Green Bay Road - Water Main Replacement

May 23, 2023

Project Description

The City of Evanston is beginning the Green Bay Road water main replacement project from Lincoln Street to Central Street. This project includes installation of new water main with new lead-free services, pavement patching, curb & gutter replacement as needed, limited sidewalk replacement and parkway restoration.

Overall Project Schedule

The limits of the project are from Lincoln Street to Central Street and the project will be completed in three stages. The project will begin the **week of June 5** with exploration trench to identify the existing utilities within the project limits, including the intersection of Lincoln Street and Green Bay Road. The scope of work with the anticipated schedule for each stage is as follows:

- Stage 1: Water main connection and installation in the intersection of Lincoln St and Green Bay Road
June 5 - June 12**
- Stage 2: Water main installation along Green Bay Road from Lincoln Street to Central Street
June 12 – July 18**
- Stage 3: New water services, patching, and restoration
July 18, 2023 – July 28, 2023**

Traffic Control

During Stage 1 there will be daytime partial lane closures, flaggers will direct traffic while work takes place at the intersection of Lincoln Street and Green Bay Rd. Steel road plates will be used to cover street openings. For Stage 2 the work zone will be along the inside lanes of the Green Bay Road with traffic shifted to outside lanes. During construction, no left turns will be permitted for southbound Green Bay Road at Lincoln Street. The bicycle traffic will be detoured to Poplar Avenue during Stage 2 and 3. Stage 3 will consist of daytime detour for southbound Green Bay Road during water service installation. The construction activities will create some inconveniences for the abutting businesses and residents, but we will attempt to minimize these issues. All lanes will be open to traffic during non-work hours for stage 3 and one lane in each direction on Green Bay Road during the new water main installation.

Contractor

The contractor for this project is Pan-Oceanic Engineering Co. Inc. located at 6436 West Higgins Ave, Chicago IL 60656.

City Monitoring

The City has retained Christopher B. Burke Engineering, Ltd. to monitor the project. If you have any questions or concerns during construction, please contact the Resident Engineer, **Mike Rodak at (224) 246-0706**. Questions in general about the Green Bay Road Improvement Project should be directed to Sat Nagar, P.E., Senior Project Manager at 3-1-1 or (847) 448-4311.
