

#### BASIC and BASIC+:

*The two levels of reporting through the GPC Protocol* 

1. **BASIC:** "BASIC level covers scope 1 and scope 2 emissions from stationary energy and transportation, as well as scope 1 and scope 3 emissions from waste"

2. **BASIC+:** "involves more challenging data collection and calculation processes"

**CDP Platform:** Is a platform for reporting and disclosing publicly Evanston's climate data, risks and strategies to mitigate those risks. The Global Covenant of Mayors for Climate and Energy requires data to be reported through CDP for compliance.

#### **Emission data**

In order to provide detailed information on the data that impact emissions in Evanston, this Emissions Inventory includes three types of data for each emissions source: Source Data, Activity Metrics and Emissions Data.

**Source Data** is data used for calculating overall emissions, such as electricity consumption, tons of waste or vehicle miles traveled.

**Activity Metrics** are data within each emissions category that help contextualize the Source Data such as the number of registered vehicles in Evanston, number of electric accounts, or number of jobs.

**Emissions Data** are the emissions amounts in metric tons of carbon dioxide equivalent (MTCO<sub>2</sub>e). The tracking and combination of these three sets of metrics allows for a contextualized and comprehensive understanding of the trends within the Emissions Inventory.

#### Table 1: Community Greenhouse Gas Emissions Inventory

Table 1 is the Community Greenhouse Gas Emissions Inventory, which includes the major Source Data categories. City staff have also created emissions categories that are made up of groupings of Source Data in order to show trends more clearly. Emissions categories include: Building Energy Consumption, Mobility and Transportation, Waste and Offsets and Renewable Energy Credits (RECs). As the detail below will demonstrate, there are numerous other ways to group and categorize the available data, but the current configuration has been determined most appropriate. As new data or better resolution data are made available, the categories may change to provide deeper insight into emissions trends and possible solutions.

Emissions		Year	2005	2006	2007	2008	2009	2010	2011	2012	2013	2014	2015	2016	2017
Scope	Category	Units							MTCO <sub>2</sub> e						
2	Building Energy Consumption	Residential Electricity (all classes)	154,524	149,040	150,400	147,120	135,831	149,812	147,949	153,490	140,299	139,642	121,408	114,335	111,096
2	Building Energy Consumption	Small Commercial Electricity	366,025	380,907	385,988	374,123	364,908	377,846	368,431	372,696	358,954	350,347	325,850	137,478	138,849
2	Building Energy Consumption	Large Commercial Electricity												151,289	149,842
2	Building Energy Consumption	Government non-City-owned	641	641	641	641	641	641	641	641	641	641	641	641	730
1	Building Energy Consumption	Residential Gas Consumption	114,674	116,791	119,144	127,295	118,762	114,717	120,070	120,070	122,458	114,322	118,433	106,071	109,489
1	Building Energy Consumption	Industrial Gas Consumption	224,266	221,954	234,950	245,586	218,672	198,521	4,284	4,284	4,402	4,108	3,895	3,412	3,482
1	Building Energy Consumption	Commercial Gas Consumption							207,016	207,016	217,132	181,887	217,779	209,169	209,463
1	Building Energy Consumption	Fugitive Gas Emissions	1,017	1,016	1,062	1,119	1,012	940	994	994	1,032	901	1,020	956	967
1	Transportation and Mobility	VMT Community	121,736	121,736	121,736	121,736	121,736	118,084	118,084	118,084	118,084	118,084	118,556	122,148	142,925
2	Transportation and Mobility	CTA Rail	18,785	17,659	18,698	19,321	14,916	19,366	21,536	19,979	22,085	21,416	13,396	11,263	11,708
3	Waste	Waste	17,000	17,000	17,000	17,000	17,000	17,709	17,709	17,709	17,709	17,709	16,226	18,216	18,475
		Total Pre-Renewable Energy Credits	1,018,668	1,026,744	1,049,621	1,053,941	993,478	997,635	1,006,713	1,014,962	1,002,796	949,057	937,205	874,977	897,026
2	Renewable Energy Credits	Renewable Energy Credits	-					-	-	-76,801	-131,383	-144,841	-128,267	-119,418	-111,904
		Total-Community	1,018,668	1,026,744	1,049,621	1,053,941	993,478	997,635	1,006,713	938,162	871,412	804,216	808,937	755,560	785,122
	Municipal Operations	Municipal Operations	24,559	24,559	24,559	24,559	24,559	19,251	19,251	19,251	19,251	19,251	10,689	8,144	8,145
		Combined Total	1,043,227	1,051,303	1,074,180	1,078,500	1,018,037	1,016,886	1,025,964	957,413	890,664	823,467	819,626	763,703	793,266
		% Reduction	0.0%	-0.8%	-3.0%	-3.4%	2.4%	2.5%	1.7%	8.2%	14.6%	21.1%	21.4%	26.8%	24.0%

