Remove existing service and replace with a new 100 amp underground service. 2. Furnish and install (1) 200 amp underground meter fitting, 1 1/4" rigid conduit service entrance, and #3 awg thhn copper service entrance conductors. 3. Furnish and install (1) 100 amp 20 circuit panel. 4. Furnish and install all new breakers and label them as to which circuits they feed. 5. Furnish and installation new grounding that complies with current codes. This includes (2) ground rods and (1) water ground. 6. Coordinate all permits, inspections, and paperwork with the City of Evanston. 7. Proposal does not include any permit fees or fees incurred by Com Ed. (None Anticipated) 8. Service will need to be dropped while we do our work. Com Ed will not turn the power back on until it has been inspected by the Village. There is a chance that this will overlap by a day and that you could be with-out power for a night. We will coordinate this to the best of our ability so that this does not happen. 9. We will need to dig around the meter fitting. Proposal includes coordinating digging with J.U.L.I.E. to locate any underground utilities. Dirt will be put back in place or backfilled. Landscape restoration is not included and will need to be done by others. <p>\$3,950.00</p>
