City of Evanston Main Street Corridor Improvements, McDaniel Avenue to Dodge Avenue

The City of Evanston will discuss the Main Street Corridor Improvements project at the 2nd Ward Monthly Meeting on **Thursday, March 9, 2017 at the J.E.H Education Center, 1500 McDaniel Avenue, at 7:00 PM.** The ward meeting is open for all to attend.

The goals of the project include improvements to the following: pedestrian access, vehicular traffic and flow, key intersections, retail center driveways, as well as a review of the corridor's bicycle network. Proposed alternatives will include new sidewalk on the south side of Main Street; potential impacts could include on-street parking and a limited number of trees.

The engineering firm, Stanley Consultants, and City of Evanston staff will present the following:

- Existing conditions in the corridor
- Proposed alternatives for consideration
- Project schedule

The goal is to receive community input regarding preliminary design alternatives for further development and refinement.