#### Table 1: Community Greenhouse Gas Emissions Inventory

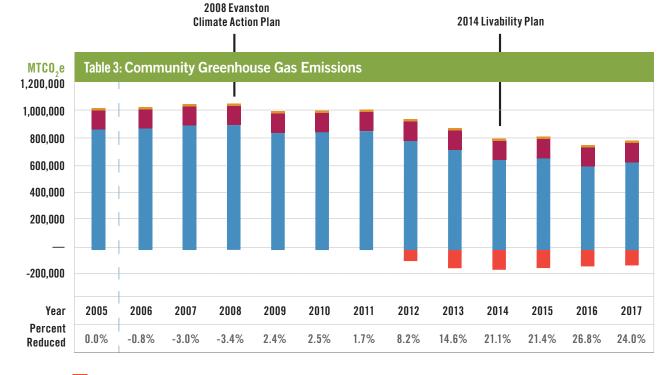

Since 2005, overall community-wide emissions have decreased by 24%. Over the same period, however, emissions proportion by category has not changed significantly, see Table 2.

#### **Table 2: Emissions Proportion by Category Over Time**

Category	Portion of Overall Emissions					
	2005	2017				
Municipal Operations	2%	1%				
Waste	3%	2%				
Transportation and Mobility	13%	16%				
Building Energy Consumption	83%	81%				

Overall community emissions in Evanston peaked in 2008, at which point emissions began a steady decline. The vast majority of reductions can be attributed to a cleaner power grid and significant purchases of renewable energy by Evanston residents, the City of Evanston, Northwestern University and NorthShore University HealthSystem. See Figure 1 for details.

Factors such as a rapidly decarbonizing electric power grid and an increase in the use of electric vehicles will likely impact these proportions, although no local projections are available at this time.

Renewable Energy Credits-RECs

Waste (sent to a landfill)

Transportation and Mobility

Building Energy Consumption

# **Building Energy**

Building Energy is made up of two data sources: electricity consumption and natural gas consumption. See Table 4 for historical detail on these Source Data.

#### Table 4: Building Energy Source Data and Emissions Comparison

Year	Annual MWh*	MTCO <sub>2</sub> e	Therms	MTCO <sub>2</sub> e*
2005	781,430,715	521,189	64,691,231	339,957
2006	756,747,811	530,587	64,599,505	339,762
2007	798,961,428	537,029	64,498,321	355,157
2008	782,062,363	521,884	67,331,533	374,000
2009	747,226,840	501,379	70,906,768	338,447
2010	785,031,309	528,299	59,831,587	314,177
2011	773,258,343	517,020	62,479,154	332,364
2012	777,542,932	526,826	62,479,153	332,364
2013	762,912,199	499,894	64,858,783	345,023
2014	748,574,297	490,630	56,688,584	301,217
2015	721,176,990	447,899	63,392,116	341,128
2016	740,970,210	403,742	60,173,383	319,608
2017	735,999,431	400,517	60,887,490	323,401

### Citizens' Greener Evanston

Through generous support from Citizens' Greener Evanston (CGE), a local sustainability non-profit, the City was able to have the ICLEI—Local Governments for Sustainability, perform a quality control check on the inventory to correct any inconsistencies or errors.

\*MWh=Megawatt hours

\*MTCO<sub>2</sub>e= metric tons of CO<sub>2</sub> equivalent

Since 2005, electricity consumption and natural gas consumption have decreased by 5.8% and 5.9% respectively. In contrast, metric tons of CO2 equivalent have dropped 23.3% and 5.9% respectively.

