

City of Evanston Bird Watching Locations

Learn more about Evanston's top birding locations, conservation initiatives and actions you can take to protect birds by scanning the QR code below.

World Migratory Bird Day is a biannual event, taking place on the second Saturdays of May and October, which aims to raise awareness and appreciation of birds, their conservation and importance.

City of Evanston invites you to explore the natural areas of the city through a new lens as you take part in this event and try to spot and appreciate the birds that live around us.
