To date, Evanston has had 16,110 total confirmed cases, and 155 residents have died of illness or complications related to COVID-19. View the City's [interactive COVID-19 dashboard \(view on mobile\)](#).

Vaccinations: View the City's [vaccination data dashboard \(view on mobile\)](#) for the latest Evanston-specific vaccination data from the IDPH.

Monkeypox Update

Evanston is currently reporting nine Monkeypox cases and one hospitalization.

To learn more about Monkeypox symptoms, preventions, isolation, how it spreads and the criteria for vaccinations at this time for Evanston residents, please [visit the City's website](#).

No mass vaccination events have been scheduled at this time for community members or staff. While any person can get Monkeypox, the vaccine is not recommended for the general public at this time.