#### Electricity

The precipitous drop in electricity emissions is due partially to changes in the makeup of Evanston's regional electric power grid. The U.S. is divided into different grid regions, each with their own operator and supply mix (sources of power generation such as coal generation, natural gas, nuclear, wind, hydro, solar, etc.). As the supply mix changes over time, the emissions intensity changes. For instance, as more renewable energy is brought in and older, dirtier forms of power generation are retired (coal and natural gas), emissions from electricity decrease. This change in power supply shows up in the City's calculations through a factor set provided by the Federal EPA called eGRID. This factor set has historically been updated every two years. The last update was for the 2016 calendar year. The City anticipates a release of a new set in 2019, which will be applied to the 2018 Emissions Inventory.

#### **Electricity Offsets**

The other significant factor in the drop in electricity emissions is the result of the City, as well as a few community organizations, including Northwestern University and NorthShore University HealthSystem, purchasing Renewable Energy Credits (RECs) to offset electricity consumption. Electricity offsets have been purchased and tracked in the Emissions Inventory since 2011. RECs support investment in renewable energy. Since 2011, the largest single source of RECs has been secured through the City's Electricity Aggregation Program for residents and small businesses. In 2017, the combination of all RECs purchased in Evanston offset 15% of Evanston's community-wide emissions.

#### **Diminishing Impact of RECs**

In order to calculate the offset amount for each REC that that is purchased, 1 REC is equivalent to 1 MWh of electricity. The City follows industry practice by using the same eGRID emissions factors to evaluate the impact on emissions. The same eGRID factor is used for electricity and for calculating REC impact. In this way, the reduction in eGRID values means that each new REC purchased becomes less impactful as the grid becomes cleaner. Although the cleaner grid is a good thing, it means that, depending on the future price of RECs, their cost to impact the ratio may increase. This does not mean that RECs should not continue to be a tool to reduce emissions, but indicates that RECs remain a short-term strategy to reduce emissions and that reliance on them should be evaluated regularly.

#### **Natural Gas**

As stated above, the reduction in emissions associated with natural gas consumption are directly proportional to natural gas consumption. The City has not pursued policies to directly reduce natural gas consumption and, as prices have stayed low, it is unsurprising that consumption and emissions have not decreased significantly. This plan, as well as the existing Energy and Water Benchmarking Ordinance, are crucial next steps in setting the groundwork for future reductions in natural gas consumption and emissions.

Consumption of natural gas is split into four different categories as indicated in Table 1. Those categories are: Residential, Commercial, Industrial and Fugitive. Consumption breakdown is roughly 33% residential, 65% commercial, 1—2% Industrial and less than 1% fugitive. This breakdown has stayed the same since 2005.

#### (eGRID)

The Emissions and Generation Resource Integrated Database (eGRID) is a comprehensive source of data on the environmental characteristics of almost all electric power generated in the United States. eGRID values are developed by the U.S. Environmental Protection Agency and updated periodically.

# **Transportation and Mobility**

Obtaining local transportation and mobility data has been a challenge for the City for numerous years and is an obstacle that many smaller jurisdictions face. As indicated in the Climate Mitigation section of the plan, data collection is listed as a "preliminary step" in order to make measurable improvements in mobility and transportation metrics.

The Mobility and Transportation section of the Emissions Inventory is made up of three parts: 1) Vehicle Miles Traveled (VMT) analysis, 2) Fuel Sales Factor, and 3) Chicago Transit Authority (CTA) Rail electricity consumption. Additional factors may be added in the near future, as the City evaluates how to capture emissions from alternative fuel vehicles, such as compressed natural gas and electric/hybrid electric.

#### 1. Vehicle Miles Traveled (VMT)

The Chicago Metropolitan Agency for Planning (CMAP) conducts a regional VMT study every five years. They were able to perform an additional layer of analysis to extract Evanston's proportional contribution to the regional VMT. Thus, the included data does not reflect actual activity in Evanston, but rather serves as a placeholder for locally generated data. Given that the regional analysis is only completed every five years, there is only "actual" data for 2005, 2010 and 2015. Years 2016 and 2017 show different values, as will future years, because fuel sales are used as a factor to provide local "tempering" of the VMT data. See below for a complete explanation.

#### 2. Fuel Sales Factor

In previous emissions inventories, the City relied exclusively on fuel sales to account for the transportation portion of emissions. The City still recognizes the value that fuel sales can provide in terms of providing a locally specific data point to evaluate changes in local behavior. As a result, the City has established a methodology where the annual percentage change in fuel sales is applied to the most recent year that VMT data is available, in this case 2015. This factoring or "tempering" allows for local activity to be expressed on an annual basis in the inventory.

