I. BUILDING PERMIT FEES:

A. **BASIS OF BUILDING PERMIT FEES:** For the purpose of determining a basis for computing building permit fees, the established cost of construction shall be determined by the Director of Community Development as follows:

1. The Director of Community Development will accept an estimate furnished to him by the applicant for the permit at the time of the application.

2. In every instance where a building permit is issued with a construction valuation of one hundred thousand dollars (\$100,000.00) or more, the property owner and general contractor shall provide to the City at the conclusion of construction a sworn contractor's statement indicating the full and final construction cost of the project, less land cost. Upon presentation of said sworn statement, any permit fees due the City for costs over and above the cost-valuation submitted as construction valuation on the permit application form shall be immediately paid to the City. In cases of a construction cost less than the estimated valuation, the City shall refund the difference to the property owner or general contractor.

3. In cases of estimated construction valuation of less than one hundred thousand dollars (\$100,000.00), the property owner and general contractor shall submit a sworn contractor's statement upon the written request of the Director of Community Development.

4. In cases of dispute of valuation, the owner shall produce, upon request of the Director of Community Development, copies of all contracts, change orders, and final waivers of lien for the subject building which may be submitted, at the discretion of the Director, to an architectural firm for review and a written cost opinion. Fees for the said review are to be paid by the property owner. Upon completion of the review, the Director shall render a final ruling as to fees due or to be refunded.

5. No final Certificate of Occupancy shall be issued until said sworn statement is submitted, and permit fees adjusted accordingly, and such fees and all costs, *e.g.*, those relating to valuation disputes, are paid.

6. The plan review fee will be assessed on refunded permits or withdrawn projects.

7. The following fee structure includes first and second plan reviews. If a third and any subsequent review is required, a fee of ten percent (10%) of the original fee shall apply to the final cost per additional review.

B. **FEES FOR BUILDING PERMITS:** The Fee to be charged for permits authorized by the City Code shall be paid to the City Collector and shall be paid as provided herein. No permit or amendment thereto shall be issued without the fee being paid.
