New Endangered Species Designation Impacts Tree Removal Procedures

The Illinois Department of Transportation (IDOT) recently released a Circular Letter announcing a change in classification of the Northern Long Eared Bat (NLEB) to an endangered species. The tree clearing restrictions to preserve the habitat of NLEB, which have been in-place for Districts 2 to 9 and part of District 1, will soon be expanded to include the entire state. The most notable impact to project scheduling will be that all IDOT District 1 projects will now be required to go through the full Environmental Species Act evaluation and permitting process, utilizing the Programmatic Biological Opinion for Transportation Projects in the Range of the Indiana Bat and NLEB.

Applicable projects and more background on the issue can be found in [Circular Letter 2022-28](#). These procedures apply to all projects using state or federal funds, requiring a federal permit, and/or if the project requires IDOT review. Any questions regarding this Circular Letter and its information should be directed to Local Studies and Plans Engineer William Raffensperger, 217-785-1676 or William.Raffensperger@illinois.gov. *Staff contacts: Kendra Johnson, Eric Czarnota*

Salt Smart Collaborative Collecting Responses for Winter Maintenance Survey

The Salt Smart Collaborative has launched an online survey to assess how municipalities and other entities in Illinois use salt and plows to clear parking lots and sidewalks in winter. The survey is anonymous and confidential, and respondents will be entered into a drawing for a prize for participation in the survey. For more information and to take the survey, please review this [online form](#). *Staff contacts: Kendra Johnson, Eric Czarnota*

NIU Seeking Capstone Projects for MPA Students

Northern Illinois University's (NIU) School of Public and Global Affairs is seeking projects from local governments and nonprofit agencies that can be analyzed by a small group of graduating NIU Masters of Public Administration (MPA) students in the space of one semester. Ideal projects have a clear problem statement, require research and analysis that helps students integrate theory and practice and results in a professional analysis and recommendation to the client's leadership team.

Students will have from January to March to complete the analysis aspects of the project under their professor's and the organization's guidance. Student teams will make their final NIU capstone presentations via Zoom or in person on Friday April 28. Final versions of deliverables will be submitted to partner organizations no later than May 5. For more information, please see the [Capstone Project flyer](#) or contact Dr. Mike Peddle, michaelpeddle@comcast.net. *Staff contacts: Kendra Johnson, Eric Czarnota*