#### 3. CTA Rail

In 2005, CTA Rail accounted for 13.5% of transportation emissions and in 2017 that proportion had shrunk to 8%. Given that emissions and electrical consumption used by CTA Rail is outside of the City's direct control and oversight, there is not much attention paid to this emissions area. Efforts to influence this area of emissions would likely have to take the form of advocacy to the CTA to purchase renewable energy or install onsite generation for their usage.

# **Zero Waste**

#### **Zero Waste**

Collecting comprehensive material recovery data for the community and calculating the associated emissions has proven to be quite difficult. Complicating factors include: lack of access to data, numerous data sources, incompatible data formats, insufficient information on waste characterization, variable contractor compliance, etc. Despite these challenges, the City has developed a comprehensive material recovery dataset that is divided into numerous material recovery types. The City does not have data prior to 2011, so emissions from 2005–2010 is estimated and some data beginning in 2011 is incomplete. Given those gaps in data, the City has selected 2017 as the official baseline year for measuring material recovery performance moving forward, including progress towards achieving Zero Waste by 2050.

Access to data is just one challenge in evaluating and calculating the emissions from material recovery. In the GPC BASIC protocol emissions, impact is not calculated for recycled items or material that is otherwise diverted from the landfill (except compost). Instead, the emissions for landfilled and composted material is calculated. Landfill management and methane capture are both factored into the calculations of emissions. Presently, material generated in Evanston is sent to landfills that are capturing, flaring or using for energy at least 95% of methane released. Additional factors that impact material recovery emissions include the characterization or make up of disposed of material. For example, the amount of paper vs. organics in Evanston's disposed of impacts the emissions profile. If greenhouse gas-intensive materials would be prioritized for diversion, such as food scraps and organics, that could have an impact on material recovery-related emissions.

#### Progress will be measured against 2017 baseline data.

Service Category	Garbage	Recycling	Compostable Material	Miscellaneous Diversion	Total
Commercial	30,342	3,111	54		33,508
Residential	16,717	7,337	2,751		26,805
Northwestern	3,197	1,432	681		5,311
City Collected	3,153				3,153
Other				282	282
Total	53,410	11,881	3,487	282	69,062

#### Table 5: 2017 Community Waste Breakdown. All values shown in tons

#### **Material Types**

Commercial includes all material collected through the City's Commercial Franchise, Food Waste Service by Collective Resource and collection that is exempt from the Commercial Franchise. Residential services combines both condominium buildings and residential buildings up to four units. Northwestern data is provided by SustainNU and includes all material collected at the Evanston campus. City Collected Garbage includes material collected through special pick-ups, special collections, bulk -pick-up, street sweeping, construction projects, etc.

#### Table 6: 2017 Categorical Material Diversion Rates

	<b>Diversion Rate</b>		
Waste Category	Recycling	Overall	
Commercial	8.9%	9.0%	
Residential	25.6%	36.2%	
Northwestern University	27.0%	39.8%	
Community	17.2%	22.7%	

#### **Trends**

Commercial material collection accounts for just under 50% of the community's overall material generation. Any change within the commercial service category will have a significant impact on the overall community diversion rate. In order to achieve a community diversion rate of 50% by 2025 significant progress will need to be made in increasing commercial diversion. It is worth noting that residential diversion must increase from its current level of just under 40%. The impact of the Food and Yard Waste and Food Waste by Collective Resource services will begin to show up in data for 2018 and onward.

#### Table 7: 2017 Community Diversion Rate Comparison

City	<b>Overall Diversion Rate</b>
Columbia, MO	18%
Evanston, IL	22%
Ann Arbor, MI	50%
Louisville, KY	58%
Santa Monica, CA	78%
Palo Alto, CA	82%

#### **Zero Waste**

In order to achieve the Zero Waste by 2050 goal and 50% diversion by 2025, Evanston must make strides in decreasing the amount of overall material generated as well as continue to implement programs that target high potential and low performing service areas such as commercial entities. In addition, the City needs improved data in order to better track trends impacting material recovering within each service type. Improved data will allow for stronger contracts and policies to be implemented that make meaningful progress towards decreasing overall material generation.

#### Compostable Material Recovery

In late 2017, the City implemented new residential and condo waste hauling contracts and was able to do three things that should lead to a reduction in waste-related emissions: waste characterization studies, reporting quarterly transportation related emissions, and implementing food waste composting services.

