[About Census Reporter](#)

[@CensusReporter](#)

[Census Reporter on GitHub](#)

Census Reporter is a free, open-source project. [Your donations](#) help us add new data to the site and keep it running.

About Census Reporter

Census Reporter is an independent project to make data from the American Community Survey ([ACS](#)) easier to use. We are unaffiliated with the U.S. Census Bureau.

A [News Challenge grant from the Knight Foundation](#) funded the initial build-out of the site. **Joe Germuska** developed the grant proposal and is the project lead. Our original project advisory board consisted of **Joe Germuska**, **John Keefe**, and **Ryan Pitts**. We are grateful to [Investigative Reporters and Editors \(IRE\)](#), who served as the fiscal agent for our original grant funds. After the original grant was spent, we incorporated as Census Reporter, NFP, an Illinois not-for-profit corporation.

Sara Schnadt served as the original designer and community coordinator. **Ryan Pitts** and **Ian Dees** were the primary software development team. **Joe Germuska** served as project manager and wrangler, and, with **John Keefe**, contributed to project design and planning.

Since the development of the initial site, additional contributions of code and/or documentation have been made by **Avriana Allen**, **Scott Bradley**, **Durell Gill**, **Cathy He**, **Kristen Li**, **Joon Park**, **Tushar Samant**, and **Sumin Woo**. Routine maintenance and support are provided by **Joe Germuska**. **Ian Dees** has donated a substantial amount of his time each year to update Census Reporter with new [ACS releases](#).

Support for our [2020 Decennial Census features](#) was provided by the Google News Initiative.

We are grateful to the [Medill School of Journalism, Media, Integrated Marketing Communications](#) at [Northwestern University](#), home of [Knight Lab](#), which provides in-kind support for some of Census Reporter's ongoing development. Most of our server hosting infrastructure is generously provided by the [Oregon State University Open Source Lab](#). Thanks also to [Mapbox](#) for subsidizing some of our technology costs, and [Amazon Web Services](#) for similar support in the past. Additional thanks to [UserVoice](#) for providing our user support system.

We are especially grateful to the individuals who directly support Census Reporter through contributions via [Open Collective](#).

If you would like to contact us about anything, please use [our UserVoice system](#).

About the Data

Data presented in Census Reporter is collected by the U.S. Census Bureau. In general, the data is from the most recently released American Community Survey ([ACS](#)).

At this time, the data is from the **2018-2022 5-year ACS** and the **2022 1-year ACS**. In general, 1-year ACS data is released in September of the year following its collection, and the 5-year ACS data is released in December. See the [ACS data releases page](#) for more information.

Census Reporter does not currently offer any access to past data. We recommend [data.census.gov](#) or [ipums.org](#) for those who need data from earlier ACS releases or other Census data products.

Our [2020 Census Data for Your Neighborhood](#) service is built on data from the 2020 Decennial Census redistricting data release.
