24ROOF-0206	08/26/2024	\$9,950.00	10-11-105-018-0000	2515 LAWNDAL AVE EVANSTON, IL 60201	Strip and re-roof west side hip roof on front of main house. Install ice shield, underlayment and new 18" fire treated perfection cedar shingles.

Permit No.	Date	Work Value	Parcel No.	Situs Address	Work Description
24ROOF-0207	08/26/2024	\$21,062.00	11-07-112-024-0000	1113 GRANT ST EVANSTON, IL 60201	Strip and re-roof shingled portions of house roof. Install ice shield, underlayment and new asphalt shingles. Strip and re-roof one-story flat roof. Install base sheet and install one ply modified bitumen roof system.
24ROOF-0208	08/27/2024	\$3,500.00	05-35-409-002-0000	2623 RIDGE AVE EVANSTON, IL 60201	Replace roof on garage only, 20' x 20' + 8' x 20' overhang.
24ROOF-0209	08/27/2024	\$9,380.00	10-24-313-051-0000	2025 KEENEY ST EVANSTON, IL 60202	On the main house & garage remove the layers of roofing down to the bare sheathing boards. Re-secure loose sheathing boards as needed. Any deteriorated lumber replacement will be charged for at a rate of \$60.00 per sheet 4' X 8' CDX plywood after notification and approval of the owner. Remove the exiting roof ventilators, soil pipe jackets and flashing at the base of the chimney. Install ice and water shield according to code. Code requires shield to be placed 24" inside the outer walls and around the base of the chimney and around the perimeter edge of the roof gutter to prevent ice damp. Install synthetic felt membrane over the balance of the sheathing boards, mechanically fastened. Synthetic shingle membrane is made to add an extra layer of protection from water, but also releases trapped moisture from poor attic ventilation. Install Certain Teed architectural style laminate shingles according to manufacturer's recommendation. Customer choice of available colors. Note: Certain Teed shingles have "weather tight" technology, that will withstand "hail impact" and algae resistance and superior protection against wind driven rain and up to 130 mph wind lift warranty. Use six zinc coated, rust resistant nails per shingle. Install new aluminum flashing around the chimney base and seal with a good quality sealant. Install new lead jackets on the soil pipes. Install individual ridge and hip shingles. Upon completion, re-secure the gutter apron to direct water into the gutter, clean and secure gutters as needed.