# **Appendix B. Glossary of Terms**

#### **Carbon Emissions**

The release of carbon dioxide into the atmosphere. Primary human sources of the release of carbon dioxide occur from burning oil, coal, and gas for energy use.

#### **Carbon Disclosure Project (CDP)**

An international organization that administers a platform for organizations and cities to publicly disclose their environmental impacts, such as climate risk. CDP is one of the approved disclosure platforms utilized by GCoM. Evanston began disclosing climate risk in compliance with GCoM requirements with CDP in 2017 and plans to continue disclosing annually.

#### **Carbon Neutrality**

For the purposes of the Climate Action and Resilience Plan, Carbon Neutrality refers to the point at which Evanston's net greenhouse gas emissions reach 0. This will likely be achieved through a combination of reducing emission sources and offsetting and sequestering any remaining emissions.

#### **Carbon Sinks**

A forest, ocean, or other natural environment viewed in terms of its ability to absorb carbon dioxide from the atmosphere.

#### Chicago Metropolitan Agency for Planning (CMAP)

A regional planning organization created in 2005 for the northeastern Illinois counties of Cook, DuPage, Kane, Kendall, Lake, McHenry, and Will. The agency develops and guides implementation of comprehensive regional planning and is based in Chicago, Illinois. Evanston's Vehicle Miles Traveled (VMT) data is derived from a regional transportation study developed by CMAP.

#### **Circular Economy**

An alternative to a traditional linear economy (make, use, dispose) in which an economy is a regenerative system where resource input and waste are minimized. This is achieved through long-lasting product design, repair, reuse, remanufacturing, and recycling. Circular economy strategies are often cited as systems level approaches to reducing waste generation through product and system design.

#### **Clean and Renewable Energy Sources**

Refers to the definition of "renewable energy resources" provided by the Illinois Power Agency Act and utilized by the Illinois Sierra Club. The definition includes energy and its associated renewable energy credits or renewable energy credits from wind, solar thermal energy, photovoltaic cells and panels, biodiesel, anaerobic digestion, crops and untreated and unadulterated organic waste biomass, tree waste, and hydropower that does not involve new construction or significant expansion of hydropower dams. For purposes of this Act, landfill gas produced in the State is considered a renewable energy resource. "Renewable energy resources" does not include the incineration or burning of tires, garbage, general household, institutional, and commercial waste, industrial lunchroom, or office waste, landscape waste other than tree waste, railroad crossties, utility poles, or construction or demolition debris, other than untreated and unadulterated waste wood.

#### **Climate Change**

Any significant change in the measures of climate lasting for an extended period of time. Major changes include changes in temperature, precipitation, or wind patterns, among others, that occur over several decades or longer. For this plan, the term specifically references anthropogenic climate change initiated and exacerbated by the burning of fossil fuels.

#### **Climate Hazard**

An extreme climate event or condition that can harm human health, livelihoods, or natural resources. It can include abrupt changes to the climate system such as extreme precipitation, storms, droughts, and heat waves.

#### **Climate Mitigation**

The efforts to reduce or prevent the consequences of climate change. It generally involves reducing emissions of heat-trapping gases or removing them from the atmosphere.

#### **Climate Resilience or Adaptation**

The capacity of a natural environment to prevent, withstand, respond to, and recover from a disruption. The process of adjusting to new climate conditions in order to reduce risks to valued assets.

#### **Climate Vulnerability Assessment**

A report used to identify and define the risks posed by climate change and inform adaptation measures needed to combat climate change. Reports can be about a wide range of fields including food security, poverty analysis, and sea-level rise.

#### ComEd

The largest electric utility in Illinois (based in Chicago). ComEd delivers electricity to homes and businesses and manages four million customers across Northern Illinois, including Evanston.

#### **Community Choice Electricity Aggregation (Aggregation)**

Allows local governments the option to bundle together residential and small commercial retail electric accounts and seek proposals for potentially cleaner, cheaper sources of power. The City of Evanston provides 100% renewable energy to residents enrolled in its Aggregation program. This program has been in place since 2012; more information can be found at www.cityofevanston.org/cca.

#### **Community Solar**

Solar facilities shared by multiple community subscribers who receive credit on their electricity bills for their share of the power produced. Community solar allows members of a community to share the benefits of solar power on their property without installing it on their own property. Electricity generated by the community solar farm typically costs less than the price from utility companies. In 2016, the State of Illinois passed robust tax incentives and accompanying legislation to incentive community solar programs throughout the state.

