Addendum Number One (1)

December 11, 2023

This addendum forms a part of bidding document to bid #23-53 and modifies these documents. This addendum consists of the following:

1. The February 15th to June 15th dates. Based on weather patterns, is the city flexible with the February 15th start date? It's difficult to scan streets with snow on the ground.

The dates are based on when the City wants testing to be done; changes to the testing schedule will be discussed next year considering the weather conditions in March 2024.

2. You mention IRI (page 5 section 2.1), but nothing about PCI. Is the city not interested in PCI results?

PCI (Pavement Condition Index) is required to evaluate the streets which are calculated based on surface & subsurface testing parameters.

3. Exhibit K, Bond Submittal Label? It says all Exhibits must be returned with the response, but I don't see if a bond will be an actual requirement. Do you require bond info?

No bonds are required for an RFP.

Note: Acknowledgment of this Addendum is required in the bidding document.