#### Combined Sewer Overflow (CSO)

Combined sewers are designed to collect rainwater runoff, domestic sewage, and industrial wastewater in the same pipe. During periods of heavy rainfall or snowmelt, wastewater volume can exceed the capacity of the sewer system and overflow into nearby streams, rivers, or other bodies of water, thereby creating a Combined Sewer Overflow. Unfortunately, the overflow can also contain untreated human and industrial waste, toxic materials, and debris. Evanston works with the regional stormwater utility, the Metropolitan Water Reclamation District (MWRD) to manage stormwater and prevent CSOs.

#### Deconstruction

The process of systematically dismantling a structure in an environmentally, economically, and socially responsible manner to maximize recovery of materials for reuse and recycling.

#### **Emission Scopes**

The GPC breaks down greenhouse gas emission sources into different categories; one of these categories is Emission Scopes. Emission Scopes are primarily useful when combining emissions inventories from multiple cities or jurisdictions to ensure no doublecounting is taking place. The three standard Emissions Scopes are:

**Scope 1:** direct emissions from owned or controlled sources

- **Scope 2:** indirect emissions from generation of purchased energy
- Scope 3: indirect emissions that occur in the supply chain, both upstream and downstream

#### **Environmental Justice**

The fair treatment and meaningful involvement of all people regardless of race, color, national origin, or income with respect to the development, implementation and enforcement of environmental laws, regulations and policies.

#### **U.S. Environmental Protection Agency (EPA)**

A federal agency, with state and local affiliates, established in 1970 to consolidate research, monitoring, standard-setting and enforcement activities a mission to protect human health and the environment.

#### Global Covenant of Mayors for Climate and Energy (GCoM)

An international coalition of cities and local governments with a shared long-term vision of promoting and supporting voluntary action to combat climate change and foster a resilient society.

#### Global Protocol for Community-scale Greenhouse Gas Emissions (GPC)

Created by the National League of Cities, this program promotes a "robust framework for accounting and reporting city-wide greenhouse gas emissions" to help cities lessen their greenhouse gas emissions. Evanston's GPC-compliant Emissions Inventory allows Evanston to effectively track emissions changes overtime and compare progress to comparable communities.

#### **Greenhouse Gas**

Any gas that absorbs infrared radiation and traps heat in the atmosphere. Common greenhouse gases include carbon dioxide, methane, nitrous oxide, and fluorinated gases. Carbon dioxide and methane are commonly referenced as having the largest impact on anthropogenic climate change.

#### **Greenhouse Gas Emissions**

The release of greenhouse gases into the atmosphere. Sources of greenhouse gas emissions include electricity, transportation, industry, commercial and residential properties, agriculture, and land use.

#### **Greenhouse Gas Emissions Inventory**

A report that provides a comprehensive accounting of total greenhouse gas emissions for all human-made sources and removed from the atmosphere by carbon sinks. Evanston's greenhouse gas emissions inventory can be found in Appendix A: Emissions Inventory.

#### **Green Infrastructure**

An approach to managing precipitation by reducing and treating stormwater at its source while delivering environmental, social, and economic benefits. Stormwater runoff can carry trash, bacteria, and other pollutants and is a major cause of water pollution in urban areas.

#### Indoor Environment and Indoor airPLUS

A voluntary EPA program for new home builders aimed at improving the quality of indoor air. The program requires certain construction practices and products to minimize exposure to airborne pollutants and contaminants.

#### International Panel on Climate Change (IPCC)

The leading international body for the assessment of climate change. The IPCC was established in 1988 to provide the world with a clear scientific view on climate change and its potential environmental and socio-economic impacts.

#### Kilowatt Hours (kWh)

The most common unit of measurement for quantifying electricity generation and consumption. Evanston's uses kWh and MWh in its tracking and calculations of electricity consumption and generation. Individual homeowner electric bills, such as those from ComEd, are typically measured in kWh.

#### Megawatt hours (MWh)

The second most common unit of measurement for quantifying electricity generation and consumption. Evanston uses kWh and MWh in its tracking and calculations of electricity consumption and generation. A megawatt hour is equal to 1,000 kilowatts of electricity used continuously for one hour.

#### Metric Tons of CO, Equivalent

A measure used in comparing emissions from different greenhouse gases on the basis of their global warming potential (how long a gas remains potent and active in the atmosphere), used by converting amounts of various gases to the equivalent amount of carbon dioxide's global warming potential.

#### **Metropolitan Water Reclamation District (MWRD)**

Is the storm- and waste-water utility serving Evanston and most of Cook County. The MWRD is governed by an elected Board of Commissioners created by the state government tasked with reclamation and treatment of wastewater and flood water abatement. The District must protect the health and safety of the public and protect and manage water as a vital resource.

#### **Mode Share**

The percentage of travelers using a particular type of transportation. Modal share is an important component in developing sustainable transport within a city or region because it reveals the level of utilization of various transportation methods. The percentage reflects how well infrastructure, policies, investments, and land-use patterns support different types of travel.

#### Municipal Alternative Retail Electric Supplier (mARES)

An Alternative Retail Electric Supplier (ARES) is an energy services company that supplies electric power to customers. ARES typically have more control over their electric power source, such as purchasing renewable energy, and can lock-in longer term prices for customers. A municipal ARES would allow the City to act as an alternative electric supplier to Evanston customers.

#### Net-zero Emissions (NZE)

Building A building or property that generates or offsets all energy consumed. If the City develops a NZE building code, this definition will have to be refined to provide additional guidance on calculating emissions and offsets to achieve net-zero emissions.

#### **Nicor Gas**

An energy company that delivers natural gas to 650 communities throughout Northern Illinois, including Evanston.

#### North Shore Village

A non-profit organization in Evanston that offers older adults support and connections to each other as they age. It is a member-driven organization that helps older adults stay in their homes for as long as they can while being active, vital, and contributing members to the community.

#### **Pre-industrial**

The multi-century period prior to the onset of large-scale industrial activity around 1750, typically associated with the beginning of intensive fossil fuel extraction and burning and the subsequent release of greenhouse gases into the atmosphere.

#### Power Purchase Agreement (PPA)

A power purchase agreement (PPA), or electricity power agreement, is a contract between two parties; one party generates electricity (the seller) and the other party looks to purchase electricity (the buyer). Individual customers and organizations may enter into PPAs with individual developers or may join together to seek better prices as a group. PPAs can allow longer term commitments to renewable energy as well as a form of "direct" investing in new renewable energy generation.

#### Property-Assessed Clean Energy (PACE)

A program created for financing energy efficiency and renewable improvements on private property. Private property can include residential, commercial or industrial properties. Improvements can include energy efficiency, renewable energy and water conservation upgrades to a building. The State of Illinois has passed legislation allowing PACE programs at the municipal and county-level throughout the state.

#### **Renewable Energy**

Energy resources that are naturally replenishing such as solar, wind, hydro and geothermal energy.

#### **Renewable Energy Credits (RECs)**

A market-based instrument that represents the property rights to the environmental, social and other non-power attributes of renewable electricity generation. RECs are issued when one megawatt-hour (MWh) of electricity is generated and delivered to the electricity grid from a renewable energy resource. The single largest category of reductions in Evanston's emissions has been through the purchase of RECs.

#### **Retro-commissioning**

The systematic process to improve an existing building's performance ensuring the building controls are running efficiently and balancing the designed use and the actual use of the building.

#### **Ride-share**

The practice of sharing transportation in the form of carpooling or vanpooling. It is typically an arrangement made through a ride-matching service that connects drivers with riders.

#### **Urban Tree Canopy**

Describes the makeup and characteristics of trees within the urban environment. Evanston has a "robust" urban tree canopy that is made up of trees on public property and trees on private property.

#### Vehicle Miles Traveled (VMT)

A measurement used to estimate the total annual miles of vehicle travel. It is typically calculated by measuring the total non-freight vehicle miles traveled divided by the total population. Evanston does not conduct its own local VMT study; it relies on modeled data provided by CMAP. VMT is standard method of transportation-related emissions.

#### Zero Emission Vehicles (ZEV)

A vehicle that does not emit harmful emissions during operation. Harmful emissions can have a negative impact on human health and the environment. Electric (battery-powered) cars, electric trains, hydrogen-fueled vehicles, bicycles, and carriages are considered to produce zero emissions.

#### Zero Waste

A cyclical system in which products are designed for reuse, which creates no waste. A zero waste system eliminates the volume and toxicity of waste and materials and conserves current resources through reuse. Evanston's goal of Zero Waste is calculated based on the percentage of material diverted from a landfill; when that percent reaches 100%, then Evanston will have achieved Zero Waste.

# Registering for DemandStar

We are pleased to announce our membership in the DemandStar network. DemandStar is an online marketplace that connects our suppliers directly to the bids, quotes and RFPs that matter to them.

DemandStar is open and accessible to all businesses and provides instant access to our solicitations. By registering for your complimentary DemandStar account, you will receive:

- Instant access to bids, quotes and RFPs
- Automatic notifications, right to you inbox, of bids that match the commodity codes you select
- The ability to quickly view the contractual terms and scope of work
- All the forms and documents you need in one place
- Access to **more government bids** in neighboring cities, counties and states

It's EASY! Get started with these 3 easy steps!

### **1** REGISTER

Go to: https://www.demandstar.com/registration

#### Create an Account with DemandStar

You are one step away from picking your free government agency

**DEMANDSTAR** Building Communities.

# DEMANDSTAR Building Communities.

(E-bidding) Electronic Bidding Instructions

# Introduction

To submit a bid electronically (e-bidding) on DemandStar

 The project MUST be setup for e-bidding by the government agency advertising the opportunity

Bid Identifier	Agency Name	Bid Status	Broadcast Date	Date Due ▼	Name	Actions
RFP-2019-01- 0-2019/df	Town of Malabar	Active	5/15/2019		Malabar Parks and Recreation Board Memorial Wall Project	Planholders, Download/Order, Details
EBID- 20190077-0- 2019/HF	City of Port St. Lucie, Procurement Management Department	Active	4/25/2019	5/31/2010	Gas Masks and Gas Mask Carmog s for	E-Bidding, Planholders, Download/Order, Details

# How to check if it is an e-bidding opportunity

- Not all opportunities posted on DemandStar by government are available for e-bidding
- Those that are available for you to electronically bid will list "e-bidding" as an available "ACTION" when you look at the project details

# In order to do e-bidding

# 1. Click on "E-bidding" in the actions column

Bid Identifier	Agency Name	<b>Bid Status</b>	Broadcast Date	Date Due 🗸	Name	Actions

Nact >	

# Completing your e-bid submittal

- Please VERIFY that you have attached ALL the required documents
- Click on the **Submit Response** button to complete your e-bid

#### Agency Required Documents

#### **Uploaded Documents**

1. test document upload to ensure ebidding active

#### E-Bid Confirmation

After clicking "Submit Response" the following process will begin:

- We will verify that your response is complete as entered.
- You will see a confirmation page with your confirmation number and date/time stamp of your upload.
- · You will receive a confirmation e-mail indicating a successful response submittal.
- You may track your response submission under the View Responses page.

If you do not receive any of the above, please call Supplier Services at (206) 940-0305.

<< Return Submit Response

EDIT

# Confirmation of Response

- When you complete you will receive a confirmation
- This is a confirmation that what you uploaded will be visible to the agency when the bid closes, this is not a confirmation that all your documents were fill out or submitted correctly

### E-Bid Response Details

#### DemandStar E-Bidding: Frequently Asked Questions

- Do suppliers need to be registered with DemandStar to participate in e-bidding? Yes. But if they don't already have an account with DemandStar, they can sign up and either
  - Be a subscriber for only your agency, at no charge, and be able to download documents at no charge and then receive notifications that match their commodity codes
  - Be a "basic supplier" for free who researches on our platform and then pays \$5 to download all documents, thus becoming a plan holder
  - Be a paid subscriber for a county, state, national and receive notifications from all included agencies
- Can suppliers respond with document uploads or do they simply fill in forms? Yes, they may respond with document uploads that are available to you via the DemandStar platform.
- What type of E-Bidding Documents can be uploaded? Acceptable file formats for sending back documents that the city will accept:

#### E-Bidding Documents

- Is there a maximum file size that I can upload? Vendors can simply upload a single file or multiple documents as long as it doesn't exceed 100 MBs (single or multiple files)
- After a bid opening, what document(s) are made public by DemandStar? None. Only the agency can see the vendor responses so you are the only ones who will determine what you want to download and make public.
- Who do I call if I have questions or problems with the DemandStar? The City strongly encourages each respondent to setup their account and to explore the eBidding module at least a couple of days before the bid due date.

If you have questions or issues creating your account, accessing the eBidding module or submitting your bid prior to the bid due date, please contact DemandStar at 866.273.1863 or by email at hello@demandstar.com.
